One. Letter to Shareholders

Dear shareholders,

The consolidated revenue and net operating profit in 2022 climbed 22.97% and 37.98% respectively from 2021, with a foreign exchange gain of NT\$1,103,179 thousand due to currency depreciation, led to the after-tax EPS NT\$42.56. Taking a closer look at the operational performance in 2022, our revenue and profit did not decline due to the continuous sharp increase in the price of raw materials; instead, we managed to achieve both top-line and bottom-line growth, with the growth rate of operating net profit exceeding that of revenue, and once again reached a record high. The record-breaking performance has been mainly thanks to not only the depreciation of the New Taiwan Dollar but the increase in customer orders and positive effects on sales and profitability generated from the launch of new products. The long-planned intelligent plant and production line have been officially put into mass production in July 2022. Although the operational performance so far in 2023 has been affected by customers' excessive inventory resulted from the over-purchasing in 2022, with the continuous introduction of more new products, we believe the future growth prospect is still promising and expect to bring a better operational performance to shareholders in the near future. We are hereby reporting 2022 business result and 2023 outlook.

I. 2022 business result:

1. Business plan implementation results:

Unit: NT\$ Thousand

Item	2022	2021	Increase or decrease in amount	Change in ratio (%)
Operating revenue	7,798,631	6,341,989	1,456,642	22.97
Profit from operations	3,752,672	2,719,682	1,032,990	37.98
Net profit	4,056,145	2,072,520	1,983,625	95.71

2. Implementation of budget:

The 2022 financial forecast was not disclosed, so there is no budget achievement.

3. Financial revenue and expense and profitability analysis:

Item		2022	2021
Financial structure (%)	Ratio of liabilities to assets	18.70	18.33
	Ratio of long term funding to property, plants, and equipment	584.12	562.33
Solvency (%)	Current ratio	786.61	723.46
	Quick ratio	738.28	666.72
	Times interest earned ratio	501.27	266.06
Profitability (%)	Ratio of return on total assets	23.44	14.44
	Ratio of return on shareholders' equity	28.72	17.47
	Ratio of profit before income tax to paid-in capital	532.36	272.38
	Profit ratio	52.01	32.67
	Earnings per share (NT\$)	42.56	21.75

4. Research development status:

The company's R&D expenditure in 2022 was NT\$233,250 thousand; main development status is as follows:

- (1) In response to the planning of the new generation products, R&D continues to develop new slide rail kit products to be applied in standard and open rack cabinets, or other special cabinets. In order to create more diversified, efficient, and high-tech products under the restriction of limited spaces, R&D carries out in-depth analysis and analytics on new products specifications by as many aspects as possible and throughout all the stages from early design to the end-user markets to consolidate and evaluate product functionality, convenience, and safety. This is also the major policy and direction for the future product development so as to develop the proper green products for the numerous applications in 3C products market.
- (2) Regarding the channel market, high-end slide rails, and hinges, since a series of products have already been developed, the Company is currently gathering more application insights for the existing standard products in order to build a more comprehensive product line to meet the demands of the new modern styles. Meanwhile, the Company actively use the insights collected to develop products with functional features of convenience and safety that appeal to users. This will also enhance the Company's competitiveness and value in

the markets for high-end kitchen, office cabinets, toolbox, medical care, and smart home. In response to higher production needs, we have actively developed and introduced more advanced automated and intelligent manufacturing equipment to achieve smart production, thereby enabling the Company to achieve a low-cost, high-efficiency, and high-quality production conditions for all its products.

II. 2023 business plan

(I) Business policy

In line with the long-term business policy of continuous recruitment and training of management, marketing, and R&D talents, the Company is committed to strengthening the management team and talents to become the Company's most important assets. Other important principles are as follows:

1. The complete R&D and industrial layout of the Rail Kit product line developed in line with cloud computing requirements.
2. The complete R&D and industrial layout of the kitchen Rail Kit product line for household consumption needs.
3. The complete R&D and industrial layout of the consumer product line for personal consumption needs.
4. The introduction of intelligent production technology to improve business management performance.
5. The establishment of global flexible production bases to meet the needs of customers in different markets.

(II) Sales forecast and the basis

Based on the past volume, current orders, market demands, etc., the Company's sales forecast for 2023 is as follows:

Product	Unit	Shipment forecast
Rail Kits	thousand sets	14,579
Slides	thousand sets	77
Hinge	thousand units	3,692

(III) Important production and sales policies

1. Production policy

We are aiming to rationalize the production procedures with intellectual production management system by phasing in lean manufacturing, cutting down production and warehousing costs. Low added value products will be outsourced as a whole or

outsourced for processing to increase the Company's product value.

2. Sales policy

- (1) We will continue to win orders from international and domestic sellers of computer servers, networking and communication equipment, as well as cloud data service providers, adopting a new-product-driven sales approach to gain market share.
- (2) We will leverage the current brand recognition to promote both our mature lines to international server cabinet suppliers, and the newly developed high-end kitchen lines to the international sellers of system furniture, channel partners and medical equipment. The goal is to build a global sales network and establish King Slide's brand globally.
- (3) We will establish global distribution channels with local outlets to offer total solutions to customers through our complete product lines.

III. Future development strategies

- (I) Our short to mid-term strategy is to increase the market share of our rail kits in the computer server market and cloud data centers, and further promote the use of King Slide's rail kit in the peripheral products of these fields.
- (II) In the long term, we aim to develop functional products that brings a more convenient life and are applicable to a wide variety of industries, in order to increase market share and build customer loyalty.
- (III) We will set up global warehouses and sales bases gradually and establish global flexible production bases to shorten the delivery period and win orders from the market of consumer products.

IV. Impacts of external competition, the legal environment, and the overall business environment

Our ultimate goal is to maximize shareholders' interests. The industry we are engaged in is still at the growing stage, we will make necessary adjustments along with any changes in the industry environment and regulations in the future. Since incorporation, we have actively pursued innovation and business transformation to strengthen our competitiveness, and held a more cautious and conservative attitude in response to the changing environment. In addition to strictly implementing cost-saving and expense cutting strategy, we have invested more funds and resources to expand our markets in different industries in order to strengthen the popularity of the "King Slide" brand in the world. Because of the geopolitical risks, we also actively seek to establish production bases or partners in different regional networks and actively implement the promotion of ESG policies under the continuous sustainable management policies, look

forward to have better business performance in the future.

Lastly, we would like to show our appreciation to our shareholders for their long-term supports with the highest gratitude. Thank you!

Best Wishes, Chairman: Lin Tsung-Chi

President: Lin Shu-Chen

Two. Company Profile

I. Date of incorporation: September 22, 1986

II. Company history:

- 1986 Company registration approved by The Ministry of Economic Affairs.
Total paid-in capital was NT\$ 10 million.
Acquired factory land of 8,986 m² and building approval.
- 1987 Capital increased by cash of NT\$ 30 million. Total paid-in capital reached NT\$ 40 million.
- 1988 Factory floor area expanded to 15,281 m² with building approval. Mass production of slides began.
- 1992 Factory floor area expanded to 23,094 m². Completed building of the 2nd phase plant and factory.
- 1994 Factory floor area expanded to 25,165 m²
Capital increased by cash of NT\$ 55 million. Total paid-in capital reached NT\$ 95 million.
Acquired two premises of 360.41 m² in Taichung for establishing the local office.
- 1995 Obtained ISO9001 certificate.
Acquired premises of 388.69 m² in Taipei for establishing the local office.
- 1996 Completed building of the 3rd phase automated warehousing facilities and added automated production lines for hinges.
- 1998 Converted NT\$ 63 million from additional paid-in capital to new shares. Total paid-in capital reached NT\$ 158 million.
- 1999 Invested building of the 4th phase plant and factory and added automated production lines for ball bearing slides.
Obtained ISO14001 certificate.
Converted NT\$ 30 million from retained earnings to new shares. Total paid-in capital reached NT\$ 188 million.
Several patents were awarded for NB hinge development initiated for business transformation.
- 2000 Completed the supplemental public issuance through the approval letter Tai Cai Zheng (I)# 60236 from Securities and Futures Institute in 2000. Converted NT\$ 56.4 million from retained earnings to new shares with additional capital increased by cash of NT\$ 135.6 million. Total paid-in

capital reached NT\$ 380 million.

Several patents were awarded for server Rail kits and associated components during our transformation to 3C industry.

2001 Received trial orders of servers from Compaq. Bulk orders received subsequently.

2002 Received certificate and passed testing from various major international server sellers and makers.

2003 Converted NT\$ 6.84 million from retained earnings and NT\$ 0.76 million from employee bonus to new shares. Total paid-in capital reached NT\$ 387.6 million.

Successfully developed the rail kit for 1U-7U rack server and its related components.

Start mass production for multiple major international server suppliers.

Invested building of the 5th phase plant and factory for expanding production capacity for Rail kits.

Obtained product certification and test pass from many international server manufacturers and server foundries.

2004 Introduced independent directors and supervisors, and changed company name to King Slide Works Co., Ltd.

Introduced external corporate shareholders, and filed our stock for TPEx trading.

2005 Started TPEx listing.

Converted NT\$ 155.04 million from retained earnings and NT\$ 11.64 million from employee bonus to new shares. Total paid-in capital reached NT\$ 554.28 million.

2006 Received certificate from server supplier DELL.

Converted NT\$ 110,856,000 from retained earnings and NT\$ 6,064,000 from employee bonus to new shares. Total paid-in capital reached NT\$ 671,200,000.

Established the U.S. subsidiary, King Slide USA, Inc.

Established a subsidiary, King Slide Technology Co., Ltd.

2007 Issued the first domestic unsecured convertible bonds of NT\$ 980 million.

Start mass production for DELL.

Converted NT\$ 67.12 million from retained earnings and NT\$ 5 million from employee bonus to new shares. Total paid-in capital reached NT\$

743.32 million.

New shares issued for bond conversion of NT\$ 442,470. Total paid-in capital reached NT\$ 743,762,470.

2008 Established a subsidiary, King Slide (Samoa) Co., Ltd.

Established a second-tier subsidiary, King Slide (Hong Kong) Co., Limited.

Started TAIEX listing

Established a third-tier subsidiary, King Slide Technology (China) Co., Ltd.

Converted NT\$ 37,188,120 from retained earnings and NT\$ 4,090,000 from employee bonus to new shares. Total paid-in capital reached NT\$ 785,040,590.

King Slide Technology Co., Ltd. completed the construction of the first plant and obtained establishment permit.

2009 Obtained OHSAS 18001 certificate.

Converted NT\$ 78,504,060 from retained earnings and NT\$ 6,678,080 from employee bonus to new shares. Total paid-in capital reached NT\$ 870,222,730.

Received “Branding Taiwan” from The Ministry of Economic Affairs.

Issued the 2nd domestic unsecured convertible bonds of NT\$ 500 million.

New shares issued for bond conversion of NT\$ 1,163,150. Total paid-in capital reached NT\$ 871,385,880.

2010 New shares issued for bond conversion of NT\$ 2,483,900. Total paid-in capital reached NT\$ 873,869,780.

Converted NT\$ 43,866,750 from retained earnings and NT\$ 3,465,300 from bond conversion to new shares. Total paid-in capital reached NT\$ 921,201,830.

Received Challengers Award in 2010 International Woodworking Fair (IWF).

2011 Established compensation committee.

Received the 19th Taiwan Excellence Award (1A88).

2012 New shares issued for bond conversion of NT\$ 2,017,440. Total paid-in capital reached NT\$ 923,219,270.

2013 Received the 21st Taiwan Excellence Award (AE89).

New shares issued for bond conversion of NT\$ 23,357,630. Total paid-

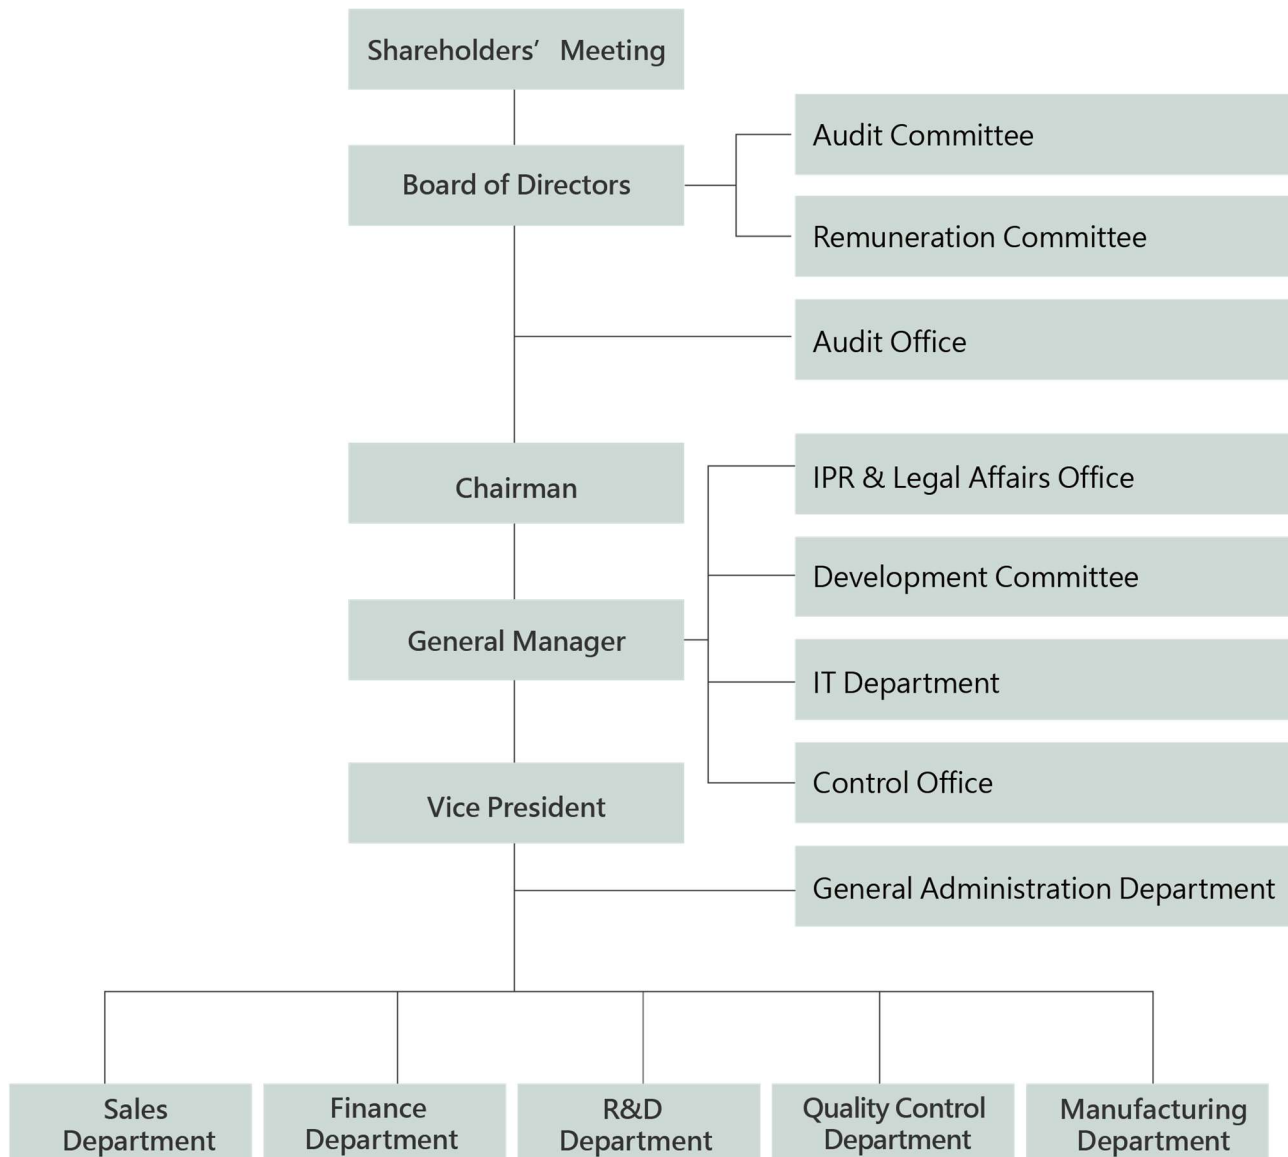

- in capital reached NT\$ 946,576,900.
- King Slide Technology Co., Ltd. was granted Authorized Economic Operator (AEO) status.
- 2014 New shares issued for bond conversion of NT\$ 6,393,820. Total paid-in capital reached NT\$ 952,970,720.
- 2015 Named Forbes Asia's 200 Best Under A Billion 2015.
- 2016 Received the 24st Taiwan Excellence Award (3M51A).
- 2019 Received 2019 Taiwan Excellence Award (Adjustable Concealed Soft-Close Hinges).
- Received 2019 Taiwan Excellence Silver Award (SIMLEAD Metal Drawer System).
- Obtained IECQ QC080000 certificate.
- King Slide Technology (China) Co., Ltd established a subsidiary, King Slide Technology (Shenzhen) Co., Ltd.
- 2020 Received 2020 Taiwan Excellence Award (ULead Silent Soft-closing Undermount Slides) 1J Series.
- Authorized Economic Operator (AEO) status was granted.
- Migrated from OHSAS 18001 to ISO45001.
- 2021 Received 2021 Taiwan Excellence Award (SIMLEAD Wood Drawer System).
- An audit committee was established to replace the supervisor.
- Passed the TIPS Taiwan Intellectual Property Management Standard Verification.
- 2022 King Slide Technology Co., Ltd. completed the construction of the second plant and obtained establishment permit.

Three. Corporate Governance Report

Note 1: Although the Chairman and President of the Company are first-degree relatives, the Chairman is the founder of the Company, while the President started working at the Company from entry-level employee. The President is familiar with the Company's rules and daily operations, and has always been strictly abiding by and followed relevant corporate governance regulations. In order to strengthen the independence of the Board, the Company also plans to increase the number of Independent Director seats to enhance the functions of the Board and strengthen the supervision function at the re-election of Directors in 2021 General Shareholders' Meeting. At present, the Company has the following specific measures:

- (1) The current four Independent Directors have expertise in the fields of finance, accounting and quality assurance, and can effectively perform their functions.
- (2) All Directors are arranged to participate in external training to improve the effectiveness of the Board's operations.

(3) Independent Directors can fully discuss and make recommendations for the Board to implement corporate governance.

(4) More than half of the Board members do not concurrently act as the employees or managers of the Company.

Note 2: Representative of Long Shen Investment Inc. reassigned Lin Shu-Chen as the representative on March 21, 2023.

Note 3: The independent director Wu, Hsiu is renamed to Wu, Yu-Ti at February 04, 2023.

Note 1: Long Shen Investment Inc. reassigned Lin Shu-Chen as representative at March 21, 2023.

Note 2: The independent director Wu Hsiu is renamed to Wu Yu-Ti at February 04, 2023.

5. The Diversity and Independence on the Board of Directors

(1) The Diversity on the Board of Directors

Instead of the ‘Nomination Committee’, the new director candidates are nominated by the “candidate nomination system” and evaluated by the board of directors, submitted to the shareholders’ meeting for election. In accordance with the article 20, paragraph 4 of “Corporate Governance Best-practice Principles” of the Company, the members of the board shall have the knowledge, skills, and experience necessary to perform their duties. To achieve the ideal goal of corporate governance, the board of directors shall possess the following abilities:

- A. Ability to make operational judgments.
- B. Ability to perform accounting and financial analysis.
- C. Ability to conduct management administration.
- D. Ability to conduct crisis management.
- E. Knowledge of the industry.
- F. An international market perspective.
- G. Ability to lead.
- H. Ability to make policy decisions.

To enhance the corporate governance system and assist the board in establishing sound development of its structure, the article 20, paragraph 3 of “Corporate Governance Best-practice Principles” of the Company was amended in 2021 to issue a more appropriate policy on diversity of board of directors that considering the dynamics of the company's operation structure, operating direction, development needs, and so on, the composition of the board of directors shall include certain basic requirements (e.g., gender, nationality, age), professional background (e.g., accounting, industry, finance, marketing, technology), professional skills, and industry experience.

(2) Goal

The board of directors of the Company shall direct company strategies, supervise the management, and be responsible to the company

and shareholders. The various procedures and arrangements of its corporate governance system shall ensure that, in exercising its authority, the board of directors complies with laws, regulations, its articles of incorporation, and the resolutions of its shareholders meetings. For the business development of the Company, there should be at least one of its board members required to have experience and expertise at each of the fields in finance, commerce, management, and otherwise necessary fields for the Company's development. Besides, the Company has focused on diversity in gender and required at least one female board member.

(3) Implementation

The diversity element distribution of the board: 5 members in accounting, 3 members in industry knowledge, 4 members in finance, 2 members in marketing, 1 member in information technology, 2 members in banking, 1 member in securities, 1 member in insurance, 2 member in asset management, and 3 members in risk management.

Diversity Core Element Name	Basic Requirement									Professional Background					Professional Skills and Industry Experience				
	Natio nality	Gender	Em ploy ee	Age			Term of Independent Directors			Accou nting	Indus try	Finan ce	Marketi ng	Infor matio n Tech nolog y	Bank ing	Sec uriti es	Ins ura nce	Asset Manag ement	Risk Manag ement

Yang Fu-Hsuan	ROC	Female		✓		✓			✓		✓						✓
---------------	-----	--------	--	---	--	---	--	--	---	--	---	--	--	--	--	--	---

Note: Percentage of the number of directors concurrently serving as the company employee: 2/7 (29%)

Percentage of the number of independent directors: 4/7 (57%)

Percentage of the number of female directors: 3/7 (43%)

(4) The Independence on the Board of Directors :

The Board of the Company is composed of 7 directors, including 4 independent directors (57%) who are not applying to any of the circumstances in the paragraph 3 and 4 of Article 26-3 of the Securities and Exchange Act, including the spousal relationship or familial relationship within the second degree of kinship among directors, supervisors, or directors and supervisors.

	Vice President	Wang Chun- Chiang				
	Assistant President	Fang Bing-Huang				
	Financial Manager	Xue Ya-Ling				
	Accounting Manager	Chen Yi-Nian				
	Corporate Governance Officer	Ching-Te Cheng				

Note: Estimated figures based on the disbursement in 2021

5. Remuneration of top five highest paid executives: None of the circumstances prescribed by competent authorities, not apply

(II) Compare respectively the ratio of the total amount of the remuneration paid to each of the directors, supervisors, president, vice presidents, etc. of the Company and all entities covered in the consolidated financial statements in the past two fiscal years to after-tax net profit stated in the financial reports along with explanations of the policies, standards and portfolios for the payment of remuneration, the procedures for determining remuneration and its linkage to business performance and future risks.

1. Analysis of the total amount of the remuneration paid to each of the directors, supervisors, president, vice presidents, etc. of the Company and all companies covered in the consolidated financial statements in the past two fiscal years to after-tax net profit stated in the financial reports

Item Title	Total Remuneration as percentage of After-tax Net Profit				Change %	
	2022 (Note 1)		2021 (Note 2)			
	The Company	All entities covered in the consolidated financial statements	The Company	All entities covered in the consolidated financial statements	The Company	All entities covered in the consolidated financial statements
Director	0.48%	0.48%	0.77%	0.77%	-37.66%	-37.66%
President and Vice President	0.51%	0.51%	0.71%	0.71%	-28.17%	-28.17%

Note 1: The 2022 employees' profit sharing bonus is estimated according to the actual distribution made in 2021.

Note 2: The 2021 total remuneration is the actual payment made

Explanation:

The remuneration paid to the Directors, President and Vice President as a percentage of net profit in the financial report in 2022 decreased by 37.66% and 28.17% from 2021, respectively, resulting from the increase of net profit by 95.71% from 2021. Although the remuneration payable and travel expense for directors and supervisors are fixed expenditure, the compensation for employees adjusted accordingly.

2. Compensation policies, standards/packages, procedures for determining remuneration, and its linkage to operating performance and future risk exposure:

(1) Describe the compensation policy, system, standard, and structure of the company's directors and how the factors such as duty, risk, and engaged time relate to the compensation amount.

① The compensation for serving as the directors of the company shall not exceed the maximum salary standard stipulated in the company's "Regulation for Salary Assessment of Employee" and shall be paid regardless of whether the company operates at a profit or loss.

② In accordance with the company's articles of incorporation, the compensation for the chairman and directors of the company basing on the degree of participation in the company's operations, the value contributed, and the industry standards shall be determined by the board of directors authorized by the resolution of the shareholders' meeting.

③ The directors' compensation is ruled expressly by the articles of incorporation that the appropriation shall not be more than 5% of the earnings before tax.

④ All the independent directors' compensation is better than the general directors' for undertaking the responsibility of doubling the members of the Audit Committee and Compensation Committee.

(2) Salaries and compensations to the president and vice president of the Company were set according to "Regulation Governing Employee Salary". Bonuses were appropriated according to the Company's revenue and profitability, industry standard, and the performance of Corporate sustainability management (including employee safety, diversity, and environmental protection, etc.), and were reviewed and resolved by the Compensation Committee and the Board of Directors as well to minimize any possible risk to the Company's future.

IV. Implementation of corporate governance

(I) Board of Directors

A total of 7 meetings of the Board of Directors were held in 2022. The attendance of directors and supervisors was as follows:

Title	Name	Attendance in Person	by Proxy	Attendance Rate (%)	Remark
Chairman	Lin Tsung-Chi	7	-	100.00	
Director	Long Shen Investment Inc. Representative: Lin Tsung-Lung	4	-	57.14	
Director	Wang Chun-Chiang	7		100.00	
Independent Director	Hsu Fang-Yih	7	-	100.00	
Independent Director	Cai Wen-Zhi	7	-	100.00	
Independent Director	Wu Yu-Ti	7	-	100.00	
Independent Director	Yang Fu-Hsuan	7	-	100.00	

Other matters required reporting:

- I. The date, session, proposal content of the Board meeting, opinions of all Independent Directors and how the Company deals with such opinions shall be specified if any of the following circumstances occurs during the operations of the Board:
 - (I) Any circumstance set out in the paragraphs of Article 14-3 of the Securities and Exchange Act: Refer to Table(1) below.
 - (II) Apart from the circumstances above, other written or otherwise recorded resolutions on which an independent director had a dissenting opinion or qualified opinion: None
- II. In the events of recusals of directors due to conflicts of interests, the name of the director, meeting agenda and reason for the recusals and the resolution shall be clearly stated:
 - (I) Board meeting date: 01/10/2022
 1. Directors: Lin Tsung-Chi and Wang Chun-Chiang
 2. Proposal: Reviewing and approving employee cash bonus in 2020 and yearend bonus allocation in 2021 for the Chairman, top managers, and internal auditors.
 3. Reason for the recusals: the directors above were the interested parties (Chairman and Executive Vice President).
 4. Resolution: the proposal was approved by other attending Directors with the recusal of Lin Tsung-Chi (Chairman) and Wang Chun-Chiang (Director).
 - (II) Board meeting date: 11/04/2022
 1. Directors: Lin Tsung-Chi and Wang Chun-Chiang
 2. Proposal: Reviewing salary adjustment for the Chairman, top managers, and internal auditors.
 3. Reason for the recusals: the directors above were the interested parties (Chairman and Executive Vice President).
 4. Resolution: the proposal was approved by other attending Directors with the recusal of Lin Tsung-Chi (Chairman) and Wang Chun-Chiang (Director).
 - (III) Board meeting date: 11/04/2022
 1. Directors: Lin Tsung-Chi, Lin Tsung-Lung, and Wang Chun-Chiang.
 2. Proposal: Reviewing and approving remuneration to the directors and supervisors for 2021 service
 3. Reason for the recusals: the directors above were the interested parties.

4. Resolution: the proposal was approved by other attending Directors with the recusal of Lin Tsung-Chi (Chairman) and Wang Chun-Chiang (Director).
III. The information on the evaluation cycles, periods, scope, method and content of the Company's Board of Directors self-evaluation (or peer assessment) shall be disclosed, and complete Attachment 2 for the performance of the Board evaluation: Refer to Table(3) below.
IV. The objectives(such as setting of an audit committee, improvement of information transparency, etc.) of strengthening the functionality of the Board of Directors for the current fiscal year and the most recent fiscal year and assessment on the implementation: The Company established an audit committee together with the re-election of Directors at the 2021 General Shareholders' Meeting, and declared various financial and business information at MOPS in accordance with regulations in order to enhance the transparency of information.

Note: The independent director Wu, Hsiu is renamed to Wu Yu-Ti at February 04, 2023.

The proposal was already submitted to and passed by a resolution of the 9 th session of the 14 th board of directors and implemented accordingly.

3. Operational status of Nomination Committee: Not applicable

(V) The state of the Company's promotion of sustainable development, any variance from the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies, and the reason for any such variance:

Promotion Item	Implementation Status			Deviations from “the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies” and Reasons
	Yes	No	Abstract Illustration	
I. Does the Company establish exclusively (or concurrently) unit and dedicated first line managers authorized by the board to be in charge of establishing the framework of promoting sustainable development and reporting to the board?	✓		<p>In order to improve the management of sustainable development issues, the board of directors of the Company has approved the Sustainable Development Best Practice Principles and the RBA Committee has been set up as the executive unit in charge of implementing the sustainable development programs and formulating related policies.</p> <p>The CEO serves as the chairperson of the RBA committee, and the executive vice president is appointed as the deputy chairperson and management representative to review various RBA issues which are mainly composed of 4 sections for labor, health and safety, environment, and ethics.</p>	All associated matters are being carried out according to “the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies”.

<p>II. Does the Company conduct risk assessments of environmental, social and corporate governance issues related to the Company's operations in accordance with the materiality principle, and formulate relevant risk management policies or strategies?</p>	<p>✓</p>	<p>For environmental management, the Company has a designated unit to guide relevant departments to obtain the required operation/working licenses in accordance with the relevant provisions of the environmental protection laws and regulations. The Company also adopts the ISO 14001 environmental management system to improve the environmental awareness of relevant departments.</p> <p>Also, in order to effectively implement the management of hazardous substances in all products, the Company adopts the IECQ International Standard for Hazardous Substances Process Management System (IECQ QC080000) in 2018 and passed the certification in January 2019, establishing a complete, systematic and clear management process. Through "process-oriented" approach, from the needs and expectations of stakeholders, management of risks and opportunities, to product design / development, material input to product output, documentation of information, and final satisfaction, the Company implements hazardous substances management, to continue to provide high-quality green products and services.</p>	<p>All associated matters are being carried out according to “the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies”.</p>
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------

		<p>As of the end of 2022, the Company has introduced the following management systems: ISO 9001 Quality Management System, ISO 14001 Environmental management systems, ISO45001 Occupational Health and Safety Management Systems, IECQ QC080000 Hazardous Substance Process Management System Requirements, Taiwan Intellectual Property Management System (TIPS), Authorized Economic Operator (AEO), the RBA Code of Conduct, and the Healthy Workplace Certification promoted by HPA. Through continuous operation of the above management systems, the Company can promptly identify and respond to the risks related to the environment, labor safety, customers, suppliers, etc., in the operation activities.</p>	
<p>III. Environmental Issues</p> <p>(I) Does the Company establish proper environmental management systems based on the characteristics of their industries?</p>	✓	<p>The control room and the environmental task force were appointed to implement necessary work regarding to environment, safety and cleanness for law compliance. The Company has received ISO14001, certificate for international environmental governance since 3th September 1999, the last version of ISO14001 is issued in 2015, it will be effective during September 23, 2020 to September 23, 2023.</p>	<p>All associated matters are being carried out according to “the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies”.</p>
<p>(II) Does the Company endeavor to efficiently utilize resources and</p>	✓	<p>The Company actively promotes energy and resource conservation</p>	<p>All associated matters are being carried out</p>

use renewable materials with low environmental impact?		and waste reduction based on the stipulated environmental security policy which includes improvement of the raw material efficiency, reduction of packaging materials, management of garbage classification and recycling, application of wastewater recovery and treatment systems to reuse the treated industrial wastewater, etc., and the Company also dedicates to green products production and energy conservation to reduce the environmental impacts.	according to “the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies”.
(III) Does the Company assess the potential risks and possibilities of climate changes to the Company for now and in the future and take measures to respond?	✓	<p>To achieve the sustainable development goals, carry out the corporate social responsibility, and further have the positive influence on the economy, environment, and society, the Company has paid great attention to the climate change issues and encouraged the resource reuse, including the introduction of electronic invoices and electronic official document exchange mechanism to improve the efficiency of documents transfer, delivery, and paperwork, and reduce postage cost. Besides, the Company has encouraged the double-sided printing, the placement of recycling bins around the printers and reuse of scrap papers to reduce the paper waste from the routine work, and has installed energy-saving LED lamps in the office and turned off the lights at the lunch break and off-duty hours to reduce electricity consumption and mitigate global warming.</p> <p>The Company has also dedicated to schedule the replacement plan of the equipment with higher carbon emission and diminishing utilization and efficiency as the routine maintenance work and made the equipment featured with green</p>	All associated matters are being carried out according to “the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies”.

			energy and lower carbon emission the high priority in procurement.	
--	--	--	-----------------------------------------------------------------------	--

<p>(IV) Does the Company record the greenhouse gas emissions, water consumption and total weight of waste produced in the past two years, and formulate policies on greenhouse gas reduction, water conservation, or other industrial waste reduction?</p>	<p>✓</p>	<p>The Company has set targets to reduce greenhouse gas emissions, water consumption, and industrial waste respectively, and has implemented waste classification and reduction, water and electricity conservation, and other related environmental managements. Besides, the Company has dedicated to the policies on the energy saving and carbon emission reduction to continuously improve the efficiency of the energy utilized in production and mitigate the environmental impacts.</p> <p>The 2023 environmental targets are as follows:</p> <ol style="list-style-type: none"> (1) The CO₂e emission target of King Slide Works Plant decreased by 1.7%. (2) The CO₂e emission target of King Slide Technology Plant decreased by 0.85%. (3) The reduction target of water usage in the production process remains unchanged as 14.36 litres per square meter. (4) The reduction target of domestic sewage in King Slide Works Plant was 508.76 litres per person. (5) The water testing result met the water quality standards under the Water Pollution Control Act. (6) The solid waste target remained unchanged as 16.09KG per 1000 product sets. 	<p>All associated matters are being carried out according to “the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies”.</p>
------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------

		<p>The measures taken as followed:</p> <ol style="list-style-type: none"> (1) There were several stamping motors of the Molding Section of King Slide Works Co., Ltd. replaced with 2 motors with 15hp frequency converters to save electricity. (2) There were 2 new 75hp frequency converter added into the 315T stamping press of the Molding Section of King Slide Works Co., Ltd. to save electricity. (3) The Surface Treatment Section of King Slide Works Co., Ltd. replaced two 1000A high-efficiency rectifiers, which can effectively save energy. (4) There were traditional T8 tubes 20W*32 groups*4 replaced with T8 LED tube light 18W*32 groups*2 on the 3rd floor of the office building of King Slide Technology Co., Ltd. The wattage reduction meets lighting regulations and saves energy. (5) The traditional T8 tube lights with 2 feet 20W of 7 places on the stairs in King Slide Technology Co., Ltd. were replaced with high-brightness LED tube lights with 2 feet 10W. The wattage reduction meets lighting regulations and saves energy. (6) The seventh set of punch connected with twelve 110T punch motors and one 260T punch motor in King Slide Technology Co., Ltd. had run with idle speed for about 4 hours a day. By modifying the program on the machine interface, the motors would've stopped running if there were no actuation after the punch being started for 10 minutes, which can save electricity costs of 3-hours idling (6 times of 10-minute running). 	
--	--	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--

		<p>(7) The 21 40W T8 lights turning on all the years on the scooter parking spaces under the slope of the King Slide Technology Co., Ltd. were replaced with 2 60W LED light bulbs with a timer installed and set to turn on at 17:30-22:00, which gives enough illumination and saves energy.</p> <p>(8) The 250W metal haloid lamps on the UK production line in the factory of King Slide Technology Co., Ltd. were replaced with 80W LED light bulbs, which gives enough illumination and saves energy.</p>	
<p>IV. Preserving Public Welfare</p> <p>(I) Does the Company formulate appropriate management policies and procedures according to relevant regulations and the International Bill of Human Rights?</p>	✓	<p>The Company has formulated a set of work rules according to Labor Standard Act that has reported to the competent authorities and announced to the employees. Apart from complying with the local regulations, the Company is also in compliance with Code of Conduct - Responsible Business Alliance, RBA Version, including “Conflict Minerals.”</p>	<p>All associated matters are being carried out according to “the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies”.</p>
<p>(II) Does the Company formulate and implement reasonable employee benefits measures (including remuneration, vacation and other benefits, etc.), and appropriately reflect the results of operating performance in employee compensation?</p>	✓	<p>The matters regarding work relationship, cooperation, employment terms and welfares are bilateral discussed in the regularly-held labor meetings.</p> <p>Please refer to page 112 of this annual report for relevant employee welfare measures.</p> <p>In addition to the provision of employee compensation in accordance with the Articles of Incorporation, the annual salary adjustment is also calculated in accordance with the relevant measures and reviewed by the Remuneration Committee and the Board of Directors. Therefore, the operating performance or results have been properly reflected in the employee compensation.</p>	<p>All associated matters are being carried out according to “the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies”.</p>

(III) Does the Company provide a healthy and safe working environment and organize training on health and safety for its employees on a regular basis?	✓	<p>We have formulated the Occupational safety and health committee according to Occupational Safety and Health Act to involve employees in the associated issues through regular meetings. The Company has obtained ISO45001, international certificate for occupational safety and health management system. Further improvements will continue to reinforce the implementation. Staff checkup is conducted regularly every year with various education and promotional activities held for the related topic.</p>	All associated matters are being carried out according to “the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies”.
(IV) Does the Company provide its employees with career development and training programs?	✓	<p>The Company attaches great importance to the talent developments, constantly strives to improve professional ability, provides a systematic learning system, promotes learning initiatives to employees and encourages supervisors providing assistance on the side, in order to meet the needs of the Company's business and personal career development. Development scope covers Personal development under performance management, diverse learning courses, continuing education assistances and various levels of learning.</p>	All associated matters are being carried out according to “the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies”.
(V) Does the Company comply with relevant laws, regulations, and international standards for customer health and safety, customer privacy, marketing and labeling of products or services, etc., and develop relevant consumer protection policies and complaint procedures ?	✓	<p>All the core products are sold to the distributors; therefore, no marketing activities carried out to the end users. Any publicities to the market, including advertisement, promotions and sponsorship are all complied by the laws and regulations. There have not been any illegal or dishonest wrongdoing. The Company has clearly banned Trust activities and dishonest advertisement in the its marketing and fair trade management rules.</p>	All associated matters are being carried out according to “the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies”.

<p>(VI) Does the Company formulate a supplier management policy that requires suppliers to follow relevant regulations on issues such as environmental protection, occupational safety and health, or labor rights, and their implementation?</p>	<p>✓</p>	<p>The Company values customer privacy and intellectual property rights and signs confidentiality agreements with customers to protect customer confidential information.</p> <p>The Company's supplier development strategy is as follows:</p> <ol style="list-style-type: none"> 1. Promote global supplier integration to improve procurement efficiency. 2. Incorporate human rights and environmental indicators through supplier management to build a green supply chain with suppliers. 3. Strengthen policy of local procurement to reduce the environmental footprint of the procurement process and to promote local community economic development. <p>The evaluation team regularly reviews and formulates supplier audit plans, plans labor human rights themes, health and safety themes, environmental themes, ethical themes, and management system themes to carry out supplier audit evaluations. If a supplier is found to be in violation of the regulations, the Company will advise the supplier and assist its growth.</p>	<p>All associated matters are being carried out according to “the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies”.</p>
<p>V. Does the Company prepare its non-financial reports such as Sustainable Development Report in accordance with the internationally-used reporting standards or guidelines? Have such reports been assured, verified, or certified by the third-party certification?</p>	<p>✓</p>	<p>The Company’s Sustainable Development report was compiled based on GRI Standards but has not yet been certified by any third-party certification body.</p> <p>Webpage: https://kingslide.com/csr_report</p>	<p>All associated matters are being carried out according to “the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies”.</p>

<p>VI. If the Company has established the sustainable development programs based on “the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies”, please describe any discrepancy between the Principles and their implementation: The Company’s “Sustainable Development Best Practice Principles” was approved by the board of directors on January 29, 2016, and implemented accordingly, without any significant deviation from the principles.</p>				

VII. Other important information for better understanding of the Company's sustainable development practices:

1. Environment protection:

To promote the green protection, implement waste recycle and energy saving, we have created a working environment that is ROHS- qualified and continue to lower the pollution and hazard levels to conform with the government regulations and undertake the social responsibility to protect the environment.

2. Community involvement, social contribution activities, human rights, and any other social responsibility activities:

The Company has been involved with various charity and donation events to sponsor the disadvantaged individual and groups to show our care to the needs in the society: Important sponsorship in 2021 are as follows:

- (1) [Support Farmers] At the beginning of 2022, due to the crisis of exporting pineapple custards in our country without warning, the pineapple custards were abundant but could not be exported. The president of the Company ordered 240 boxes of seasonal sweet pineapple custard on the pre-order platform of the Council of Agriculture and shared to all the employees of the Company.
- (2) [Community Service] There are always lots of puddles after the rain because of the potholes on the asphalt road in the industrial park where the Company located. For the safety of driving and the neatness of the roads, the Company voluntarily purchased asphalt materials to fix the potholes.
- (3) [Support Local Government] The 2022 Taiwan Lantern Festival was held in Kaohsiung. As a local company in Kaohsiung, the Company sponsored the festival by buying the small lanterns of the Kaohsiung Lantern Festival and shared to all the employees of the Company.
- (4) We collaborate with Andrew Charity Association to donate 20 boxes of Food Boxes every month. These boxes contain foods mainly for the development needs of children aged 4-15. The room temperature Food Boxes contain staple (white rice, noodles), non-staple food (milk powder, meat floss, canned meat and prepared foods, cereals, brewed beverages, long life milk, nutrition biscuits) and inspirational reading materials. We care for children who grow up in poverty and hunger and accompany them through hard times.

3. Consumer rights:

Core products of the Company are sold to the distributors, not the end customers. A "Handling Procedures of Customer Complaints" has formulated to assist report product complaints.

4. Health and safety:

The Company adopt "waste reduction, resource cherishing, green production, environment care, risk management, disaster prevention, law compliance, continuous improvement" to hold up the environmental security policy together with the company employees.

(VI) Ethical corporate management implementation status and any variance from the Ethical Corporate Management Best Practice Principles for TWSE/TPEX Listed Companies, and the reasons for any such variance:

Evaluation Item	Implementation status:			Deviations from “the Ethical Corporate Management Best-Practice Principles for TWSE/TPEX Listed Companies” and Reasons
	Yes	No	Abstract Illustration	
I. Establishment of ethical corporate management policies and programs				
(I) Does the Company establish its ethical corporate management policies which approved by the board of directors and declare its ethical corporate management policies and procedures in its guidelines and external documents, as well as the commitments from its board and higher management to implement the policies??	✓		The Board of the Company adopted the resolution, on 01/29/2016, to formulate “Ethical Corporate Management Principles” and “Code of Ethic Conduct,” which have made available for viewing in the Company website and the internal communication network.	It is being carried out as stipulated under “Ethical Corporate Management Best-Practice Principles for TWSE/TPEX Listed Companies”
(II) Has the Company established an evaluation mechanism for the risk of unethical conduct? Does the Company regularly analyze and evaluate business activities with a higher risk of unethical conduct in the business scope, and formulate a plan to prevent unethical conduct, which at least covers Paragraph 2 of Article 7 in Ethical Corporate Management Best-Practice Principles for TWSE/TPEX Listed Companies?	✓		The Company has established effective accounting policy and internal control system to prevent the business activities at the higher risk of being involved in an unethical conduct, such as having under-the-table accounts or keeping secret accounts, and conducted reviews regularly to ensure the effectiveness of the design and enforcement of the systems. The Company also requires relevant departments to conduct regular or irregular sampling checks on whether the Company has complied with the Best-Practice Principles, based on which to prevent unethical conduct.	It is being carried out as stipulated under “Ethical Corporate Management Best-Practice Principles for TWSE/TPEX Listed Companies”
(III) Does the Company establish policies to prevent unethical conduct with clear statements regarding relevant procedures, guidelines of conduct, punishment for violation, rules of appeal, and the commitment to implement the policies and review the policies afore mentioned on a regular basis?	✓		The Board of the Company adopted the resolution, on 01/29/2016, to formulate “Ethical Corporate Management Operating Procedures and Code of Conduct,” which has made available for viewing in the Company website. In the meantime, work rules and “Management Procedures for whistle blowing, Filing Complaints and Suggestions” have also created for reinforcement and precautionary purposes.	It is being carried out as stipulated under “Ethical Corporate Management Best-Practice Principles for TWSE/TPEX Listed Companies”

<p>II. Implementing ethical corporate management</p> <p>(I) Does the Company evaluate the ethical records of the businesses with which it has dealings and include clear ethical corporate behavior provisions in contracts with such counterparties?</p> <p>(II) Has the Company set up dedicated unit in charge of promotion and execution of the company's corporate conduct and ethics, and report to the Board about any operation policies, and plans and supervision on ethical corporate management policies and prevention program of unethical conduct on a regular basis (at least once a year) ?</p>	<p>✓</p> <p>✓</p>	<p>The Company also reduces the risk of various types of unethical conduct through internal control operations and routine audits.</p> <p>The Company has asked its suppliers sign the Guidelines of Honest Business Conduct of Suppliers and Employees, and Code of Integrity to act upon ethical business conducts. The Company has also signed the supplier honesty and integrity agreement to its customers. There are also measuring regulating corruption, unfair advertisement and trade practices to prevent such events from happening.</p> <p>To ensure full implementation of our ethical management policy, we have assigned the following affairs to the related departments:</p> <ol style="list-style-type: none"> 1. Finance department: Filing work for all work execution and reporting document, as well as the associated tasks and execution supervision. 2. Patent and audit office <ol style="list-style-type: none"> (1) Assisting integrating integrity and ethical value into business strategies and formulating associated preventive measures against mal-practices according to the laws and regulations. (2) Formulating programs for unethical conducts prevention with the associated standard operation procedures and guidelines. (3) Organization and departmental function planning and setting the check-balance and monitoring mechanism for department that comes with greater possibility of mal-practices. 3. Administrative division: <ol style="list-style-type: none"> (1) Promoting and coordinating 	<p>It is being carried out as stipulated under “Ethical Corporate Management Best-Practice Principles for TWSE/TPEX Listed Companies”</p> <p>It is being carried out as stipulated under “Ethical Corporate Management Best-Practice Principles for TWSE/TPEX Listed Companies”</p>
------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

			<p>training programs of ethical management policy</p> <p>(2) Whistleblowing system planning and effect review</p> <p>4. Audit office: assisting the Board and the management monitoring and reviewing ethical management policies and related measures by providing the evaluation report to the Board on May 06, 2022.</p>	
(III) Has the Company formulated and implemented policies to prevent conflicts of interest and provide appropriate ways to record any potential conflicts found?	✓		<p>We have formulated “Ethical Corporate Management Principles” and “Ethical Corporate Management Operating Procedures and Code of Conduct,” which have clearly stated conflict of interest prevention and complaint channel. All business units are asked to follow the regulations strictly.</p>	<p>It has been carried out as stipulated under “Ethical Corporate Management Best-Practice Principles for TWSE/TPEX Listed Companies”</p>
(IV) Has the Company established effective accounting and internal control systems for the implementation of policies, prepared audit plans according to the evaluation result of unethical conduct risks, and audit such execution and compliance, or hire external auditors to audit such execution and compliance?	✓		<p>The company has established a strict accounting system and internal control system. The Company has a dedicated accountant, financial department and internal audit department to perform usual internal control management. The internal auditors will also list the high-risk operations in the annual audit plan for evaluation, and compile the audit results into audit reports regularly submit them to the Supervisor, Independent Directors for review, and attend and report at the Board Meetings. In addition, the financial reports are audited by the CPAs to ensure the fairness of the financial statements.</p>	<p>It has been carried out as stipulated under “Ethical Corporate Management Best-Practice Principles for TWSE/TPEX Listed Companies”</p>
(V) Does the Company periodically hold internal and external ethical corporate behavior training?	✓		<p>The Company has regular internal and external training program on ethical management.</p>	<p>It has been carried out as stipulated under “Ethical Corporate Management Best-Practice Principles for TWSE/TPEX Listed Companies”</p>

III. Operation of the whistle blowing system				
(I) Does the Company establish both a reward/punishment system and a whistle blowing hotline? Can the accused be reached by an appropriate person for follow-up?	✓		The Company has created “Management Procedures for whistle blowing, Filing Complaints and Suggestions.” Apart from the hotline and mailbox which is handled by the audit office, any illegal conducts can also be reported directly through telephone number or email to vice president or upper managers for further investigation and handling.	It has been carried out as stipulated under “Ethical Corporate Management Best-Practice Principles for TWSE/TPEX Listed Companies”
(II) Has the Company established standard operating procedures for investigations on reports, follow-up measures to be taken after the investigation is completed, and related confidentiality mechanisms?	✓		The Company has created “Management Procedures for whistle blowing, Filing Complaints and Suggestions” and “Whistleblower Protection and Anti-Revenge” for complaint handling, follow-up measures to be taken after the investigation is completed, and confidentiality protection.	It has been carried out as stipulated under “Ethical Corporate Management Best-Practice Principles for TWSE/TPEX Listed Companies”
(III) Does the company provide proper whistleblower protection?	✓		We have set up “Whistleblower Protection and Anti-Revenge” to protect the whistleblower with proper handling procedures.	It has been carried out as stipulated under “Ethical Corporate Management Best-Practice Principles for TWSE/TPEX Listed Companies”
IV. Enhancing Information Disclosure				
(I) Does the company disclose its ethical corporate management policies and the results of its implementation on the company’s website and Market Observation System, MOPS?	✓		The Company has made the related disclosure of Ethical corporate management implementation status on the Company’s website and MOPS.	It has been carried out as stipulated under “Ethical Corporate Management Best-Practice Principles for TWSE/TPEX Listed Companies”
V. If the company has established the ethical corporate management policies based on the Ethical Corporate Management Best-Practice Principles for TWSE/TPEX Listed Companies, please describe any discrepancy between the policies and their implementation: There’s no significant deviation, as the Company has formulated its “Ethical Corporate Management Principles” based on Ethical Corporate Management Best-Practice Principles for TWSE/TPEX Listed Companies.

	Stock dividend	—	—	(Note 8)	—
		—	—	—	—
	Accumulated undistributed dividends (Note 4)		—	—	—
Return on Investment	Price/Earnings Ratio (Note 5)		17.46	10.18	—
	Price/Dividend Ratio (Note 6)		34.90	(Note 8)	—
	Cash Dividend Yield (Note 7)		2.87	(Note 8)	—

Note 1: Adjusted retroactively the stock and cash dividends distributed during the current year.

Note 2: Based on the year-end number of the outstanding issued shares and the dividend allocation resolved in the Board of Directors or the shareholders' meeting held the next following year.

Note 3: Please provide per-share earnings for both before and after adjustment basis when there were stock dividends

Note 4: Please disclose the accumulated dividends in arrears up to the current year if any of the conditions of the equity securities issuance allows to defer the payment of the dividends until the year with operation surplus.

Note 5: Price/Earnings Ratio = Average market price / Earnings per share

Note 6: Price/Dividend Ratio = Average market price / Cash dividend per share

Note 7: Cash Dividend Yield = Cash dividend per share / Average market price

Note 8: Pending for the approval of the annual shareholders' meeting the next following year.

(VI) Dividend policy and implementation

1. Dividend Policy under the Articles of Incorporation

According to the Article 26 under the Articles of Incorporation:

The Company's earnings, if any, should be applied for distribution as follows

- (1) Pay taxes and dues by law,
- (2) Offset the accumulated losses,
- (3) Set aside 10% of said profits as legal reserve. However, when the legal reserve is equivalent to the paid-in capital of the Company, the appropriation of legal reserve could be ceased
- (4) The special reserve shall be appropriated or reversed according to law and regulations
- (5) The remaining amount, if any, plus the accumulated unappropriated earnings shall be available for distribution according to the proposal of the Board of Directors. The distribution of dividends to the shareholders should be presented in the shareholders' meeting for resolutions.

The Company engages in an innovative industry with products widely used in various industries, such as cloud servers, network communication, kitchen ware, and consumer electronics. At the growth stage of the Company, the dividend policy is in line with the current and future development plans and shall be made basing on the consideration of investment environment, capital demand, domestic and international competition as well as the interests of shareholders. Therefore, certain amount of the surplus might be reserved for the Company's operation needs, and the remaining earnings shall be distributed to shareholders as dividends, whether by stock or in cash, of which the cash portion shall not less than 10% of the total distribution.

2. Proposal for the dividend distribution at the most recent shareholders' meeting

A Cash dividend of NT\$ 20 per share for a total of NT\$ 1,905,941,440.

The proposal above has approved by the Board meeting on February 24, 2023 and pending for the approval in the shareholders' meeting up to the publication date of the annual report.

3. If a material change in dividend policy is expected, provide an explanation: None

4. Other explanations: The company maintains the dividend policy of the previous year in accordance with current and future operating plans, and distributes cash dividends of approximately 50% of the earnings per share.

(VII) Effect upon business performance and earnings per share of any stock dividend distribution proposed or adopted at the most recent shareholders' meeting: Not applicable

(VIII) Compensation of the employees and directors

1. The percentage or range with respect to employees and directors' compensation, as set forth in the Company's Articles of Incorporation:

If the final annual accounts of the Company show a net profit for a given year, it shall allocate

The Company's earnings, if any, should be appropriated

(1) not less than 0.1% of the net profit as compensation to employees

(2) not more than 5% of the net profit as compensation to directors.

If the Corporation still has any accumulated loss, it shall first set aside the amount to offset the loss before such allocation.

2. The basis for estimating the amount of employees' and directors' compensation, the basis for calculating the number of shares to be distributed as stock bonuses, and the accounting treatment of discrepancy, if any, between the actual distributed amount and the estimated figure, for the current period.

The distribution proposal approved in the meeting of the board of directors on February 24, 2023 was no different from the estimated distribution recognized in 2022, and paid in cash.

3. Board resolutions on compensation distributions:

- (1) Amount distributed in cash or by stock for employees, directors, and supervisors' compensation:

① Employees' compensation in cash NT\$ 172,788,000

② Directors' remuneration in cash NT\$ 6,000,000

- (2) The amount of any employee compensation distributed by stock and the size of that amount as a percentage of the sum of the net profit stated in the financial reports and individual financial reports and total employee compensation for the current period:
Not applicable. All the distribution resolved by the meeting of the board of directors at February 24, 2023 was made in cash.

4. The actual distribution of the compensation of the employees, directors, and supervisors for the previous fiscal year:

Distribution	2021			
	Actual distribution resolved in shareholders' meeting	Distribution proposed by the Board meeting	Discrepancy	Reason for discrepancy
1. Employee cash remuneration (in NT\$ thousands)	85,849	85,849	—	—
2. Employee stock remuneration (in NT\$ thousands)	-	-	—	—
3. Remuneration to directors (in NT\$ thousands)	6,500	6,500	—	—

(IX) Share repurchases: None

II. Corporate bonds issuance: None.

III. Preferred shares issuance: None.

IV. Issuance of global depository receipts: None.

V. Issuance of employee stock options: None.

VI. Issuance of new restricted employee shares: None.

VII. Issuance of new shares in connection with mergers or acquisitions: None.

VIII Implementation of capital allocation plans: None.

Five. Business Overview

I. Business scope

(I) Business coverage

1. Core business content

- (1) Research, design, manufacture and distribute Rail Kits and server Rail Kits
- (2) Research, design, manufacture and distribute Slides for all purposes.
- (3) Research, design, manufacture and distribute Hinges
- (4) Other mechanical product design, manufacturing and distribution

2. Sales breakdown:

Product	2022
Rail Kits	96%
Slides	0%
Hinges	2%
Others	2%
Total	100%

3. Current product items

Product items
1. 1U-7U server rail kit and other equipment rail kits
2. Multi-functional slides
3. Multi-functional hinges

4. Products in pipeline

(1) Functional 3C products and components

Apply mechanical designs to develop peripheral products for server, LCD, ATM, printer, steel cabinet to meet multi-function purpose and the industry standards.

(2) High-value added kitchen products for retail market and slide rails for system kitchen cabinets.

(3) Full mechanical products applied in household that are humanized, safe, convenient, easy-to-use, easy installation and uninstallation.

(II) Industry overview

1. Current industry trend and development

Functional-extended products are offered for both computing servers and furniture. Rail kit products are mainly used in Cloud computing devices, such as server, network communication equipment, Cloud data storage facilities and its peripheral facilities, followed by kitchen drawers. The hinge and slide products are mostly used in furniture, metal cabinets, industrial cabinets, etc.

(1) Computing server industry.

The servers are used as the central host and database for a group of PCs working together. By connecting to an identical server, each computer can function simultaneously. Enterprise servers are used to build corporate networks to allow data sharing and 24-hour accessibility, achieving better work and cost efficiency.

Globally, there are three major server assembly regions: North America (centered in U.S.A.) for high-to-mid end models, Europe (centered in the U.K.) for mid-to-low end models and Asia Pacific region (centered in China) for low-end models. North America has the most high-to-mid end models as the top four global server provider such as IBM, HP, Oracle and Dell are all American companies, and this is also where their R&D team are located. For Europe, the local R&D talents and demands have fostered the production center for mid-to-low end models. Production sites in Asia Pacific region are concentrated in China due to its low production cost, which was necessary in a highly competitive low-end server products market. In recent years, both volume and revenue on server sales have grown significantly in the Chinese market as Inspur (a Chinese server brand) tapped into mid-to-high end models with technology advancement, and shipment growth has been increasing for Huawei and Lenovo. However, American Brand such as Dell and HP still hold a strong place in the market.

To keep the production cost low and increase resource utilization, major international server suppliers continue outsourcing manufacturing to contractors. The top-three suppliers, HP, Dell and IBM, account for the significant share of global servers shipment volume, followed by Oracle and Fujitsu. Less than 30% shipment comes from NEC, Rackable Systems, Acers, Lenovo and other regional brands. Server makers in Taiwan are divided into OEMs that manufacture for major server brand owners and ODMs that manufacture for white brand servers. Leaders from the former category are Inventec, MiTAC, Wintorn, Quanta Computer, and Hon Hai. Makers of the latter category are also known as server distributors (suppliers of motherboards and barebones) include Supermicro, Intel, Asus, MSI and Gigabyte.

Outsourcing server design and production has been a long-term practice, and Taiwan is the major manufacturing hub for leading brands like HP, Dell, Cisco, etc., thanks to the completeness of its local industry chain. Not only that, new industry players like Chinese brands and other western distributors (ZT System and Penguin Computing) have also worked closer now with Taiwanese manufactures. Due to the soaring demands from mega data centers, growths of white-brand servers have exceeded the top-three brands, HP, Dell and IBM. Their collective market share has now slipped to below 60% from 70% or more in the past. The shift mainly came from the rise of Cloud computing services offered by AWS, Microsoft and Google, which cut down the server purchases from mid-to-big corporations who used to be the key buyers of big-brand servers

Server types can be broken down by appearance: Tower (or Pedsta), Blade and Rack-Mounted. Due to the trend of high density, 1U Rack and Blade model are becoming the growing drivers for the sectors. Also, downward server prices have made 1U Rack and Blade more affordable to enterprise customers.

In contrast, because the tower products are large and not conducive for stacking, its proportion is constantly decreasing. Although the growth of the Blade Server market is expected, the initial construction cost is still high. Rack Mount Server is still the market mainstream; particularly the 1U, 2U and other Rack Mount specifications account for almost 60% of Taiwan's server shipments.

In addition, with the increasing of mobile lifestyle, looking at the market demand, long term online connection and diverse information applications service demand broadly required, easier mobile device and fast application service has become future trend. In which, it drives more server demand for Cloud computing as in the market supplies, the big server brands continue to offer energy saving solutions, as server-based computing decrease has side impact to increase data center's operation cost especially on the use of server electricity and cooling system is the main drive on electricity expense. Therefore, big brand server vendors continue to improve its hardware by focusing on energy saving, and acquire planning of more storage equipment and network companies in order to offer completed IT solutions to the corporate customers in the future. Governments worldwide are keen in working together with corporate partners to construct Cloud computing plants and facilities. Many big companies are searching for data center sites that offer cheaper electricity. Both shall continue to drive the growth stability of server industry.

The development of the cloud and mobile computing is the source of the servers

and data centers growth in recent years. In the recent years, the demand for network devices have grown due to more video and music streaming and faster data transmission requirements; according to the Cisco Annual Internet Report , the report shows that the number of global Internet users grow at a compound annual growth rate of 6% from 2018 to 2023 (Figure 1), and the report also predicts that the application of network devices such as smart watches, video surveillance, and healthcare monitoring will be growing at a compound annual growth rate of 10% higher than the number of Internet users (Figure 2), the number of network devices per capita will increase from 2.4 in 2018 to 3.6 in 2023.

Figure 1: Estimated growth of global Internet users Figure 2: Growth of network device users
Source: Cisco Annual Internet Report, 2018–2023

The Cisco Annual Internet Report believes that from 2018 to 2023, public wifi hotspots will grow from 169 million to 628 million (Figure 3), a nearly four times of increase, in which about 46% highest coverage ratio is based in Asia, showing that the server industry's demand is at a steady growth trend.

Figure 3: Global wifi hotspot growth condition
Source: Maravedis, Cisco Annual Internet Report, 2018–2023

(2) Hinges and Slides:

Through the technology evolution, applications of hinge and slide have expanded widely from daily cabinets, kitchen cupboards to office facilities and copiers. We will use the furniture and internal decoration sectors to illustrate hinge and slide markets.

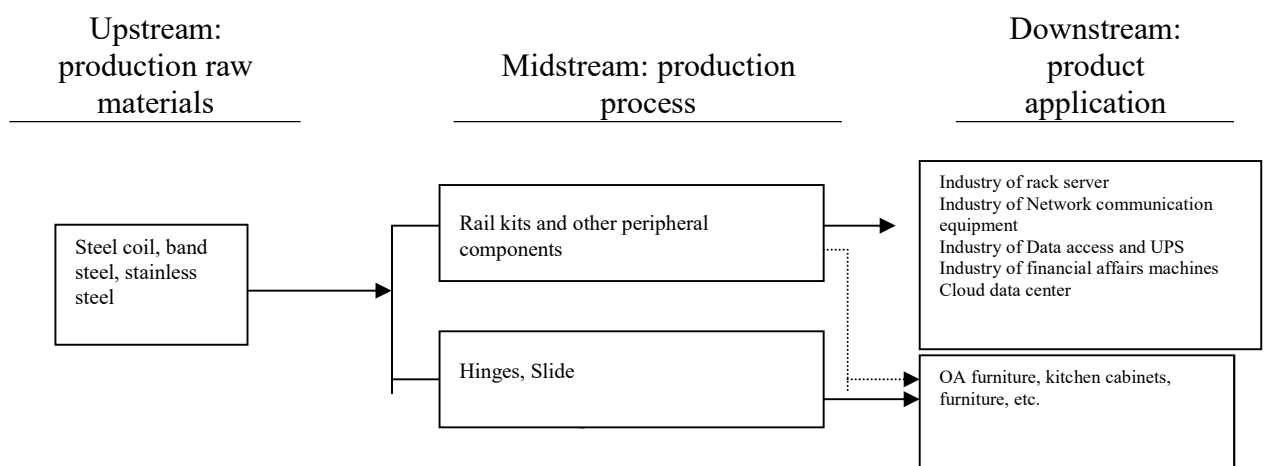

The furniture industry in Taiwan started to form since the introduction of woodworking machinery for semi-automated production in 1956 after nearly a decade

of hand-made production. The furniture industry in Taiwan took off during the period of 1966 and 1975 owing to new and automatic production facilities which stimulated exporting orders. The industry began a decade of steady growth after 1976, and Taiwan had owned the reputation as furniture kingdom for its reliable quality and low costs. It was estimated, one out of five furniture in the U.S.A. was made in Taiwan. The metallic furniture industry in Taiwan began to sprout starting from the 70's under the background of abundant steel supplies and seasoned R&D capacity and automated production procedure. Export volume from the category was strong during that period. Nevertheless, the dominant position had lost to China and some S.E. Asian countries in recent years due to contracting raw material sources and labor force which cause wage surge.

In the meantime, a large majority of the industry players, including furniture and interior decoration, have moved their operation to China; hence the turnover for the sector has dropped sharply in Taiwan and the trend is expected to continue. To survive, the local players need to come up with breakthrough technology and provide small-volume large-variety production to meet the market demands and enhance value adds.

As the Taiwanese information hardware makers usually do, local sever makers also have greater focuses on OEM and ODM business, which account for 80% top line. Reflected by global sales mix, the low-to-mid end models are the key growth drivers, especially the low-end models, which the majority of Taiwanese makers are shipping to the major international brands. It's expected the OEM and ODM business will remain at high percentage for the local producers. While facing the ever changing industry landscape, coping with virtual reality and Cloud computing are more of the 2nd trial test for Taiwanese sever makers. To break through, hardware manufacturers have no choice but work together with the brand companies to provide better value-added solutions, including storage, software and integrated selling package, apart from upgrading production technology, to standout in the industry competition and grasp the new opportunity ahead.

2. Links among each segment of the industry supply chain

3. Product development trend

(1) Rail kits and other components:

Along with the advance with technology, information products with light, slim, short and small-size designs are becoming the major trend, which has led to the launch of rack servers and other rackmount networking product mainly to focus on spacing saving, safety convenience and user-friendly features. This trend will change all the current PC products. The server product and other related networking product design is keen towards PC, Workstation development move into Blade server and current server is moving towards rack-server. Another new product integrated network equipment and server together this development trend apply Rail kits more extensively, as the components allow the features of slim, heavy loading, user-friendly, installation friendly and safety on the same server to comply market demand trend in the future.

(2) Hinges and slide rails:

The products are consumer commodities, and the future development trend will be in line with the market driven by high life quality, efficiency, convenience, aesthetics and hidden, multifunctional, easy installation, high added value and high quality.

4. Competition

(1) Rail kits and accompanying Rail kits:

Our current lines of products are very close to completeness and are gradually adopted on new launched products from various international brands. As our products broadly promoted in the market this will increase market share, and the human-friendly feature and superior functionalities are better than our competition in the market; the professional marketing can help more Taiwan server maker to compete with Korea to earn more purchase order benefiting the big brand vendor in their marketing and distribution other vendors can also have positive feedback by using our product.

(2) Hinges and slide rails:

Some product lines are price-competitive commodity. To compete, we are offering the products in our brand name, King Slide, to ensure quality and design differentiating its marketing. Because King Slide brand has excellent recognition in the market set in middle to high end price range trading domestically instead of import foreign brand product; market to sell King Slide brand international to replace foreign famous brand. Using King Slide's better design and high quality features as the marketing strategy to avoid price competition.

(III) Technology and R&D status

1. R&D expenditures in the recent year and up to the publication date of the annual report:

Unit: NTD thousand

Item \ Year	2022	As of March 31, 2023
Research expenditure	233,250	50,622
Net revenue	7,798,631	1,161,307
Research expenditure as a percentage of net revenue	2.99%	4.36%

2. The technologies or products that are successfully developed in the most recent years and accumulate to the annual report publication date.

In the recent invested and successfully developed products, the application field segments are described as below:

On the other hand, the integration of new motion mechanisms and new designs of installation and combination component have been highlighted in the development of new series, such as UQ, BK, BQ, BH, etc., to meet the requirements of high load capacity, friendly operating, cramped space installation, etc. while being dedicated to increasing customer trust of our products by keeping collecting market feedback of other products to improve the stability of operational safety. Besides, the various application demands and rapidly changing usages of cabinet rack and server chassis are also of vital importance to focus on and result in considerations and introductions of a wide variety of technical specifications of cabinet racks and server chassis through the entire development cycle of new series of UQ, BK, BQ, BH, etc. To sum up, for the long-term implementation of R&D strategies, the Company has to create more integrated and comprehensive product modules by continuously collecting and analyzing all kinds of usage scenarios of the slide rail kits.

As for the product series of high-end kitchen cabinets and hinges, in addition to the high-quality 1- and M-series, there are more other products with the effectiveness of convenience and stability in friendly installation and assembly. Meanwhile, facing the global impacts and challenges, it's urge for the Company to introduce a higher level of technology in product development, production, control, and other related technologies to better respond to the market changes and maintain competitiveness continuously

List of patent rights granted and application during the current fiscal year up to the date of

publication of the annual report:

Year	Number of patents
2022	Application number: 55; Number of granted: 179
2023 and up to the date of publication of the annual report	Number of patent rights applied: 49; Number of patent rights granted: 34

(IV) Long- and short-term business development plans:

1. Long- term business development plans:

(1) Marketing strategy

Provide global customer service, cut down delivery time to obtain higher volume of orders from the complete consumer product category as well as expanding the market share. Continue building shipping warehouse and selling base globally to widen our network worldwide

(2) Production policy

In-depth development of stamping, roller forming and parts processing technologies with the integration of mechanical and electrical automation production for further stamping breakthroughs on different materials and product moldings to strive for cost reductions, quality improvement and product competitiveness.

(3) Product R&D direction

- ① Mechanical R&D for meeting the convenience of modern life style, so as to gain extra market share from increasing consumer reliance.
- ② Integrating design, development ability and market population together with the existing mechanical know-how, mold and automation equipment for functional 3C product R&D, with the focus on the long-term strategy and sustainability.

(4) Operation scale

To serve the big system integrators, both domestic and international, including consumers, and expanding the global market effectively, we plan to increase the number of shipping warehouses and marketing offices in the future to expand market share and global visibility.

(5) Financial backup

Building the optimal capital structure through a diversified funding channel to obtain sufficient capital at the most advantageous cost. Manage the capital smartly through various investment channels so as to increase the profits of from the core business and non-business operation.

2. Short- term business development plans:

(1) Marketing strategy

- ① Endeavor to win orders from major industry players (from computing server, network communication, computer system and Cloud data center), with the marketing focus on new products for expanding market shares.
- ② Promote mature product lines with existing brand awareness to tap into international suppliers of steel cabinets and server racks. For kitchen cabinets, focus will be placed on introducing newly developed high-end mechanical kitchen sets and a new series of functional products to kitchen equipment suppliers and retail distributors to establish a global network and position King Slide as a world-renowned brand.

(2) Production strategy

We are aiming to rationalize the production procedures with intellectual production management system by phasing in streamlined manufacturing for cutting down production and warehousing costs. Also, production of products with low added value will be outsourced or through purchase to upgrade the Company's product value.

(3) Product R&D direction

- ① For rail kit lines, efforts will be placed on rack integration, and multi-functional and humanized installation.
- ② Customized product design to establish close ties from international customers and create additional value for our products.

(4) Operation scale

To provide long-term service for the big system integrators and end consumers, at home and overseas, and expand the global market effectively, we plan to increase the number of global dealers in the near future, and establish mainland channels and local marketing offices, so as to achieve the long-term goal of business scale.

(5) Financial backup

Leverage the advantages of industrial technologies and fixed assets of PP&E to obtain loans from financial institutions with preferential costs.

II. Market analysis and production & marketing

(I) Market analysis

1. Geographic areas where the main products are supplied, and the Company's market share

(1) Geographic areas where the main products are supplied in 2022

Product Area	Guide track	Slide rails	Hinge	Other	Total
Taiwan	19%	0%	2%	0%	21%
China	20%	0%	0%	0%	20%
U.S.A.	33%	0%	0%	1%	34%
Other	24%	0%	0%	1%	25%
Total	96%	0%	2%	2%	100%

(2) Product market share

Our Rail kits, slides and hinges, are mostly customized-made and widely applied in different sectors. The product specification and unit prices vary with the end applications; therefore, it is not easy to obtain the annual output, output value and market share data from each of our customers.

2. Future market demand and supply, competitive advantages

(1) Market demand analysis

① Slide rails and hinges

With the progress of human civilization, the improvement of living standards, uses of hinges and slides have expanded widely and become ubiquitous from home cabinets, to office facilities and computer peripherals; demands have also expanded. However, owing to the shrunk global economy in the past few years, as much as 20% to 25% international brands company such as GLASS, HETTICH is now label as China product. In addition, Chinese EMS product quality could not be controlled causing dropping price, poor quality product in the market, self-cut on price for low margin. This indirectly impact the mid-to-high end price who is focus on good quality and branding where the market share is not even close to 35% which cover by European company such as BLUM and SALICE. The waken of economy, rise of consumer ideology, a quality life style with reasonable pricing, excellent quality replacing with user-friendly product, the middle-high price can be expected to rise in the market. In additional, international furniture, kitchen, and system cabinet factories must shift their orders to Southeast Asia due to production limitation and cost factors, Taiwan has most competitive advantage therefore we have potential in the market demand.

② Rail kits:

Analysis of server appearance, servers are still in old rack mounted style in the market, most large scale company use this type of rack mount server when consider for better expandability. The server brand then mostly designs rack mount server

with 5U height to allow better flexibility when planning layout of hard disk in which this also increase the grow energy we wanted.

In addition, in terms of the growth of the global server market, cloud applications continue to flourish. In response to the rapid increase in the number of users, cloud service companies are actively expanding hardware devices to meet their customers' needs. Taiwanese manufacturers participate in Facebook's open computing programs (Open Compute). Project, OCP) has gradually achieved results after many years. In addition to the significant increase in visibility, technical capabilities have also been recognized by global customers. At present, in addition to Google, Facebook, Amazon and other global first-line super-large data center manufacturers in direct cooperation with Taiwanese manufacturers, recently included online and cloud service providers, and even multinational media operators, telecommunications and financial industry, have successively negotiated with Taiwanese manufacturers. The possibility of sales (ODM Direct) cooperation model, most of the super-large data center operators in the development trend of the cloud data center continue to expand, tend to purchase servers directly from the foundry, so the demand for construction of large data centers increases It is expected to drive the growth of global server shipments. However, the development of cloud application services has gradually matured. More and more small and medium-sized enterprises have abandoned the construction of their own computer rooms, and the use of leased cloud services has reduced the cost of IT procurement and maintenance. For international server brands, the sales of traditional enterprise customers is gradually decreasing proportionally; on the other hand, the introduction of virtualization applications and high-density products has led to a reduction in the demand for enterprise procurement server hardware and an impact on overall market shipments.

Outlook into 2023, the forecast of global server shipments is expected to be 18.821 million units, and the annual growth rate will slow down to 4.3% from 6.1% in 2022. Although the concepts and applications of big data, data storage, 5G, metaverse, AI (artificial intelligence), and HPC (high performance computing), etc., have accelerated growth and expansion of data centers, AMD announced the fourth-generation Epyc server processor code-named "Genoa" in November 2022, and the Intel's next-generation Sapphire Rapids server processor is about to launch in the first half of 2023 and the transition from the old platforms to the news will drive the demand for server replacements and upgrades, the global economy still seems to face

challenges continuously, such as the conflict between Russia and Ukraine, inflation, and interest rate hikes. It is expected that the global economic growth momentum will slow down, and the corporate procurement and capital expenditure continue to decrease and further restrain the growth in world trade.

資料來源：TrendForce，台灣經濟研究院產經資料庫整理(2020.12)。

For Taiwanese manufacturers, the server manufacturers mainly undertake OEM orders from international brand owners, and produce customized servers for cloud service providers, which could be shipped under white-brand or self-owned brand products. Because the servers are mainly sold to enterprise users, it has high requirements for quality and stability, and its technical level has been improved. It requires a high degree of integration and testing capabilities. It has relatively set the bar high in the assembly industry which creating barriers to entry. With the advantages of design, manufacturing and complete industrial clusters, server manufacturers the countries' server shipment (including oversea production) has taken accounts more than 90% of the global server shipments. We are fully optimistic about the continuous expansion of data centers by cloud service providers, which pushes Taiwan's local server manufacturers to enhance their distribution of white brand servers, especially WiWynn is committed to developing second-tier cloud service providers, and it had obtained new orders from Amazon in 2020, while Hon Hai adjusted the server business strategy where it focus on cloud service providers, obtain orders from Microsoft and Amazon, and has entered the Google supply chain in early 2021. As for Inventec, in August 2019, it invested a 10% stake in the American company ZT GROUP INT'L, INC. ZT GROUP is mainly engaged in the system integration manufacturing and service business of the software and hardware

for the cloud data center Inventec enter the cloud service provider supply chain and ship its servers to Amazon, Facebook and Microsoft through its investing in share. In 2021, it will further obtain new orders from Amazon. By then, it will be shipped in large quantities in the second half of 2021, showing that Taiwan's server manufacturers have strengthened its distribution of white brand servers and its ambition to seize business opportunities in the data center.

In 2022, although factors such as inflation, interest rates, and slowdown in corporate capital expenditures, disadvantaging the sales performance of traditional server brand manufacturers Dell and Hewlett Packard Enterprise (HPE); the delay launch of new platforms for server chip, and the transition window period between new and old platforms cause the customer shipment pulls become pending which indirectly affect the server shipments of local foundries such as Inventec, Wistron, and Hon Hai. However, benefiting from North American cloud service providers who continue to build data center infrastructures around the world, meanwhile actively purchasing servers and releasing orders to Taiwan OEMs, coupled with the expansion of production capacity of manufacturers in Taiwan, this help driving up the shipment performance of Taiwan OEMs such as Quanta, Wiyynn and Hon Hai. Furthermore, this has pushed up the sales value of NT\$161.036 billion from the month of Jan to Nov with an increase of 52.03% in the Taiwan's server manufacturing industry, and the growth trend continued in December. It is estimated that the sales value of Taiwan's server manufacturing industry had shown its strong growth in 2022.

Outlook into the server industry performance in the 1st half of 2023, although there is large amount of data processing, data storage, and the 5G services become commercialized in various countries, which push on the demand of innovative services with high bandwidth and low latency. As well, the 5G, metaverse, AI (artificial intelligence), and HPC (high performance computing) application expansions, the increase of data transfer drives the demand for servers, along with AMD had announced its launched of The fourth-generation Epyc server processor code-named "Genoa" in November 2022, and the Intel's next-generation Sapphire Rapids server processor also expect to launch in the first half of 2023. The interchange between the new and old platforms are expected to drive the demand for server replacements and upgrades.

(2)Market supply analysis

① Rail kits:

Due to the high barriers to entry for various servers and other peripherals, the technology is mostly controlled by foreign manufacturers. King Slide can develop and supply products in synchronize so there is no market supply issue.

② Slide rails and hinges market

As the market demand has gradually increased, the competitors who have invested in the industry continue to increase causing an oversupply of hinges and slides in the overall market, and the price competition is fierce. Both European and American manufacturers have stopped producing European-style slides and some hinge products. As two main factors, the original manufacturers have transferred its orders to the Southeast Asian market due to price. This forms a trend of large-scale transfer orders to the mainland and Taiwan in the market, resulting in a shortage of supply in the export markets of the two regions. In particular, this has reflected more on the manufacturers with more scale and stable quality, or competitive in price.

(3) Market growth potential:

① 3C market:

In the long run, the main needs of the cloud server industry come from the telecommunications industry, the financial industry, government agencies, and large manufacturing industries. With the increase of low-end smart handheld devices, the demand for back-end servers will also be increased. According to the observation of the Institute of Industrial Intelligence (MIC), Taiwan's server shipments orders come from large data centers which will continue to focus on domestic server shipments. Brands are also actively introducing new products, in addition to the new server hardware while carrying out more services, software in which stands out from its traditional hardware supplier role as ODM foundry and their supply chain performance can be expected. In addition, the rise of brand players in mainland China and the increase in the proportion of white brand network server purchases by the large-scale Internet service providers, this will incite the existing brand and traditional industry chain supply patterns, prompting the Taiwanese strategic layout in seeking to strive the Chinese brand OEM order" and "Strive for White brand Server Order".

In the future, in close cooperation with IBM, HP, DELL, ORACLE, Fujitsu-Siemens International Servers and major white-label markets, it will bring additional potential business opportunities to the company and match the changes

in the appearance of the server market. Related network communication, storage, UPS, KVM, and other peripheral products to the rackmount designs make the application of the slide rail kit wider. And because the industry does not have specific statistics on the relevant global shipments data so it is impossible to assess how many potential opportunities in the market, but the application of the slide rail kits will be more popular in the foreseeable future, and there is indeed a potential market that needs to be developed.

② Traditional market:

It is expected that the prosperity of the traditional consumer market and real estate will gradually pick up, which will bring performance improvement to the company.

③ Steel cabinets market:

International manufacturers have shifted its order faster due to cost factors and production constraints. The market will continue to grow in the future based on existing performance.

(4) Market's Future competitive niche:

① Rail kits market:

In the past few years, due to the continuous transformation of the industry, involving in the development of server and network communication equipment components, lead us to develop a series of rack-mounted server rail kits, and obtained many patents related in many countries. Because there is no uniform in the use of standards and specifications in this part of this product development industry, the entry barriers become high, and the application of patents is also difficult. To obtain the certification and recognition from the international companies is testing the rapid development and real-time production skill of the company. In this case, most of the competitors are almost occupied by European and American companies such as Accuride, Jonathan, and General device. After this rigorous competition, finally got awarded by international server brands such as IBM, HP, SUN, Fujitsu-Siemens, DELL. Many years of cooperation, and because the company considers the function of humanization in product design, regardless of price, quality, test conditions, delivery date and product functions, it is determined by customers that we are above the competitors. Therefore, customers' new product has gradually adopted the slide rail kits designed and manufactured by the company. The recognition by these international server manufacturers will provide the company with a favorable competitive advantage in this market and eliminate the obstacles in

the way when marketing our business.

② Slide rails and hinge markets

In the past few years, due to poor economy and fierce price competition, mainland China products have swept the world at low prices, but their product quality and delivery is unstable, and high failure rate are unfavorable factors in the market competition. Thus, the company has been adhering to the marketing philosophy of maintaining product quality, stable delivery, and marketing own branding, despite the sluggishness of the market, we have built a good brand reputation in the international market. As the anti-dumping discussion speaks out in the global international market, the situation where the price focus but no quality situation is now reversed. More and more users find that only the products with stable quality, reasonable price and meet the needs of consumers are the way to survive forever. Looking at the Southeast Asia manufacturers, as in terms of quality, delivery, R & D, and production technology, scale conditions, only King Slide can compete with European and American manufacturers using low procurement cost but better quality and function product to compete with European and American competitors. King Slide as the best choice for customers on this favorable basis and with the recovery of the economy, we believe that we have better competitive advantage in market of slide rail and hinges in the future.

3. Advantages or Disadvantages of future development factors, and the Countermeasures to such factors

(1) Advantage factors

① Rail kits market:

The company has passed the certification of its products by IBM, HP, ORACLE, Fujitsu-Siemens, DELL international server manufacturers, and directly obtained the product requirements of its R&D department in line with its new products. At the same time in line with the latest consumer demand products development will be the advantage factor to marketing products into the system foundries, network communication plants, rack cabinet factories, and distributors, which further open the door for us to also promote other 3C institutional products into more international vendors.

② Slide rails and hinges market

In recent years, in order to reduce costs, the international renowned furniture vendors and cabinet manufacturers have turned to Southeast Asia countries to seek cooperation with cooperative factories or strategic alliances. Their focus is on the

economies of the manufacturers, product types, rapid delivery, research and development capabilities, stable quality, and reasonable price. The company's current economic scale, solid technical team, excellent product development and automation equipment development capabilities, stable quality, and fast delivery capabilities are not only praised in the domestic market but also in the international market. In the traditional market, King Slide has been listed as one of the world's top four major brands in the United States, which also allows the large manufacturers to confidently transfer orders and new product development to the company, especially in the past two years transition is more significantly. Customer base covers the top United States Large furniture factory, cabinet factory, steel cabinet factory and Japan's second largest DIY furniture factory, the second largest furniture factory, the focus of the future in addition to the development of its own brand new products. In the future, besides developing new products with our own branding, development in customized product according to customer's need will play an important advantage factor in future development.

The company's products are currently the mainstream series of products in the industry, and will actively deploy international marketing bases in the future. With the existing competitive advantages, the future growth in the customized or channel market can be expected.

(2) Disadvantages

The estimate increase of material prices will cause increase of cost.

(3) Countermeasures

- ① Increase automation to reduce labor and manufacturing costs and outsource low value-added products in response to cost increases issues.
- ② Accelerate the development of new markets, enhance the technical capabilities of after-sales services, select a favorable product mix and customer base, especially choosing the R&D customized and electronic products as the main direction for the future to increase the operating base, and reduce the expense ratio as well slow down the disadvantage of materials cost increases.

(II) Main product usages and production process

1. Usage

Main products	Usage
Rail kits and peripheral components for server	1. Rack servers, UPS, rack Internet communication facilities, TAPE, and related accompanying facilities for computer networking and Cloud data centers. 2. Electric vehicles, massage sofa, ATM machine, multi-function printers, automobile, OA furniture, kitchen, industry-tool, steel cabinets and medical cabinets.
Slide rails, hidden hinges	OA furniture, kitchen cabinets, furniture, etc.

2. Production procedures:

Hinges: accessory stamping→ precision finishing → accessories heat treatment→
accessory barrel plating→ finished accessory

↪ feeding finished accessories and purchased accessories →
assembling finished goods → packaging check and warehousing

Slide rails: slide stamping → molding completed

↪ slide coating→ feeding finished accessories and purchased accessories →
assembling finished goods → packaging check and warehousing

Rail kits: (1) accessory stamping→ precision finishing → accessories heat treatment→
accessory barrel plating→ finished accessory

(2) Rail kit precision finishing → stamping → molding completed

(3) ↪ Feeding finished guide slides → barrel plating feeding finished
accessories and purchased accessories→

Finished product assembly → packaging check and warehousing

(III) Main raw materials supplies

Steel coil is our main raw material, which we purchase mainly from China Steel and partly from local coil center factories and Japan. The supplies of the material have been sufficient and stable.

(IV) Suppliers and clients accounted for 10% or more of the Company's total purchase (sales) amount in either of the 2 most recent fiscal years and explanation for changes

1. Top suppliers

Unit: NT\$ thousands

Items	2021				2022				Q1 2023			
	Supplier	Amount	As a percentage of total purchase for the year (%)	Relation with the Company	Supplier	Amount	As a percentage of total purchase for the year (%)	Relation with the Company	Supplier	Amount	As a percentage of total purchase for the 1 st quarter (%)	Relation with the Company
1	China Steel	952,702	47.53	None	China Steel	1,126,970	49.49	None	China Steel	50,834	24.22	None
	Others	1,051,863	52.47		Others	1,150,037	50.51		Others	159,035	75.78	
	Purchase amount	2,004,565	100.00		Purchase amount	2,277,007	100.00		Purchase amount	209,869	100.00	

Change analysis: China Steel is a leading domestic steel supplier and a main raw material supplier for the Company and the industry. Its products meet the Company's requirements in terms of delivery and quality. Therefore, it has been the number-one supplier for the past two years.

2. Top customers

Unit: NT\$ thousands

Items	2021				2022				Q1 2023			
	Supplier	Amount	As a percentage of total net sales for the year (%)	Relation with the Company	Supplier	Amount	As a percentage of total net sales for the year (%)	Relation with the Company	Supplier	Amount	As a percentage of total net sales for the 1 st quarter (%)	Relation with the Company
1	Customer A	1,236,884	15.86	None	Customer A	1,089,571	17.18	None	Customer A	225,073	19.38	None
	Others	6,561,747	84.14		Others	6,341,989	100.00		Others	936,234	80.62	
	Net sales	7,798,631	100.00		Net sales	1,089,571	17.18		Net sales	1,161,307	100.00	

Change analysis: Customer A is the designated manufacturer for multiple major international server suppliers. As shipments of several of our OEM customers were asked to send to the Customer A's global hub, it has been listed as the number-one customer for the past two years. Customer B is a brand manufacturer combining existing customers. The increase in sales is due to the increase in existing brand projects.

(V) Production volume for the two most recent fiscal years

Unit: Rail kit and slide in thousand sets; hinges in thousand pieces/ NT\$ thousand

Main products \ Year	2022			2021		
	Capacity	Production volume	Production value	Capacity	Production volume	Production value

Note3: The figures above do not include the contracted workers: 33 people.

IV. Disbursements for environmental protection

- (I) Any losses suffered by the company in the most recent fiscal year and up to the annual report publication date due to environmental pollution incidents (including any compensation paid and any violations of environmental protection laws or regulations found in environmental inspection, specifying the disposition dates, disposition reference numbers, the articles of law violated, and the content of the dispositions): The Company has not suffered any losses due to environmental pollution in the most recent year and as of the publication date of the annual report. However, the subsidiary, King Slide Technology Co. Ltd., violated the Article 10, Item 1 of Water Pollution Control Measures and Test Reporting Management Regulations and was fined NT\$30,000 on November 24, 2020, because the new plant was put into construction without the permission on Runoff wastewater pollution reduction plan by the Bureau.

(II) Countermeasures:

1. Future countermeasures and improvement plans:
 - (1) Wastewater discharge: The Company analyzes and monitors the quality of wastewater on a daily basis to ensure that the wastewater treatment system operates normally to meet the effluent standards.

- (2) Air pollution Air pollution control: The Company has obtained permits for the installation and operation of stationary pollution sources.
- (3) Waste disposal: The Company's waste disposal plan has been approved by the Environmental Protection Bureau and the qualified waste brokers are commissioned to clean, transport, and dispose of the waste produced.

2. Investment made for pollution control and possible benefits generated:

December 31, 2021; Unit: NT\$ thousand

V. Labor relations

(I) Employee benefit plans, continuing education, and retirement programs with the implementation status. worker-employee agreement and measures for preserving employees' rights and interests.

1. Employee benefit plans

The Company has been maintaining a harmonious relation with its employees. Apart

from the basic requirements set under Labor Standards Act, the Company gives extra cash gift or voucher on labor's day, Dragon Boat Festival, Mid-Autumn festival, and employee's birthday to all employees, and hosts year-end banquet, company outing, and office party on a regular basis.

In addition, we have greatly improved cares for pregnant employees. Clean, comfortable and cozy nursery rooms are available inside the office, a little gift for pregnant moms, parking space for pregnant women only, and establishing pregnant-female employee management measure. The Company's goal is to create a pleasant workplace and to ensure the health of every employee.

The Company encourages staff taking no-pay maternity leaves. In accordance with Act of Gender Equality in Employment and the implementation rules for no-pay maternity leaves, all employees, after first six months of working, are eligible for applying the leave before their children reach the age of three for a period of no more than two years. After returning, the employee will continue the old post in the same unit without differential treatment.

2. Continuing education and training

In order to improve the quality and development advantages of human resources, the Company has formulated educational training management measures which works together with the promotion system. Internal and external training programs are provided from time to time based on the job contents and future development to improve employees' working skills. Employees are required to complete training reports to allow feedbacks to the Company.

3. Retirement program and implementation

The Company set up its retirement program based on Labor Standards Act. Workers may apply for voluntary retirement when: (1) he/she reaches the age of 55 and has worked for fifteen years; (2) he/she has worked for more than twenty-five years and (3) he/she reaches the age of 60 and has worked for ten years. The Company appropriates, based on the stipulated ratios, employee retirement fund that is later deposited in Bank of Taiwan. Pension is distributed to the retired employees according to Labor Standards Act. Began from July 01, 2005, a distribution of no less than 6% of monthly salary will be made to individual retirement account for employees who chose adopting Labor Pension Act for his/her pension program.

4. Worker-employee agreement and measures for preserving employees' rights and interests:

(1) Propositions can be made in the morning meeting held every week.

(2) The proposition shall be made in written using the official forms or proposals

regarding rewarding program can be presented.

- (3) Labor meetings are held on a quarterly basis through representatives elected by all employees.
- (4) To complete the employee grievance system, communication channels were provided to strengthen the labor relations. Complaint channels include exclusive hotline, email box and suggestion box are available to take in and handle employee complaints with dedicated personnel, and to protect the whistleblower and prevent retaliation. Complaints can also be filed through internal administrative system. Managers from the associated units shall react immediately when receiving them.
- (5) The promotion examinations are held every year in accordance with the "Promotion measures." Exams are taken on a voluntarily basis, removing influence from a third party.
- (6) Assistants are provided during orientation program and presentation session for new hires to help the new employees get accustomed to the Company. "Sustainable heritage of care" is carried out to ensure new employees are taken care of.
- (7) Tow communication meetings are held every month for foreign workers.
- (8) Regular employee care program is conducted for new employees to accelerate their adaptability to the new job through face-to-face interviews.
- (9) Formulating "Measures for staff religious beliefs and facility service application" to ensure staff are not discriminated against to their beliefs, and facilities are available for holding religious activities when needed.

5. Other major agreements: None.

- (II) Any losses suffered by the company in the most recent 2 fiscal years and up to the annual report publication date due to labor disputes (including any violations of the Labor Standards Act found in labor inspection, specifying the disposition dates, disposition reference numbers, the articles of law violated, the substance of the legal violations, and the content of the dispositions), and disclosing an estimate of possible expenses that could be incurred currently and in the future and measures being or to be taken: None.

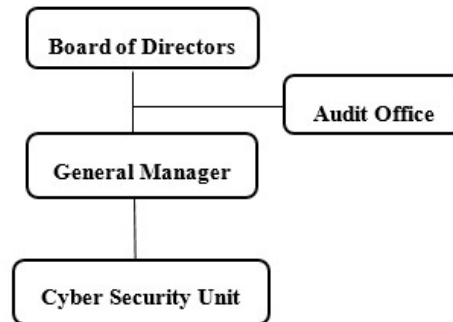

VI. Cyber Security Management:

- (I) Describe the cyber security risk management framework, cyber security policies, concrete management programs, and investments in resources for cyber security management.

1. Framework of Cyber Security Management

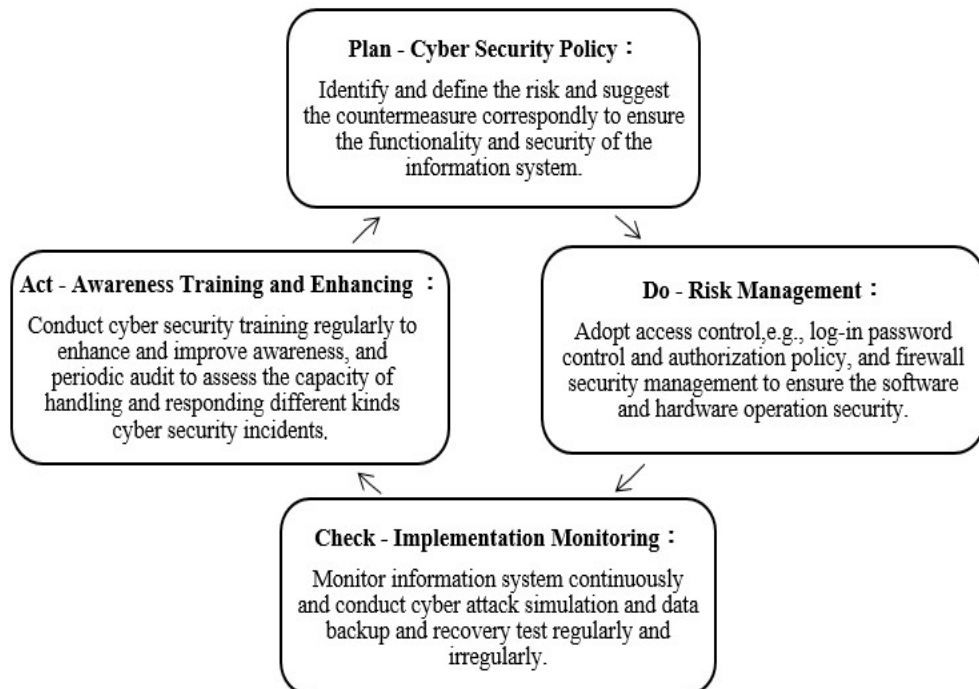

The Company established the "Cyber Security Unit" in 2023 to be responsible for implementing the formulation, planning, establishment, and maintenance of the cyber

security policies, making sure the compliance of the rules, putting into practice, and making inspection in the factories and overseas locations of the Company. The "Cyber Security Unit" has a supervisor in charge of the policies planning and revising as well as the engineers responsible for the establishment and maintenance of the cyber security system, implementation of cyber security management, and proposing effective countermeasures. The short-term goal of the "Cyber Security Unit" is to introduce and achieve ISO27001 certification.

2. Cyber Security Policy

To ensure the data's confidentiality, integrity, and availability, the circular model (PDCA) is applied to Company's cyber security policy to make sure the solid implementation, continuous improvement, and effective prevention of the risk of cyber-attack and data breach.

Vision: High cyber security awareness, data breach prevention, data integrity protection, and data availability assurance.

- (1) The dedicated cyber security division of the Company, “Cyber Security Unit”, is in charge to develop company-wide cyber security policy, related standards, and procedures.
 - (2) Inform employees of the related information about cyber security on a regular basis and conduct education training routinely to enhance employees’ awareness of cyber security.
 - (3) In order to prevent unauthorized access, the application of user permission to access information system and network shall be confirmed and submitted by the supervisor of division the user belongs to.
 - (4) Conduct data backup and recovery test annually to secure data integrity and availability.
 - (5) All the subcontractors and suppliers shall comply with the cyber security policy of the Company.
 - (6) The cyber security policy shall be assessed and audited on a regular basis to make sure the policy appropriately follow up the core vision of the Company, laws and regulations, new technologies, or new business models of the Company, and so as to assure the policy’s feasibility, effectiveness, and the capacity of necessary operation and service supporting.
3. Concrete Programs and Resources Invested
- (1) Firewall protection: the firewall software has been updated timely to protect the Company’s information system from different kinds of computer viruses.
 - (2) Network access control: prevent users from accessing certain unfriendly websites with the potential risk of threatening computer viruses , e.g., Trojan Horse, ransomware, and malware.
 - (3) Anti-virus software: all the IT devices should be worked with anti-virus software running and be updated to the latest virus code timely and automatically.
 - (4) Operating system update: all the operating system should be updated by the IT department to ensure the information integrity and availability.
 - (5) Email security control: prevent attacks from malicious email attachments so as to minimize the risk of data breach.
 - (6) Data backup scheduling: conduct data backup on a regular basis to secure the important information.
 - (7) Participate in the SP-ISAC (Information Security Sharing and Analysis Center) of the science park to make the Company be able to timely evaluate the risk or impact of the cyber security information released by the SP-ISAC and so as to report in promptly and ensure the effective implementation of preventive measures.

(II) List any losses suffered by the company in the most recent fiscal year and up to the annual report publication date due to significant cyber security incidents, the possible impacts therefrom, and measures being or to be taken. If a reasonable estimate cannot be made, an explanation of the facts of why it cannot be made shall be provided: None.

VII. Important contracts:

Nature of the contracts	Contracting parties	Contract period	Main contents	Restrictions
Raw material supply contract	China Steel Co.	Quarterly	Steel coil supply	None
Construction	Verizon Construction Co., Ltd.	Start from Mar. 18, 2020 to the expiration date of the construction warranty.	Construction of No. 2 Plant of King Slide Technology Co., Ltd.	None
Stay-in-Taiwan Preferential Loans Contract	The Chang Hwa Commercial Bank Ltd	Start from Jul. 31, 2020 to the date of loan repayment	Long-term loan	Loan funds are limited to the construction of factories and related facilities
Stay-in-Taiwan Preferential Loans Contract	The Chang Hwa Commercial Bank Ltd	Start from Jul. 31, 2020 to the date of loan repayment	Long-term loan	Loan funds are limited to the construction of machines and equipment

Six. Financial overview

I. Five-year financial summary

	Financial Leverage	1.00	1.00	1.00	1.00	1.00	1.01

Analysis of differences for the last two years

1. The growth of times interest earned, return on total assets, return on total equity, pre-tax income to paid-in capital ratio, net margin, and earnings per share were results of the depreciation of the New Taiwan Dollar, an increase in customer orders, and the positive effects on sales and profitability generated from the launch of new products, and which resulted in the increase in net profit before tax by NT\$2,477,506 thousand, net operating profit by NT\$1,983,625 thousand, and total equity by NT\$ 3,035,050 thousand respectively in 2022 compared to those in 2021.
2. The increase of cash flow ratio, cash flow adequacy ratio, and cash flow reinvestment ratio were mainly due to the increase in net cash generated from operating activities by NT\$ 2,420,062 thousand in 2022 compared to those in 2021.

	Financial Leverage	1.00	1.00	1.00	1.00	1.00
<p>Analysis of differences for the last two years</p> <ol style="list-style-type: none"> 1. The growth of long-term fund to property, plant and equipment and profitability (including return on total assets, return on total equity, pre-tax income to paid-in capital ratio, net margin, and earnings per share) were results of the depreciation of the New Taiwan Dollar, an increase in customer orders, and the positive effects on sales and profitability generated from the launch of new products, and which resulted in the increase in net profit before tax by NT\$2,068,176 thousand, net operating profit by NT\$1,983,625 thousand, and total equity by NT\$ 3,035,050 thousand respectively in 2022 compared to those in 2021. 2. The fall of the inventory turnover and the increase of days inventory were mainly due to the average inventory in 2022 increased by about 19% compared with 2021. 3. The fall of total assets turnover was mainly due to the increase by NT\$3,064,476 thousand in total assets in 2022. 4. The rise of cash flow ratio and cash flow adequacy ratio were mainly due to the increase in net cash inflow from operating activities by NT\$ 392,141 thousand in 2022 compared to those in 2021. 5. The fall of cash flow reinvestment ratio was mainly due to the cash dividend increase by NT\$ 453,614 thousand in 2022. 						

Note: All financial statement are certified by the external auditors

Calculation equations:

1. Financial structure

(1) Ratio of liability to Assets = total liabilities/total assets

(2) Long term funds to Property, Plant and Equipment = (net shareholder's equity + long-term liabilities)/net Property, Plant and Equipment

2. Solvency

(1) Current ratio=current assets/current liabilities

(2) Quick ratio=(current assets-inventory-prepaid expense)/current liabilities

(3) Times Interest Earned= income before tax and interest expense/interest expense

3. Operating Performance

(1) Receivable turnover (including accounts receivable and notes receivable resulted from business operation)=net sales/average balance of account receivable (including accounts receivable and notes receivable resulted from business operation)

- (2) Days Sales Outstanding = $365 / \text{account receivable turnover}$
- (3) Inventory turnover = $\text{operating cost} / \text{average inventory}$
- (4) Payable turnover (including accounts payable and notes payable resulted from business operation) = $\text{operating costs} / \text{average balance of account payable (including accounts payable and notes payable resulted from business operation)}$
- (5) Days Inventory = $365 / \text{average inventory turnover}$
- (6) Property, plant and equipment turnover = $\text{net sales} / \text{average net property, plant and equipment}$
- (7) Total assets turnover = $\text{net sales} / \text{average total assets}$

4. Profitability

- (1) Return on total assets = $[\text{net profit} + \text{interest expenses} * (1 - \text{effective tax rate})] / \text{average total assets}$
- (2) Return on equity = $\text{net profit} / \text{average equity}$
- (3) Net margin = $\text{net profit} / \text{net sales}$
- (4) Earnings per share = $(\text{net profit attributable to shareholders of the parent} - \text{preferred stock dividend}) / \text{weighted average number of shares outstanding}$

5. Cash flows

- (1) Cash flow ratio = $\text{net cash from operating activities} / \text{current liabilities}$
- (2) Cash flow adequacy ratio = $\text{five-year sum of cash from operations} / \text{five-year sum of (capital expenditures, inventory additions, and cash dividend)}$
- (3) Cash flow reinvestment ratio = $(\text{cash from operating activities} - \text{cash dividends}) / (\text{gross property, plant and equipment} + \text{long-term investments} + \text{other noncurrent assets} + \text{working capital})$

6. Leverage

- (1) Operating leverage = $(\text{net sales} - \text{variable cost}) / \text{operating income}$
- (2) Financial leverage = $\text{operating income} / (\text{operating income} - \text{interest expenses})$

III. Supervisors' or audit committee's report for the most recent year's financial statement:

Please refer to Page 143 in this annual report.

IV. Financial statement for the most recent fiscal year: Please refer to Page 144 to Page 194 in this annual report.

V. Certified financial statement for the most recent fiscal year: Please refer to Page 195 to Page 238 in this annual report.

VI. Financial difficulties experienced by the Company and its subsidiaries during the most recent fiscal year and the current year up to the publication date of the annual report and impacts to the financials: None.

Seven. Review of financial conditions, operating results, and risk management

I. Analysis of financial status

Main reasons for and impacts from any material change in assets, liabilities, or equity during the past two fiscal years. Countermeasures if the impacts are of material significance

Unit: NTD thousands.

Item \ Year	2022 end	2021 end	Change	
			Amount	%
Current Assets	\$ 15,519,755	\$ 12,151,398	\$ 3,368,357	27.72
Property, Plant and Equipment	2,955,395	2,445,722	509,673	20.84

Retained Earnings	13,892,751	10,862,927	3,029,824	27.89
Other Equity	(4,076)	(9,302)	5,226	(56.18)
Treasury Stock	-	-	-	-
Noncontrolling Interests	-	-	-	-
Total of Equity	15,638,337	12,603,287	3,035,050	24.08

1. Analysis:

- (1) The increase of current assets, total assets, retained earnings, and total equity were results of the depreciation of the New Taiwan Dollar, an increase in customer orders, and the positive effects on sales and profitability generated from the launch of new products, and which resulted in the increase in cash and cash equivalents by NT\$3,666,099 thousand, net operating profit by NT\$1,983,625 thousand, and total equity by NT\$ 3,035,050 thousand respectively in 2022 compared to those in 2021.
- (2) The increase in property, plant and equipment was mainly due to the intelligent factory construction of the subsidiary, King Slide Technology Co., Ltd. has been under construction since 2020 and resulted in the increasing amounts of unfinished construction and equipment pending acceptance.
- (3) The decrease in intangible assets was mainly due to the amortization on computer software.
- (4) The decrease in other assets was mainly due to the decrease of deferred tax assets by NT\$114,457 thousand in 2022.
- (5) The increase in current liabilities was mainly due to the increase in tax liabilities contributed from the sales and profit growth in 2022.
- (6) The increase in noncurrent liabilities was mainly due to the Stay-in-Taiwan Preferential Loans for the construction of intelligent factory in King Slide Technology Co. Ltd.
- (7) The increase in total liabilities was as explained above (5) and (6).
- (8) The decrease in other equity was mainly due to the exchange differences on translating the financial statements of foreign operations.

2. Countermeasure: None.

II. Analysis of financial performance

Main reasons for material changes in operating revenues, operating income, or income before tax during the past two fiscal years. Sales forecast and the effect upon the financials and operation with measures to be taken in:

Unit: NT\$ thousands						
Item	2022		2021		Change	Change % (%)
	Sub-total	Total	Sub-total	Total		
Net revenue		\$7,798,631		\$6,341,989	\$ 1,456,642	22.97
Operating cost		<u>3,332,655</u>		<u>2,987,157</u>	<u>345,498</u>	11.57
Gross Profit		4,465,976		3,354,832	1,111,144	33.12
Operating expenses		<u>713,304</u>		<u>635,150</u>	<u>78,154</u>	12.30
Operation income		3,752,672		2,719,682	1,032,990	37.98
Non-Operating Income and Expenses						
Interest income	\$ 168,943		\$ 20,066			
Other gains and losses	1,161,814		(134,173)			
Financial cost	(10,141)	<u>1,320,616</u>	(9,793)	<u>(123,900)</u>	<u>1,444,516</u>	(1,165.87)
Income Before Income Tax		5,073,288		2,595,782	2,477,506	95.44
Income tax expense		<u>1,017,143</u>		<u>523,262</u>	<u>493,881</u>	94.39
Net profit		<u>\$ 4,056,145</u>		<u>\$ 2,072,520</u>	<u>\$ 1,983,625</u>	95.71
Explanation:						
1. Change analysis						
(1) The growth of net revenue, gross profit, operation income, income before income tax, income tax expense, and net profit in 2022 were results of the depreciation of the New Taiwan Dollar, an increase in customer orders, and the positive effects on sales and profitability generated from the launch of new products.						
(2) The increase in non-operation revenue was mainly due to the change of New Taiwan Dollar from the mitigation of soaring currency appreciation in 2021 to the depreciation in 2022, and which contributed to the increase in net exchange gain by NT\$1,281,876 thousand.						
2. Based on the previous sales, current orders taken, future market analysis, etc., the sales forecasts of major products are 14,579 thousand sets in rail kits, 77 thousand sets in slide rails, and 3,692 thousand units in hinges respectively.						
3. Countermeasure: None.						

III. Analysis of cash flow

(I) Cash flow analysis for the most recent year, corrective measures for illiquidity

Item	Year		Change % (%)
	2022	2021	
Cash flow ratio	199.61	90.39	120.83
Cash flow adequacy ratio	166.91	136.35	22.41
Cash re-investment ratio	15.38	6.15	150.08

Explanation:
1. Change analysis The increase of cash flow ratio, cash flow adequacy ratio, and cash flow reinvestment ratio were mainly due to the increase in net cash generated from operating activities by NT\$ 2,420,062 thousand in 2022 compared to those in 2021.
2. Improvement plan: None.

(II) Liquidity analysis for the coming year

Unit: NT\$ thousands

Cash and cash equivalents, beginning of year ①	Estimated Net Cash Flow from Operating Activities②	Estimated Cash Outflow③	Estimated cash Surplus (Deficit) ①+②-③	Remedy for remedy for cash deficit	
				Investment plans	Financing plans
\$11,592,473	\$4,198,966	\$2,619,361	\$13,172,078	\$ -	\$ -
1. Cash flow analysis: (1) Net cash inflow from operation activities: Mainly due to the expected positive operating result in 2023. (2) Net cash outflow from investment activities: Mainly due to expenditures for property, plant and facilities in 2023. (3) Net cash outflow from financial activities: Mainly due to cash dividend distribution in 2023 and the Stay-in-Taiwan Preferential Loans. 2. Remedy for cash deficit and liquidity analysis: Not applicable.					

IV. Major capital expenditure in the last year and its impacts to financials and business:

In order to reduce the production and operating costs of the new series of European style premium kitchen slides which has been long developed by the subsidiary, King Slide Technology Co., Ltd., and has begun to be shipped in 2019, the Intelligent No. 2 Plant of King Slide Technology Co., Ltd., located in Southern Taiwan Science Park - Kaohsiung Park, had been started construction in 2020 and has officially started volume production in July 2022. The total amount of funds required is expected to be approximately NT\$ 2 billion, with the source of self-owned funds and “Stay-in-Taiwan Preferential Loans”.

V. Investment policy in the last year, main causes for profits or losses, improvement plans and investment plans for the coming year:

(I) In response to customers’ requirements of diversifying the geopolitical risks, , the company is currently actively seeking to establish production bases in different regional networks. The relevant reinvestment is still under evaluation. If it is to be carried out, the proposed investment plan will be submitted to the board of directors. If the investment amount reaches the announcement Standards, the company will handle in accordance with regulations.

(II) Main causes for profits or losses:

1. King Slide Technology (China) Co.,Ltd., owned by our 100%-owned King Slide (Samoa) Co., Ltd., is still in the early stage of operation. The investment gains using the equity method recognized from the subsidiary was NT\$ 7,844 thousand in 2022.
2. Investment gains using the equity method recognized from King Slide Technology Co., Ltd. in 2022 reached NT\$ 3,534,428 thousand, which indicated increasing investment benefits.

(III) Improvement plan: Not applicable

(IV) Investment plans for the coming year: Same as above (I).

VI. Risk analysis

- (I) Impacts to the Company's profits (losses) from interest and exchange rate fluctuations and changes in the inflation rate, and countermeasures:

1. Interest and exchange rate

Unit: NT\$ thousands

Items		2021	As a percentage of income before tax	2022	As a percentage of income before tax	Q1, 2023	As a percentage of income before tax
Finance cost	Lease liability interest	(10,815)	(0.42%)	(10,872)	(0.21%)	(2,629)	(0.46%)
	Loans interest	(2,818)	(0.11%)	(7,525)	(0.15%)	(3,096)	(0.54%)
	Capitalized Interest	3,840	0.15%	8,256	0.16%	218	0.04%
	Total	(9,793)	(0.38%)	(10,141)	(0.20%)	(5,507)	(0.96%)
Net exchange gain		(178,697)	(6.88%)	1,103,179	21.74%	(97,005)	(16.99%)

- (1) The initial adoption of IFRS 16 Leases on January 1, 2019 and the construction loan draw request in 2020 for the new plant construction of the subsidiary, King Slide Technology Co., Ltd. resulted in NT\$9,793 thousand, NT\$10,141 thousand, and NT\$5,507 thousand of the interest expense from lease liabilities, loans, and capitalization in 2021, 2022, and the first quarter of 2023, and contributed only -0.38%, -0.20%, and -0.96% to the profit before income tax, respectively. The interest increase made insignificant influence on the Company's profitability.
- (2) Net foreign exchange gains and losses accounted for the profit before income tax by -6.88%, 21.74%, and -16.99% of 2021, 2022, and the first quarter of 2023 respectively. The Company has made sales abroad by 79% of total, and which makes the Company sensitive to the exchange rate fluctuation. During the year of 2021, the Company had a net exchange loss of NT\$178,697 thousand due to the currency appreciation, whereas a net exchange gain of NT\$1,103,179 thousand was generated thanks to the depreciation of New Taiwan Dollar in 2022. In the first quarter of 2023, the Company incurred the net exchange loss of NT\$97,005 thousand due to the slight appreciation. To respond to the global economic instability and more significant exchange rate fluctuation, the Company has increased foreign purchase to hedge exposure to foreign exchange risks instead of using derivative financial instruments. Despite the volatility of exchange gains or losses in the short run, the innovation and

evolution of our products shall keep the business performance improving and be limitedly influenced by the exchange rate fluctuation.

2. Inflation:

The impact of inflation on the Company's profitability has not been severe for now, but might increase the manufacturing costs and expenditures. In order to respond to the risk, the Company has proactively engaged in the research and development of high value-added products as well as managed to increase operating efficiency and reduce manufacturing costs.

(II) Impacts from the policy regarding high-risk investments, highly leveraged investments, loans to other parties, endorsements, guarantees, and derivatives transactions. The main reasons for the profits/losses generated thereby; and countermeasures

The Company has never engaged in high-risk investments or borrowing to others etc. Any derivative trading engaged by the Company is for the purpose of exchange rate hedging for the assets or liabilities held. The gains was generated due to the execution rate was higher than the average rate of the net assets, thus risk-free. The Company plans to continue dealing for hedging purpose.

(III) Future research and development, and estimate expenditures for research and development:

Unit: NT\$ thousands

R&D Project	Current progress	Estimated R&D expenditure	Estimated mass production timeline	Factors affecting the results of R&D
1. Full-line of environmental and innovative mechanical IOT products that can be apply in household and personal applications and features of user-friendly, safety, convenience, light-weight, easy assembly and high-quality function. 2. Continues development on the innovative application of integrated Cloud server slide Rail kits 3. Continues development and integration on innovative application of Kitchen and peripheral system cabinet Rail kits	Design Brainstormingand Integration	1. 80,000 2. 45,000 3. 95,000	From 2021 to 2023	Innovation and technology breakthroughs

- (IV) Effects and countermeasures to the changes in domestic, international policies, and regulations relating to corporate financials and sales:

No changes in domestic and international policies and regulations have made significant impacts to the Company.

- (V) Effects and countermeasures to the changes in technology (including the risk of cyber security) and industry relating to financials and sales:

Due to the evolution in the server market and rise of Cloud data centers, markets for rail server, blade server, storage, data center and platform vendor have enlarged and spurred increasing R&D activities in rack markets and in the Company. We believe our current production capacity and technologies are capable of handling the new business opportunities. Plus the positive feedbacks from the new rails for the high-end kitchen cabinets the sales gradually increase, the technology changes have positive impact to the Company's financials and business.

As for the risk of cyber security deriving from the technology change, by following the Company defined cyber security framework, continuously collecting and updating critical cyber security information in practice, and conducting the rolling review of the performance of related policies and procedures, there has been no significant cyber security incident occurred to the Company.

- (VI) The Impact of changes in corporate image on corporate risk management, and the Company's countermeasures:

No such event has occurred to the Company.

- (VII) Expected benefits from, risks relating to and countermeasures to merger and acquisition plans:

No such event has occurred to the Company.

- (VIII) Expected benefits from, risks relating to and countermeasures to factory expansion plans:

- (IX) Risks and response to the concentration of supplier and customer:

1. Risks of supplier concentration and countermeasures:

China Steel is the Company's key supplier. To secure the delivery and supply, the Company signs quarterly purchase contract with the company. Our relation with China Steel is stable and long-term oriented. In the meantime, we have created a supplier list to adjust supply when necessary and diversify the concentration risk.

2. Risks of customer concentration and countermeasures:

As the designated manufacturer and trading hub for multiple major international server suppliers, the shipments to customer A contributed to more than 10% of the

Company's net operation revenue in the most recent 2 fiscal years. Customer B is a brand manufacturer with numbers of customers, and its brand extension contributed 10.6% to the Company's net operation revenue in 2019. Given the concentration of the sales resulted from the industrial business model, the Company is dedicated to expand customer base and diversify product lines to reduce the risk of excessive sales concentration.

- (X) Effects of, risks relating to and countermeasures to large share transfers or changes in shareholdings by directors, supervisors, or shareholders with shareholdings of over 10%: None.
- (XI) Effects of, risks relating to and countermeasures to the changes in management rights: None.
- (XII) Litigation or non-litigation matters: None.
- (XIII) Other major risks and countermeasures: None.

VII. Other Important Matters: None.

King Slide Works Co.,Ltd.
Internal Control System Statement

Date: February 24, 2023

We have conducted the self-assessment of the internal controls for the year of 2023, and hereby declare that:

- I. We fully understand that the Board of Directors and the management of the Company is responsible for establishing, implementing and maintaining adequate internal controls, and we have established such system. The internal control system is a process designed to reasonably ensure that the objectives of the Company's operations, financial reporting and legal compliance are achieved. The objective of the operations is effectiveness and efficiency, including profits, performance and safeguarding asset security.
- II. Due to its inherent limitations, an effective internal control system may only provide reasonable assurance regarding the achievement of the three objectives above; also, the effectiveness of internal control system may vary because of changes in the environment and condition. We have established the self-monitoring mechanism over internal control system and once a defect is detected, we will take corrective action immediately.
- III. The Company evaluates the design and operating effectiveness of its internal control system based on the criteria provided in the Regulations Governing the Establishment of Internal Control Systems by Public Companies (herein below, the "Regulations"). The criteria adopted by the Regulations identify five key components of managerial internal control: (1) control environment, (2) risk assessment, (3) control activities, (4) information and communication, and (5) monitoring. There are sub-items under each components. Please see the Regulation for detail.
- IV. We have conducted self-inspection and internal audit to examine the effectiveness of the design and implementation of internal control system.
- V. Based on the findings of such evaluation, The Company believes that, on December 31, 2022, we have maintained, in all material respects, an effective internal control system (that includes the supervision and management of our subsidiaries), to provide reasonable assurance over our operational effectiveness and efficiency, reliability of financial reporting, and compliance with applicable laws and regulations.
- VI. This statement forms an integral part of the Company's annual report and prospectus. Any illegal misrepresentation or non-disclosure in the public statement above is subject to the legal consequences described in Articles 20, 32, 171, and 174 of the Securities

and Exchange Act or the Insurance Act and other relevant laws and regulations

DECLARATION OF CONSOLIDATED FINANCIAL STATEMENTS OF AFFILIATES

The entities that are required to be included in the consolidated financial statements of affiliates of King Slide Works Co., Ltd. for the year ended December 31, 2022 under the “Criteria Governing the Preparation of Affiliation Reports, Consolidated Business Reports and Consolidated Financial Statements of Affiliated Enterprises” are the same as those included in the consolidated financial statements of parent and subsidiary companies prepared in conformity with International Financial Reporting Standard 10 “Consolidated Financial Statements”. In addition, relevant information required to be disclosed in the consolidated financial statements of affiliates has all been disclosed in the consolidated financial statements of parent and subsidiary companies. Consequently, King Slide Works Co., Ltd. and its subsidiaries did not prepare a separate set of consolidated financial statements of affiliates.

Very truly yours,

King Slide Works Co., Ltd.

By

Tsung-Chi Lin
Chairman of the Board

INDEPENDENT AUDITORS' REPORT

The Board of Directors and Shareholders
King Slide Works Co., Ltd.

Opinion

We have audited the accompanying consolidated financial statements of King Slide Works Co., Ltd. (the “Company”) and its subsidiaries, which comprise the consolidated balance sheets as of December 31, 2022 and 2021, and the consolidated statements of comprehensive income, changes in equity and cash flows for the years then ended, and the notes to the consolidated financial statements, including a summary of significant accounting policies (collectively referred to as the “consolidated financial statements”).

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Company and its subsidiaries as of December 31, 2022 and 2021, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), IFRIC Interpretations (IFRIC), and SIC Interpretations (SIC) endorsed and issued into effect by the Financial Supervisory Commission (FSC) of the Republic of China.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and the Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company and its subsidiaries in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the year ended December 31, 2022. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

The key audit matter identified in the Company and its subsidiaries' consolidated financial statements for the year ended December 31, 2022 is as follows:

Occurrence of revenue from specific customers

The operating revenue of the Company and its subsidiaries for the year ended December 31, 2022 was NT\$7,798,631 thousand, which had increased by 23% compared with the previous year. In addition, based on the Standards on Auditing of the Republic of China, revenue recognition is presumed to have a significant risk. Therefore, we considered the occurrence of revenue from specific customers as a key audit matter.

In addition to obtaining an understanding of the internal controls relevant to the recognition of operating revenue, we performed the following audit procedures:

1. We understood and tested the operating effectiveness of the internal controls relevant to the revenue of the Company and its subsidiaries.
2. We selected samples and verified the occurrence of recorded revenue against supporting documents, including purchase orders, shipping and collection documents, and we checked and confirmed that the payer was the same as the buyer.

Other Matter

We have also audited the parent company only financial statements of King Slide Works Co., Ltd. as of and for the years ended December 31, 2022 and 2021 on which we have issued an unmodified opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IFRS, IAS, IFRIC, and SIC endorsed and issued into effect by the FSC, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company and its subsidiaries' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company and its subsidiaries' or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the audit committee, are responsible for overseeing the Company and its subsidiaries' financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company and its subsidiaries' internal control.

3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company and its subsidiaries' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company and its subsidiaries to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient and appropriate audit evidence regarding the financial information of entities or business activities within the Company and its subsidiaries to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision, and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the year ended December 31, 2022 and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audits resulting in this independent auditors' report are Chen-Li Chen and Chia-Ling Chiang.

KING SLIDE WORKS CO., LTD. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2022 AND 2021 (In Thousands of New Taiwan Dollars, Unless Stated Otherwise)

1. GENERAL INFORMATION

King Slide Works Co., Ltd. (the “Company”) was incorporated in September 1986 under the laws of the Republic of China (ROC). The Company mainly manufactures, processes and sells the following products:

- Rail kits for cloud computing servers and data devices.
- Furniture accessories, slides and molds.

The Company’s shares have been listed on the Taiwan Stock Exchange.

The consolidated financial statements are presented in the Company’s functional currency, the New Taiwan dollar.

2. APPROVAL OF FINANCIAL STATEMENTS

The consolidated financial statements were approved by the board of directors on February 24, 2023.

3. APPLICATION OF NEW, AMENDED AND REVISED STANDARDS AND INTERPRETATIONS

- a. Initial application of the International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), IFRIC Interpretations (IFRIC), and SIC Interpretations (SIC) (collectively, the “IFRSs”) endorsed and issued into effect by the Financial Supervisory Commission (FSC).

The initial application of the IFRSs endorsed and issued into effect by the FSC did not have a material impact on the accounting policies of the Company and its subsidiaries (collectively referred to as the “Group”):

- b. The IFRSs endorsed by the FSC for application starting from 2023

New, Amended and Revised Standards and Interpretations	Effective Date Announced by IASB
Amendments to IAS 1 “Disclosure of Accounting Policies”	January 1, 2023 (Note 1)
Amendments to IAS 8 “Definition of Accounting Estimates”	January 1, 2023 (Note 2)
Amendments to IAS 12 “Deferred Tax related to Assets and Liabilities arising from a Single Transaction”	January 1, 2023 (Note 3)

Note 1: The amendments will be applied prospectively for annual reporting periods beginning on or after January 1, 2023.

Note 2: The amendments will be applicable to changes in accounting estimates and changes in accounting policies that occur on or after the beginning of the annual reporting period beginning on or after January 1, 2023.

Note 3: Except for deferred taxes that were recognized on January 1, 2022 for temporary differences

associated with leases and decommissioning obligations, the amendments were applied prospectively to transactions that occur on or after January 1, 2022.

As of the date the consolidated financial statements were authorized for issue, the Group assessed that the application of standards and interpretations will not have a material impact on the Group's financial position and financial performance.

- c. The IFRSs in issue but not yet endorsed and issued into effect by the FSC

New, Amended and Revised Standards and Interpretations	Effective Date Announced by IASB (Note 1)
Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets between an Investor and its Associate or Joint Venture"	To be determined by IASB
Amendments to IFRS 16 "Leases Liability in a Sale and Leaseback"	January 1, 2024 (Note 2)
IFRS 17 "Insurance Contracts"	January 1, 2023
Amendments to IFRS 17	January 1, 2023
Amendments to IFRS 17 "Initial Application of IFRS 9 and IFRS 17 - Comparative Information"	January 1, 2023
Amendments to IAS 1 "Classification of Liabilities as Current or Non-current"	January 1, 2024
Amendments to IAS 1 "Non-current Liabilities with Covenants"	January 1, 2024

Note 1: Unless stated otherwise, the above IFRSs are effective for annual reporting periods beginning on or after their respective effective dates.

Note 2: A seller-lessee shall apply the Amendments to IFRS 16 retrospectively to sale and leaseback transactions entered into after the date of initial application of IFRS 16.

Note 3: The amendments are applicable to changes in accounting estimates and changes in accounting policies that occur on or after the beginning of the annual reporting period beginning on or after January 1, 2023.

As of the date the consolidated financial statements were authorized for issue, the Group is continuously assessing the possible impact that the application of other standards and interpretations will have on the Group's financial position and financial performance and will disclose the relevant impact when the assessment is completed.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- a. Statement of compliance

The consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and IFRSs as endorsed and issued into effect by the FSC.

- b. Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis except for net defined benefit liabilities which are measured at the present value of the defined benefit obligation less the fair value of plan assets.

- c. Classification of current and noncurrent assets and liabilities

Current assets include:

- 1) Assets held primarily for the purpose of trading;
- 2) Assets expected to be realized within 12 months after the reporting period; and
- 3) Cash and cash equivalents unless the asset is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

Current liabilities include:

- 1) Liabilities held primarily for the purpose of trading;
- 2) Liabilities due to be settled within 12 months after the reporting period; and
- 3) Liabilities for which the Group does not have an unconditional right to defer settlement for at least 12 months after the reporting period.

Assets and liabilities that are not classified as current are classified as noncurrent.

d. Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and the entities controlled by the Company (i.e., its subsidiaries).

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by the Company. All intra-group transactions, balances, income and expenses are eliminated in full upon consolidation.

See Note 10 and Tables 4 and 5 for detailed information on subsidiaries (including percentages of ownership and main businesses).

e. Foreign currencies

In preparing the financial statements of each individual entity, transactions in currencies other than the entity's functional currency (i.e., foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions.

At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Exchange differences on monetary items arising from settlement or translation are recognized in profit or loss in the year in which they arise.

Non-monetary items that are measured at historical cost in a foreign currency are translated using the exchange rate at the date of the transaction, and not retranslated subsequently.

For the purpose of presenting the consolidated financial statements, the functional currencies of the entities in the Group are translated into the presentation currency, the New Taiwan dollar, as follows: Assets and liabilities are translated at the exchange rates prevailing at the end of the reporting year; and income and expense items are translated at the average exchange rates for the year. The resulting currency translation differences are recognized in other comprehensive income.

f. Inventories

Inventories are stated at the lower of cost or net realizable value. Inventory write-downs are made by item. The net realizable value is the estimated selling price of inventories less all estimated costs of completion and costs necessary to make the sale. Inventories are recorded at the weighted-average cost

g. Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment loss.

Freehold land is not depreciated.

Property, plant and equipment in the course of construction are measured at cost less any recognized impairment loss. Cost includes professional fees and borrowing costs eligible for capitalization. Such assets are depreciated and classified to the appropriate categories of property, plant and equipment when completed and ready for their intended use.

Depreciation of property, plant and equipment is recognized using the straight-line method. Each significant part is depreciated separately. The estimated useful lives, residual values and depreciation methods are reviewed at the end of each reporting year, with the effects of any changes in the estimates accounted for on a prospective basis.

On derecognition of an item of property, plant and equipment, the difference between the sales proceeds and the carrying amount of the asset is recognized in profit or loss.

h. Intangible assets

Intangible assets with finite useful lives that are acquired separately are initially measured at cost and subsequently measured at cost less accumulated amortization and accumulated impairment loss. Amortization is recognized on a straight-line basis. The estimated useful lives, residual values, and amortization methods are reviewed at the end of each reporting period, with the effect of any changes in the estimates accounted for on a prospective basis.

On derecognition of an intangible asset, the difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss.

i. Impairment of property, plant and equipment, right-of-use asset, and intangible assets

At the end of each reporting period, the Group reviews the carrying amounts of its property, plant and equipment, right-of-use asset and intangible assets, to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Corporate assets are allocated to the individual cash-generating units on a reasonable and consistent basis of allocation.

The recoverable amount is the higher of fair value less costs to sell and value in use. If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount, with the resulting impairment loss recognized in profit or loss.

When an impairment loss is subsequently reversed, the carrying amount of the asset or cash-generating unit is increased to the revised estimate of its recoverable amount, but only to the extent of the carrying amount that would have been determined had no impairment loss been recognized for the asset or cash-generating unit in prior years. A reversal of an impairment loss is recognized in profit or loss.

j. Financial instruments

Financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issuance of financial assets and financial liabilities (other than financial assets and financial liabilities at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

1) Financial assets

All regular way purchase or sales of financial assets are recognized and derecognized on a trade date basis

a) Measurement categories

Financial assets are classified into financial assets at amortized cost which meet the following conditions:

- i The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- ii The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Subsequent to initial recognition, financial assets at amortized cost, including cash and cash equivalents, notes receivable, accounts receivable, other receivables and refundable deposits, are measured at amortized cost, which equals the gross carrying amount determined using the effective interest method less any impairment loss. Exchange differences are recognized in profit or loss.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset.

Cash equivalents include time deposits with original maturities within 3 months from the date of acquisition, which are highly liquid, readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value. These cash equivalents are held for the purpose of meeting short-term cash commitments.

b) Impairment of financial assets

The Group recognizes a loss allowance for expected credit losses on financial assets at amortized cost (including accounts receivable).

The Group always recognizes lifetime expected credit losses (ECLs) for accounts receivable. For all other financial instruments, the Group recognizes lifetime ECLs when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month ECLs.

Expected credit losses reflect the weighted average of credit losses with the respective risks of default occurring as the weights. Lifetime ECLs represent the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECLs represent the portion of lifetime ECLs that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

For internal credit risk management purposes, the Group determines that the following situations indicate that a financial asset is in default without taking into account any collateral held by the Group:

- i Internal or external information show that the debtor is unlikely to pay its creditors.
- ii When a financial asset is more than 120 days past due unless the Group has reasonable and corroborative information to support a more lagged default criterion.

The impairment loss of all financial assets is recognized in profit or loss by a reduction in their carrying amounts through a loss allowance account.

c) Derecognition of financial assets

The Group derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset at amortized cost in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognized in profit or loss.

2) Financial liabilities

a) Subsequent measurement

The financial liabilities held by the Group are measured at amortized cost using the effective interest method.

b) Derecognition of financial liabilities

The difference between the carrying amount of the financial liability derecognized and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

k. Revenue recognition

The Group identifies contracts with customers, allocates the transaction price to the performance obligations and recognizes revenue when performance obligations are satisfied.

Revenue from the sale of goods comes from sales of rail kits. Sales of rail kits are recognized as revenue when the goods are delivered to the customer's specific location because it is the time when the customer has full discretion over the manner of distribution and price to sell the goods, has the primary responsibility for sales to future customers and bears the risks of obsolescence. Accounts receivable are recognized concurrently.

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

l. Leases

At the inception of a contract, the Group assesses whether the contract is, or contains, a lease.

When the Group is as a lessee, the Group recognizes right-of-use assets and lease liabilities for all leases at the commencement date of a lease, except for short-term leases and low-value asset leases accounted for applying a recognition exemption where lease payments are recognized as expenses on a straight-line basis over the lease terms.

Right-of-use assets are initially measured at cost, which includes the initial measurement of lease liabilities, and subsequently measured at cost less accumulated depreciation and impairment losses and

adjusted for any remeasurement of the lease liabilities. Right-of-use assets are presented on a separate line in the consolidated balance sheets.

Right-of-use assets are depreciated using the straight-line method from the commencement dates to the end of the lease terms.

Lease liabilities are initially measured at the present value of the lease payments. The lease payments are discounted using the interest rate implicit in a lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses the lessee's incremental borrowing rate.

Subsequently, lease liabilities are measured at amortized cost using the effective interest method, with interest expense recognized over the lease terms. When there is a change in a lease term or a change in future lease payments resulting from a change in an index or a rate used to determine those payments, the Group remeasures the lease liabilities with a corresponding adjustment to the right-of-use-assets. However, if the carrying amount of the right-of-use assets is reduced to zero, any remaining amount of the remeasurement is recognized in profit or loss. Lease liabilities are presented on a separate line in the consolidated balance sheets.

m. Borrowing costs

Borrowing costs directly attributable to an acquisition, construction or production of qualifying assets are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Other than those stated above, all other borrowing costs are recognized in profit or loss in the period in which they are incurred.

n. Government grants

Government grants are not recognized until there is reasonable assurance that the Group will comply with the conditions attached to them and that the grants will be received.

Government grants whose primary condition is that the Group should purchase, construct or otherwise acquire noncurrent assets are recognized as deferred revenue and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

The benefit of a government loan received at a below-market rate of interest is treated as a government grant measured as the difference between the proceeds received and the fair value of the loan based on prevailing market interest rates.

o. Employee benefits

1) Short-term employee benefits

Liabilities recognized in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related services.

2) Retirement benefits

Payments to defined contribution retirement benefit plans are recognized as expenses when employees have rendered services entitling them to the contributions.

Defined benefit costs (including service cost, net interest and remeasurement) under defined benefit retirement benefit plans are determined using the projected unit credit method. Service cost (including current service cost) and net interest on the net defined benefit liabilities are recognized as employee benefits expense in the period in which they occur. Remeasurement, comprising actuarial gains and

losses, the effect of the changes to the asset ceiling and the return on plan assets (excluding interest), is recognized in other comprehensive income in the period in which it occurs. Remeasurement recognized in other comprehensive income is reflected immediately in other equity and will not be reclassified to profit or loss.

Net defined benefit liabilities represent the actual deficit in the Group's defined benefit plans.

p. Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

1) Current tax

Income tax payable is based on taxable profit for the year determined according to the applicable tax laws of each tax jurisdiction.

According to the Income Tax Act of the ROC, an additional tax on unappropriated earnings is provided in the year the shareholders approve to retain the earnings.

Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax provision.

2) Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered. A previously unrecognized deferred tax asset is also reviewed at the end of each reporting period and recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liabilities are settled or the assets are realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

3) Current and deferred taxes for the year

Current and deferred taxes are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred taxes are also recognized in other comprehensive income or directly in equity, respectively.

5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, management is required to make judgments,

estimations, and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered relevant. Actual results may differ from these estimates.

The Group considers the possible impact when making its critical accounting estimates on cash flow projections, growth rate, discount rate, profitability, etc. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimates are revised if the revisions affect only that year or in the year of the revisions and future years if the revisions affect both current and future years.

Key sources of estimation uncertainty - Estimated impairment of financial assets

The provision for impairment of accounts receivable is based on assumptions about risk of default and expected loss rates. The Group uses judgment in making these assumptions and in selecting the inputs to the impairment calculation, based on the Group's historical experience, existing market conditions as well as forward looking estimates. For details of the key assumptions and inputs used, refer to Note 8.

6. CASH AND CASH EQUIVALENTS

	December 31	
	2022	2021
Cash on hand	\$ 152	\$ 77
Checking accounts and demand deposits	1,596,751	1,185,091
Cash equivalents (investments with original maturities of 3 months or less)		
Commercial papers	1,236,561	724,021
Time deposits	<u>8,759,009</u>	<u>6,017,185</u>
	<u>\$ 11,592,473</u>	<u>\$ 7,926,374</u>

The market interest rates of cash equivalents at the end of the reporting year were as follows:

	December 31	
	2022	2021
Commercial papers (%)	0.92-1.00	0.24
Time deposits (%)	0.95-4.86	0.16-2.26

The Group dealt with many creditworthy financial institutions to disperse credit risk; therefore there was no expected credit loss.

7. FINANCIAL ASSETS AT AMORTIZED COST

	December 31	
	2022	2021
Time deposits with original maturities of more than 3 months	<u>\$ 1,105,812</u>	<u>\$ 1,494,612</u>

The annual interest rate of financial assets measured by amortized cost on the balance sheet date is as follows:

	December 31	
	2022	2021
Annual rate (%)	3.95-4.21	0.17

The counterparties of the financial assets at amortized cost are mainly banks with good credit ratings. There is no significant doubt about the performance of the contract, and there is no significant credit risk in the assessment.

8. NOTES, ACCOUNTS AND OVERDUE RECEIVABLE, NET

	December 31	
	2022	2021
Notes receivable		
At amortized cost		
Operating	\$ 58,382	\$ 66,868
Accounts receivable		
At amortized cost		
Gross carrying amount	\$ 1,790,015	\$ 1,683,684
Less: Allowance for impairment loss	23,724	17,750
	\$ 1,766,291	\$ 1,665,934
Overdue receivables		
Non-accrual loan	\$ 1,213	\$ 1,213
Less: Allowance for impairment loss	1,213	1,213
	\$ -	\$ -

The average credit period of sales of goods was 30-150 days. No interest was charged on accounts receivable. In order to minimize credit risk, the management of the Group has delegated a team responsible for determining credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual trade debt at the end of the reporting period to ensure that adequate allowance is made for possible irrecoverable amounts. In this regard, the management believes the Group's credit risk was significantly reduced.

The Group makes allowance for expected credit loss at an amount equal to lifetime expected credit loss for all accounts receivable. The expected credit losses on accounts receivable are estimated using a provision matrix prepared by reference to the past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of economic conditions at the reporting date. As the Group's historical credit loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished according to the Group's different customer base.

There were no notes receivable that were past due or impaired at the end of the reporting year.

The following table details the loss allowance of accounts receivable based on the Group's provision matrix.

December 31, 2022

	Not Past Due	Past Due 1 to 60 Days	Past Due 61 to 90 Days	Past Due 91 to 120 Days	Past Due Over 120 Days	Total
Expected credit loss rate (%)	0-0.1	1	10	50	100	
Gross carrying amount	\$ 1,333,626	\$ 409,252	\$ 29,900	\$ 3,936	\$ 13,301	\$ 1,790,015
Loss allowance (Lifetime ECL)	<u>(1,372)</u>	<u>(4,093)</u>	<u>(2,990)</u>	<u>(1,968)</u>	<u>(13,301)</u>	<u>(23,724)</u>
Amortized cost	<u>\$ 1,332,254</u>	<u>\$ 405,159</u>	<u>\$ 26,910</u>	<u>\$ 1,968</u>	<u>\$ -</u>	<u>\$ 1,766,291</u>

December 31, 2021

	Not Past Due	Past Due 1 to 60 Days	Past Due 61 to 90 Days	Past Due 91 to 120 Days	Past Due Over 120 Days	Total
Expected credit loss rate (%)	0-0.1	1	10	50	100	-
Gross carrying amount	\$ 1,290,678	\$ 347,152	\$ 31,504	\$ 9,098	\$ 5,252	\$ 1,683,684
Loss allowance (Lifetime ECL)	<u>(1,328)</u>	<u>(3,471)</u>	<u>(3,150)</u>	<u>(4,549)</u>	<u>(5,252)</u>	<u>(17,750)</u>
Amortized cost	<u>\$ 1,289,350</u>	<u>\$ 343,681</u>	<u>\$ 28,354</u>	<u>\$ 4,549</u>	<u>\$ -</u>	<u>\$ 1,665,934</u>

The movements of the loss allowance of accounts receivable and overdue receivables were as follows:

	Accounts Receivable	Overdue Receivables	Total
Balance at January 1, 2022	\$ 17,750	\$ 1,213	\$ 18,963
Impairment losses reversed	<u>5,974</u>	<u>-</u>	<u>5,974</u>
Balance at December 31, 2022	<u>\$ 23,724</u>	<u>\$ 1,213</u>	<u>\$ 24,937</u>
Balance at January 1, 2021	\$ 2,780	\$ 1,213	\$ 3,993
Impairment losses reversed	<u>14,970</u>	<u>-</u>	<u>14,970</u>
Balance at December 31, 2021	<u>\$ 17,750</u>	<u>\$ 1,213</u>	<u>\$ 18,963</u>

9. INVENTORIES

	<u>December 31</u>	
	<u>2022</u>	<u>2021</u>
Finished goods	\$ 432,478	\$ 303,470
Work-in-process	152,768	190,078
Raw materials	317,022	413,263
Supplies	<u>17,486</u>	<u>18,808</u>
	<u>\$ 919,754</u>	<u>\$ 925,619</u>

The cost of inventories recognized as costs of goods sold were \$3,332,655 thousand and \$2,987,157 thousand for the years ended December 31, 2022 and 2021, respectively, which included the following items:

	<u>For the Year Ended December 31</u>	
	<u>2022</u>	<u>2021</u>
Write-downs (reverses)	\$ 23,035	\$ 3,240

Income from sale of scraps	<u>(69,375)</u>	<u>(70,235)</u>
	<u>\$ (46,340)</u>	<u>\$ (66,995)</u>

10. SUBSIDIARIES

Subsidiaries included in the consolidated financial statements were as follows::

Name of Investor	Name of Investee	Main Businesses and Products	Percentage of Ownership	
			December 31, 2022	December 31, 2021
The Company	King Slide Technology Co., Ltd.	Manufacture and sales of mechanical rail kit products which integrated in servers and network-related equipment.	100	100
	King Slide (Samoa) Co., Ltd.	International investment	100	100
	King Slide USA Co., Ltd.	Trade of rail kits, slides and accessories	100	100
King Slide (Samoa) Co., Ltd.	King Slide (Hong Kong) Co., Ltd.	International investment	100	100
King Slide (Hong Kong) Co., Ltd.	King Slide Technology (China) Co., Ltd.	Wholesale and provide related services for rail kits, slides and accessories	100	100
King Slide Technology (China) Co., Ltd.	King Slide Technology (Shenzhen) Co., Ltd.	Sales of servers, servers and Internet related products and components, handheld wireless phone, electronic products and other related components, communication equipment and related products (except satellite TV broadcasting ground receiving equipment); import and export of goods or technologies.	100	100

11. PROPERTY, PLANT AND EQUIPMENT

a. Movements of cost and accumulated depreciation are as follows:

For the year ended December 31, 2022

	Land	Buildings	Machinery and Equipment	Transportation Equipment	Office Equipment	Others	Property under Construction	Total
<u>Cost</u>								
Balance at January 1, 2022	\$ 228,331	\$ 1,080,116	\$ 1,730,594	\$ 10,683	\$ 102,974	\$ 343,675	\$ 1,089,354	\$ 4,585,727
Additions	-	3,098	200,754	104	23,325	88,744	381,056	697,081
Disposals	-	-	(10,103)	-	(272)	(673)	-	(11,048)
Effect of foreign currency exchange differences	182	3,246	-	104	131	96	-	3,759
Balance at December 31, 2022	<u>\$ 228,513</u>	<u>\$ 1,086,460</u>	<u>\$ 1,921,245</u>	<u>\$ 10,891</u>	<u>\$ 126,158</u>	<u>\$ 431,842</u>	<u>\$ 1,470,410</u>	<u>\$ 5,275,519</u>
<u>Accumulated depreciation</u>								
Balance at January 1, 2022	\$ -	\$ (420,064)	\$(1,362,379)	\$ (5,728)	\$ (85,147)	\$ (266,687)	\$ -	\$(2,140,005)

b. Estimated useful lives

Property, plant and equipment are depreciated on a straight-line basis over the estimated useful lives as follows:

Buildings	
Plant	30-35 years
Office	50 years
Others	5-35 years
Machinery and equipment	
Molding	8 years
Electroplating	8 years
Others	2-11 years
Transportation equipment	5 years
Office equipment	2-15 years
Others	
Crane	10 years
ASRS	10 years
Others	2-20 years

c. Investing activities affecting both cash and non-cash items

	<u>For the Year Ended December 31</u>	
	<u>2022</u>	<u>2021</u>
Acquisition of property, plant and equipment	\$ 697,081	\$ 732,113
Increase in prepayments for equipment	42,597	29,621
Decrease in payables for purchased equipment	98,669	15,464
Depreciation and interest capitalized	<u>(14,271)</u>	<u>(9,524)</u>
Cash paid	<u>\$ 824,076</u>	<u>\$ 767,674</u>

12. LEASE ARRANGEMENTS

a. Right-of-use assets

	December 31	
	2022	2021
Carrying amount - land	<u>\$ 622,098</u>	<u>\$ 624,881</u>
	For the Year Ended December 31	
	2022	2021
Additions to right-of-use assets	<u>\$ 36,534</u>	<u>\$ -</u>
Depreciation charge for right-of-use assets - land	<u>\$ 39,317</u>	<u>\$ 37,147</u>

Except for the addition and recognition of depreciation expenses listed above, there was no significant sublease or impairment of the right-of-use assets of the Group in 2022 and 2021.

b. Lease liabilities

	December 31	
	2022	2021
Carrying amount		
Current	<u>\$ 35,771</u>	<u>\$ 33,298</u>
Noncurrent	<u>\$ 604,908</u>	<u>\$ 606,048</u>

Range of discount rate for lease liabilities was as follows:

	December 31	
	2022	2021
Land (%)	1.55-1.71	1.55-1.71

c. Material leasing activities and terms

Operating leases between King Slide Technology Co., Ltd. and the government are related to land with lease terms of 20 years, which will expire in May 2027 and January 2033. When the value of land is re-assessed by the government according to the law, the rent shall be adjusted. The Group does not have a bargain purchase option to acquire the leased land at the expiration of the lease periods.

d. Other lease information

	For the Year Ended December 31	
	2022	2021
Expenses relating to short-term leases	<u>\$ 1,858</u>	<u>\$ 2,291</u>
Total cash outflow for leases	<u>\$ 47,931</u>	<u>\$ 45,872</u>

13. LONG-TERM BORROWINGS

	December 31	
	2022	2021
Unsecured borrowings	\$ 908,940	\$ 460,900
Less: Government grants	<u>14,402</u>	<u>8,543</u>
	<u>\$ 894,538</u>	<u>\$ 452,357</u>

The above-mentioned long-term loan is a special loan for the purchase of equipment and construction of factories. It will be repaid on a monthly basis from October 2023 to September 2030 at an annual interest rate of 0.75% and 0.25% as of December 31, 2022 and 2021, respectively. However, the interest rate is lower than the market interest rate due to the government grants, and the Group recognized the difference as deferred revenue which will be transferred to profit or loss over the useful lives of the related assets.

14. NOTES PAYABLE AND ACCOUNTS PAYABLE

	December 31	
	2022	2021
<u>Notes payable</u>		
Operating	\$ 287,140	\$ 346,056
Non-operating	<u>54,152</u>	<u>97,927</u>
	<u>\$ 341,292</u>	<u>\$ 443,983</u>
<u>Accounts payable</u>		
Operating	<u>\$ 87,241</u>	<u>\$ 122,577</u>

Notes payable

The Group's notes payable from non-operating activities were used for acquisition of property, plant and equipment.

Accounts payable

The average credit period of purchasing materials and supplies was 30-90 days. The Group has a financial risk management policy to ensure that all payables are paid within the pre-agreed credit terms.

15. OTHER PAYABLES

	December 31	
	2022	2021
Payable for compensation of employees and remuneration of directors and supervisors	\$ 487,220	\$ 248,896
Payable for salaries and bonuses	202,746	217,948
Payable for purchase of equipment	34,622	89,516
Others	<u>101,200</u>	<u>100,592</u>
	<u>\$ 825,788</u>	<u>\$ 656,952</u>

16. REFUND LIABILITY

The refund liability was estimated based on historical experience, management's judgments and other known reasons and was recognized as a reduction of operating revenue in the year the related goods were sold. As of December 31, 2022 and 2021, the Group's estimated refund liabilities were \$23,110 thousand and \$20,718 thousand, respectively.

17. RETIREMENT BENEFIT PLANS

a. Defined contribution plans

The Company and King Slide Technology Co., Ltd. adopted a pension plan under the Labor Pension Act (LPA), which is a state-managed defined contribution plan. Under the LPA, an entity makes monthly contributions to employees' individual pension accounts at 6% of monthly salaries and wages.

b. Defined benefit plans

The defined benefit plan adopted by the Company in accordance with the Labor Standards Act is operated by the government of the ROC. Pension benefits are calculated on the basis of the length of service and average monthly salaries of the 6 months before retirement. The Company contributes amounts equal to 2.4% of total monthly salaries and wages to a pension fund administered by the pension fund monitoring committee. Pension contributions are deposited in the Bank of Taiwan in the committee's name. Before the end of each year, the Company assesses the balance in the pension fund. If the amount of the balance in the pension fund is inadequate to pay retirement benefits for employees who conform to retirement requirements in the next year, the Group is required to fund the difference in one appropriation that should be made before the end of March of the next year. The pension fund is managed by the Bureau of Labor Funds, Ministry of Labor (the "Bureau"); the Company has no right to influence the investment policy and strategy.

The amounts included in the consolidated balance sheets in respect of the Company's defined benefit plans were as follows:

	December 31	
	2022	2021
Present value of defined benefit obligation	\$ 86,034	\$ 95,630
Fair value of plan assets	<u>(66,294)</u>	<u>(56,026)</u>
Deficit	19,740	39,604
Included in other payables	<u>(3,723)</u>	<u>(5,732)</u>
Net defined benefit liabilities	<u>\$ 16,017</u>	<u>\$ 33,872</u>

Movements in net defined benefit liabilities were as follows:

	Present Value of the Defined Benefit Obligation	Fair Value of the Plan Assets	Net Defined Benefit Liabilities
Balance at January 1, 2021	<u>\$ 84,980</u>	<u>\$ (42,979)</u>	<u>\$ 42,001</u>
Service cost

Actuarial loss - changes in demographic assumptions	135	-	135
Actuarial gain - changes in financial assumptions	(4,077)	-	(4,077)
Actuarial gain - experience adjustments	<u>(4,813)</u>	<u>-</u>	<u>(4,813)</u>
Recognized in other comprehensive income	<u>(8,755)</u>	<u>(4,384)</u>	<u>(13,139)</u>
Contributions from the employer	<u>-</u>	<u>(7,177)</u>	<u>(7,177)</u>
Benefits paid	<u>(1,591)</u>	<u>1,591</u>	<u>-</u>
Balance at December 31, 2022	<u>\$ 86,034</u>	<u>\$ (66,294)</u>	<u>\$ 19,740</u>
			(Concluded)

Through the defined benefit plans under the Labor Standards Act, the Company is exposed to the following risks:

1) Investment risk

The plan assets are invested in domestic and foreign equity and debt securities, bank deposits, etc. The investment is conducted at the discretion of the Bureau or under the mandated management. However, in accordance with relevant regulations, the return generated by plan assets shall not be below the interest rate for a 2-year time deposit with local banks.

2) Interest risk

A decrease in the government bond interest rate will increase the present value of the defined benefit obligation; however, this will be partially offset by an increase in the return on the plan's debt investments.

3) Salary risk

The present value of the defined benefit obligation is calculated using the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the present value of the defined benefit obligation.

The actuarial valuations of the present value of the defined benefit obligation were carried out by qualified actuaries. The significant assumptions used for the purpose of the actuarial valuations were as follows:

	December 31	
	2022	2021
Discount rate (%)	1.50	0.50
Expected rate of salary increase (%)	2.50	2.00

If possible reasonable changes in each of the significant actuarial assumptions will occur and all other assumptions will remain constant, the present value of the defined benefit obligation would increase (decrease) as follows:

	December 31	
	2022	2021
Discount rate		
0.25% increase	\$ (1,855)	\$ (2,309)
0.25% decrease	\$ 1,948	\$ 2,392
Expected rate of salary increase		
0.25% increase	\$ 1,895	\$ 2,316
0.25% decrease	\$ (1,843)	\$ (2,247)
		(Concluded)

The sensitivity analysis presented above may not be representative of the actual changes in the present value of the defined benefit obligation as it is unlikely that the changes in assumptions will occur in isolation of one another as some of the assumptions may be correlated.

	December 31	
	2022	2021
Expected contributions to the plan for the next year	\$ 5,086	\$ 7,279
Average duration of the defined benefit obligation	8.9 years	9.7 years

18. EQUITY

a. Ordinary shares

	December 31	
	2022	2021
Number of shares authorized (in thousands)	138,000	138,000

Shares authorized	\$ 1,380,000	\$ 1,380,000
Number of shares issued and fully paid (in thousands)	95,297	95,297
Shares issued	\$ 952,971	\$ 952,971

Fully paid ordinary shares, which have a par value of \$10, carry one vote per share and carry a right to dividends.

b. Capital surplus

	December 31	
	2022	2021
Arising from issuance of ordinary shares	\$ 794,341	\$ 794,341
Arising from treasury share transactions	2,350	2,350
	<u>\$ 796,691</u>	<u>\$ 796,691</u>

The above-mentioned capital surplus may be used to offset a deficit; in addition, when the Company has no deficit, such capital surplus may be distributed as cash dividends or transferred to share capital (limited to a certain percentage of the Company's capital surplus and to once a year).

c. Retained earnings and dividend policy

Under the dividend policy as set forth in the Company's articles of incorporation, where the Company made a profit in a fiscal year, the profit shall be first utilized for paying taxes, offsetting losses of previous years, setting aside as legal reserve 10% of the remaining profit until the legal reserve equals to the Company's paid-in capital, setting aside or reversing a special reserve in accordance with the laws and regulations, and then any remaining profit together with any undistributed retained earnings shall be used by the Company's board of directors as the basis for proposing a distribution plan, which should be resolved in the shareholders' meeting for the distribution of dividends and bonuses as to shareholders.

The Company's dividend policy is in line with the current and future development plans, environment, capital needs and domestic and international competition in order to promote shareholders' interests. Thus, the Company may retain some of its earnings according to the Company's operation, and the residual earnings may be distributed in cash or shares. However, cash dividends should be at least 10% of the total dividends distributed.

The legal reserve may be used to offset deficits. If the Company has no deficit and the legal reserve has exceeded 25% of the Company's paid-in capital, the excess may be transferred to capital or distributed in cash.

Items referred to under Rule No. 1090150022 issued by the FSC and in the directive titled "Questions and Answers for Special Reserves Appropriated Following Adoption of IFRSs" should be appropriated to or reversed from a special reserve by the Company.

The appropriations of earnings for 2021 and 2020 were approved in the shareholders' meeting on June 29, 2022 and July 30, 2021, respectively. The appropriations of earnings for 2021 and 2020 were as follows:

	Appropriation of Earnings		Dividends Per Share (NT\$)	
	2021	2020	2021	2020
Legal reserve	\$ 206,555	\$ 116,443		
Special reserve	83	1,549		

Cash dividends	<u>1,036,832</u>	<u>583,218</u>	<u>\$ 10.88</u>	<u>6.1</u>
	<u>\$ 1,243,470</u>	<u>\$ 701,210</u>		

The appropriation of earnings for 2022 had been proposed by the Company's board of directors on February 24, 2023. The appropriation and dividends per share were as follows:

	<u>Appropriation of Earnings</u>	<u>Dividends Per Share (NT\$)</u>
Legal reserve	\$ 406,666	
Special reserve	(3,081)	
Cash dividends	<u>1,905,941</u>	<u>\$ 20</u>
	<u>\$2,309,526</u>	

The appropriation of earnings for 2022 are subject to the resolution in the shareholders' meeting to be held on June 28, 2023.

d. Special reserve

On the first-time adoption of IFRSs, the Company appropriated \$ 6,221 thousand to the special reserve due to the increase in retained earnings from conversion to IFRSs. Additional special reserve should be appropriated for an amount equal to the difference between net debit balance and special reserve appropriated on the first-time adoption of IFRSs. Any special reserve appropriated may be reversed to the extent that the net debit balance reverses and is thereafter distributed.

19. REVENUE

	<u>For the Year Ended December 31</u>

f. Compensation of employees and remuneration of directors and supervisors

The Company accrued compensation of employees and remuneration of directors and supervisors at rates of no less than 1% and no higher than 5%, respectively, of net profit before income tax, compensation of employees, and remuneration of directors and supervisors. The compensation of employees and remuneration of directors and supervisors for the years ended December 31, 2022 and 2021, which have been approved by the Company's board of directors on February 24, 2023 and February 25, 2022, respectively, were as follows:

For the Year Ended December 31			
2022		2021	
Cash	%	Cash	%

Compensation of employees	\$ 172,788	3.9	\$ 85,849	3.8
Remuneration of directors and supervisors	6,000	0.1	6,500	0.3

If there is a change in the amounts after the annual consolidated financial statements are authorized for issue, the differences are recorded as a change in the accounting estimate.

There is no difference between the actual amounts of compensation of employees and remuneration of directors and supervisors paid and the amounts recognized in the consolidated financial statements for the years ended December 31, 2021 and 2020.

Information on the compensation of employees and remuneration of directors and supervisors resolved by the Company's board of directors is available at the Market Observation Post System website of the Taiwan Stock Exchange.

21. INCOME TAX

- a. The major components of income tax expense recognized in profit or loss are as follows:

	For the Year Ended December 31	
	2022	2021
Current tax		
In respect of the current year	\$ 852,163	\$ 520,261
Income tax on unappropriated earnings	87,618	22,730
Adjustments for prior years	<u>(75,569)</u>	<u>(16,214)</u>
	<u>864,212</u>	<u>526,777</u>
Deferred tax		
In respect of the current year	<u>152,931</u>	<u>(3,515)</u>
	<u>\$1,017,143</u>	<u>\$ 523,262</u>

A reconciliation of accounting profit and income tax expense is as follows:

	For the Year Ended December 31	
	2022	2021
Profit before income tax	<u>\$ 5,073,288</u>	<u>\$ 2,595,782</u>
Income tax expense calculated at the statutory rate	\$ 1,014,904	\$ 519,530
Income tax on unappropriated earnings	87,618	22,730
Investment credits	(9,810)	(2,784)
Adjustments for prior years	<u>(75,569)</u>	<u>(16,214)</u>
	<u>\$ 1,017,143</u>	<u>\$ 523,262</u>

b. Income tax benefit recognized in other comprehensive income

	For the Year Ended December 31	
	2022	2021
<hr/>		
Deferred tax		
In respect of the current year		
Remeasurement of defined benefit plans	\$ (2,628)	\$ 1,743

e. Income tax assessments

The income tax returns of the Company and King Slide Technology Co., Ltd. through 2020 have been assessed by the tax authorities.

22. EARNINGS PER SHARE

The net profit and weighted average number of ordinary shares outstanding in the computation of earnings per share are as follows:

Net profit for the year - attributable to owners of the Company

	<u>For the Year Ended December 31</u>	
	<u>2022</u>	<u>2021</u>
Net profit used in the computation of earnings per share	\$ 4,056,145	\$ 2,072,520
Effect of potentially dilutive ordinary shares		
Compensation of employees	<u>(48,864)</u>	<u>(15,063)</u>
Net profit used in the computation of diluted earnings per share	<u>\$ 4,007,281</u>	<u>\$ 2,057,457</u>

Weighted average number of ordinary shares outstanding (in thousands)

	For the Year Ended December 31	
	2022	2021
Weighted average number of ordinary shares used in the computation of basic earnings per share	95,297	95,297
Effect of diluted potential ordinary shares		
Employees' compensation	<u>481</u>	<u>189</u>
Weighted average number of ordinary shares used in the computation of diluted earnings per share	<u>95,778</u>	<u>95,486</u>

If the Group offered to settle compensation paid to employees in cash or shares, the Group assumed the entire amount of the compensation will be settled in shares and the resulting potential shares were included in the weighted average number of shares outstanding used in the computation of diluted earnings per share, as the effect is dilutive. Such dilutive effect of the potential shares is included in the computation of diluted earnings per share until the number of shares to be distributed to employees is resolved in the following year.

23. CAPITAL MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as going concerns while maximizing the return to shareholders through the optimization of the debt and equity balance. The Group's overall strategy remains unchanged from the last 2 years.

The Group is not subject to any externally imposed capital requirements.

24. FINANCIAL INSTRUMENTS

a. Fair value of financial instruments not measured at fair value

The Group's management considers that the carrying amounts of financial assets and financial liabilities which are not measured at fair value approximate their fair values.

b. Categories of financial instruments

	December 31	
	2022	2021
<hr/>		
Financial assets		
Measured at amortized cost (Note 1)	\$ 14,567,463	\$ 11,196,823
<hr/>		
Financial liabilities		
Measured at amortized cost (Note 2)	2,148,897	1,675,907

Note 1: The balances include cash and cash equivalents, financial assets at amortized cost, notes receivable, accounts receivable, other receivables, and refundable deposits.

Note 2: The balances include notes payable, accounts payable, other payables, guarantee deposits received (included in other current liabilities) and long-term borrowings.

c. Financial risk management objectives and policies

The Group's treasury function provides services to the business, coordinates access to financial markets, monitors and manages the financial risks relating to the operations of the Group through analyzing exposures to risks. These risks include market risk (including currency risk and interest rate risk), credit risk and liquidity risk.

The treasury function reports quarterly to the Group's management.

1) Market risk

The Group's activities exposed it primarily to the financial risks of changes in foreign currency exchange rates and interest rate risks.

a) Foreign currency risk

The Group has foreign currency sales and purchases, which exposes the Group to foreign currency risk.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities (including those eliminated on consolidation) exposed to foreign currency risk at the end of the year are set out in Note 27.

Sensitivity analysis

The Group was mainly exposed to the risk from the fluctuation of USD.

The following table details the Group's sensitivity to a 1% increase and decrease in the functional currency rate against USD. A positive (negative) number below indicates an increase (decrease) in pre-tax profit associated with the functional currency.

	For the Year Ended December 31	
	2022	2021
Profit before tax	\$ 123,309	\$ 94,840

The sensitivity rate used when reporting foreign currency risk internally to key management personnel and representing management's assessment of the reasonably possible change in foreign exchange rates is 1%. The sensitivity analysis included only outstanding foreign currency denominated monetary items and adjusts their translation at the end of the reporting period for a 1% change in foreign currency rates. Items of sensitivity analysis included outstanding deposits, receivables and payables.

b) Interest rate risk

The carrying amounts of the Group's financial assets and financial liabilities with exposure to interest rates at the end of the reporting year are as follows:

	December 31	
	2022	2021
Fair value interest rate risk		
Financial assets	\$ 11,101,382	\$ 8,232,828
Financial liabilities	640,679	639,346

Cash flow interest rate risk

Financial assets	\$ 1,590,070	\$ 1,184,246
Financial liabilities	894,538	452,357
		(Concluded)

Sensitivity analysis

The sensitivity analysis below was based on the Group's exposure to interest rates for non-derivative instruments at the end of the reporting year. For floating rate assets and liabilities, the analysis was prepared assuming the amount of the liability outstanding at the end of the reporting year was outstanding for the whole year. A 1% basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 1% higher/lower and all other variables were held constant, the Group's pre-tax profit for the years ended December 31, 2022 and 2021 would have been higher/lower by \$6,955 thousand and by \$11,842 thousand, respectively, which was mainly a result of the changes in the floating interest rate bank deposits.

2) Credit risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group. As at the end of the reporting period, the Group's maximum exposure to credit risk which would cause a financial loss to the Group could be the carrying amount of the respective recognized financial assets as stated in the consolidated balance sheets.

The Group adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The Group uses other publicly available financial information and its own trading records to rate its major customers. The Group is continuously monitoring and spreading the aggregate transactions to each credit-qualified counterparties. Credit exposure is controlled by counterparty limits that are reviewed and approved by the Group annually.

3) Liquidity risk

The Group manages liquidity risk by monitoring and maintaining a level of cash and cash equivalents deemed adequate to finance the Group's operations and mitigate the effects of fluctuations in cash flows. In addition, management monitors the utilization of bank borrowings.

Because the Group's current assets or cash and cash equivalents are much more than current liabilities, the Group has no liquidity risk.

25. TRANSACTIONS WITH RELATED PARTIES

Compensation of key management personnel

	<u>For the Year Ended December 31</u>	
	2022	2021
Short-term benefits	\$ 29,521	\$ 22,489
Post-employment benefits	<u>129</u>	<u>124</u>
	<u>\$ 29,650</u>	<u>\$ 22,613</u>

The remuneration of directors and other key management personnel is determined by the remuneration committee based on the performance of individuals and market trends.

26. SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNIZED COMMITMENTS

In addition to those disclosed in Note 12, unrecognized commitments were as follows:

	December 31	
	2022	2021
a. Unused letters of credit for purchases of raw materials and machinery and equipment	\$ 97,435	\$ 124,568
b. Unrecognized commitments of acquisition of property, plant and equipment	271,572	647,604
c. Contracts for purchases of raw materials		
Total amount	23,324	97,597
Issued promissory notes	31,150	31,150

27. SIGNIFICANT ASSETS AND LIABILITIES DENOMINATED IN FOREIGN CURRENCIES

The Group's significant financial assets and liabilities denominated in foreign currencies aggregated by the foreign currencies other than functional currencies and the related exchange rates between foreign currencies and respective functional currencies were as follows:

	Foreign Currencies (In thousands)	Exchange Rate (NT\$)		Carrying Amount
<hr/> December 31, 2022				
Financial assets				
Monetary items				
USD	\$ 402,459	30.717	(USD:NTD)	\$12,362,333
Financial liabilities				
Monetary items				
USD	1,022	30.717	(USD:NTD)	31,410
<hr/> December 31, 2021				
Financial assets				
Monetary items				
USD	\$ 343,986	27.678	(USD:NTD)	\$ 9,520,839
Financial liabilities				
Monetary items				
USD	1,332	27.678	(USD:NTD)	36,860

The Group is mainly exposed to US dollar. Net foreign exchange gains (losses) were \$1,103,179 thousand and (\$178,697) thousand for the years ended December 31, 2022 and 2021, respectively.

28. ADDITIONAL DISCLOSURES

a. Information about significant transactions and investees

- 1) Financing provided to others: None.
- 2) Endorsement and guarantees provided: None.
- 3) Marketable securities held (excluding investment in subsidiaries): None.
- 4) Marketable securities acquired or disposed at cost of or prices of at least NT\$300 million or 20% of the paid-in capital: None.
- 5) Acquisition of individual real estate at cost of at least NT\$300 million or 20% of the paid-in capital: None.
- 6) Disposal of individual real estate at prices of at least NT\$300 million or 20% of the paid-in capital: None.
- 7) Total purchases from or sales to related parties amounting to at least NT\$100 million or 20% of the paid-in capital: Table 1.
- 8) Receivables from related parties amounting to at least NT\$100 million or 20% of the paid-in capital: Table 2.
- 9) Trading in derivative instruments: None.
- 10) Inter-company business relationship and material transactions and its amount: Table 3.

b. Information on investees: Table 4.

c. Information on investments in mainland China

Information on any investee company in mainland China, showing the name, principal business activities, paid-in capital, method of investment, inward and outward remittance of funds, ownership percentage, net income of investees, investment income or loss, carrying amount of the investment at the end of the year, repatriations of investment income, and limit on the amount of investment in mainland China: Table 5.

Any of the following significant transactions with investee companies in mainland China, either directly or indirectly through a third area, and their prices, payment terms, and unrealized gains or losses:

- 1) The amount and percentage of purchases and the balance and percentage of the related payables at the end of the year:

Name	Purchases	Accounts Payables
King Slide Technology (China). Co., Ltd.	<u>\$ 56,475</u>	<u>\$ 6,878</u>

- 2) The amount and percentage of sales and the balance and percentage of the related receivables at the end of the year:

Name	Sales of Goods	Accounts Receivable
King Slide Technology (China). Co., Ltd.	<u>\$ 52,984</u>	<u>\$ 4,449</u>

- 3) The amount of property transactions and the amount of gains or losses generated: None.
 - 4) The balance of negotiable instrument endorsements or guarantees or pledges of collateral at the end of the year and purposes: None.
 - 5) The highest balance, the ending balance, the interest rate range, and total current year interest with respect to financing of funds: None.
 - 6) Other transactions that have a material effect on the profit or loss for the year or on the financial position, such as the rendering or receiving of services: None.
- d. Information of major shareholders: list all shareholders with ownership of 5% or greater showing the name of the shareholder, the number of shares owned, and percentage of ownership of each shareholder: Table 6.

29. SEGMENT INFORMATION

Information is provided to the Group's chief operating decision maker for the purposes of resource allocation and assessment of segment performance, focusing on types of goods or services that are delivered or provided.

The Group's reporting segments are as follows:

- a. King Slide Works Co., Ltd. mainly manufactures, processes and sells the rail kits for computer and network communication equipment, furniture accessories, slides and molds.
- b. King Slide Technology Co., Ltd. mainly R&D, designs and sells the rail kits for servers and network communication equipment.

The following is an analysis of the Group's revenue and results from operations by the reporting segments:

	The Company	King Slide Technology Co., Ltd.	Others	Adjustment and Elimination	Consolidated Amount
<u>For the year ended December 31, 2022</u>					
Revenue from external customers	\$ 1,779,461	\$ 5,935,147	\$ 84,023	\$ -	\$ 7,798,631
Inter-segment revenue	<u>563,191</u>	<u>152,897</u>	<u>56,475</u>	<u>(772,563)</u>	<u>-</u>
Segment revenue	<u>\$ 2,342,652</u>	<u>\$ 6,088,044</u>	<u>\$ 140,498</u>	<u>\$ (772,563)</u>	<u>\$ 7,798,631</u>
Segment profit	<u>\$ 413,869</u>	<u>\$ 3,317,440</u>	<u>\$ 6,495</u>	<u>\$ 14,868</u>	<u>\$ 3,752,672</u>
Interest income					168,943
Other gains and losses					1,161,814
Financial cost					<u>(10,141)</u>
Consolidated profit before income tax					5,073,288
Income tax expense					<u>1,017,143</u>
Consolidated net profit					<u>\$ 4,056,145</u>
<u>December 31, 2022</u>					
Total segment assets	<u>\$ 4,436,355</u>	<u>\$ 14,818,312</u>	<u>\$ 209,366</u>	<u>\$ (227,820)</u>	<u>\$ 19,236,213</u>
Total segment liabilities	<u>\$ 777,034</u>	<u>\$ 3,029,896</u>	<u>\$ 14,488</u>	<u>\$ (223,542)</u>	<u>\$ 3,597,876</u>
<u>For the year ended December 31, 2021</u>					
Revenue from external customers	\$ 1,950,855	\$ 4,304,760	\$ 86,374	\$ -	\$ 6,341,989
Inter-segment revenue	<u>524,810</u>	<u>174,128</u>	<u>60,348</u>	<u>(759,286)</u>	<u>-</u>

	The Company	King Slide Technology Co., Ltd.	Others	Adjustment and Elimination	Consolidated Amount
Segment revenue	\$ 2,475,665	\$ 4,478,888	\$ 146,722	\$ (759,286)	\$ 6,341,989
Segment profit	\$ 448,133	\$ 2,256,677	\$ 7,140	\$ 7,732	\$ 2,719,682
Interest income					20,066
Other gains and losses					(134,173)
Financial cost					(9,793)
Consolidated profit before income tax					2,595,782
Income tax expense					523,262
Consolidated net profit					\$ 2,072,520
<hr/> December 31, 2021 <hr/>					
Total segment assets	\$ 4,332,894	\$ 11,190,174	\$ 202,543	\$ (292,743)	\$ 15,432,868
Total segment liabilities	\$ 747,608	\$ 2,339,406	\$ 31,832	\$ (289,265)	\$ 2,829,581

Segment profit represented the profit before tax earned by each segment without profit from operations and income tax expense. This was the measure reported to the chief operating decision maker for the purpose of resource allocation and assessment of segment performance.

- a. Revenue from major products refer to Note 19(b)
- b. Other segment information - depreciation and amortization

	For the Year Ended December 31	
	2022	2021
The Company	\$ 40,088	\$ 39,522
King Slide Technology Co., Ltd.	181,069	171,969
Others	\$ 3,292	\$ 2,922
	<u>\$ 224,449</u>	<u>\$ 214,413</u>
		(Concluded)

- c. Geographical information

The Group's revenue from external customers by location of customers are detailed below:

	For the Year Ended December 31	
	2022	2021
Taiwan	\$ 1,627,081	\$ 1,435,353
USA	2,661,758	1,901,360
China	1,577,619	1,357,471
Others	<u>1,923,173</u>	<u>1,647,805</u>
	<u>\$ 7,798,631</u>	<u>\$ 6,341,989</u>

The Group's noncurrent assets by location of assets are detailed below:

	December 31	
	2022	2021
Taiwan	\$ 3,586,510	\$ 3,037,248

Others	<u>97,445</u>	<u>98,306</u>
	<u>\$ 3,683,955</u>	<u>\$ 3,135,554</u>

Noncurrent assets exclude deferred income tax assets and refundable deposits.

d. Information about major customers

The customer from which sales revenue accounted for over 10% of the Group's consolidated operating revenue is shown below:

	For the Year Ended December 31			
	2022		2021	
	Amount	%	Amount	%
Group A	<u>\$ 1,236,884</u>	<u>16</u>	<u>\$ 1,089,571</u>	<u>17</u>

Opinion

We have audited the accompanying financial statements of King Slide Works Co., Ltd. (the "Company"), which comprise the balance sheets as of December 31, 2022 and 2021, and the statements of comprehensive income, changes in equity and cash flows for the years then ended, and the notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and the Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the year ended December 31, 2022. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

The key audit matter identified in the Company's financial statements for the year ended December 31, 2022 is as follows:

Occurrence of revenue from specific customers

The operating revenue of the Company for the year ended December 31, 2022 was NT\$2,342,652 thousand. In addition, based on the Standards on Auditing of the Republic of China, revenue recognition is presumed to have a significant risk. Therefore, we considered the occurrence of revenue from specific customers as a key audit matter.

In addition to obtaining an understanding of the internal controls relevant to the recognition of operating revenue, we performed the following audit procedures:

1. We understood and tested the operating effectiveness of the internal controls relevant to the revenue of the Company.
2. We selected samples and verified the occurrence of recorded revenue against supporting documents, including purchase orders, shipping and collection documents, and we checked and confirmed that the payer was the same as the buyer.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and for such internal control as management determines is necessary to enable the preparation of the Company's financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the audit committee, are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient and appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the Corporation audit. We remain solely responsible for our audit

opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements for the year ended December 31, 2022 and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audits resulting in this independent auditors' report are Chen-Li Chen and Chia-Ling Chiang.

KING SLIDE WORKS CO., LTD.

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2022 AND 2021 (In Thousands of New Taiwan Dollars, Unless Stated Otherwise)

1. GENERAL INFORMATION

King Slide Works Co., Ltd. (the “Company”) was incorporated in September 1986 under the laws of the Republic of China (ROC). The Company mainly manufactures, processes and sells the following products:

- Rail kits for cloud computing servers and data devices.
- Furniture accessories, slides and molds.

The Company’s shares have been listed on the Taiwan Stock Exchange.

The financial statements are presented in the Company’s functional currency, the New Taiwan dollar.

2. APPROVAL OF FINANCIAL STATEMENTS

The financial statements were approved by the board of directors on February 24, 2023.

3. APPLICATION OF NEW, AMENDED AND REVISED STANDARDS AND INTERPRETATIONS

- a. Initial application of the International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), IFRIC Interpretations (IFRIC), and SIC Interpretations (SIC) (collectively, the “IFRSs”) endorsed and issued into effect by the Financial Supervisory Commission (FSC).

The initial application of the IFRSs endorsed and issued into effect by the FSC did not have a material impact on the Company’s accounting policies:

- b. The IFRSs endorsed by the FSC for application starting from 2023

New, Amended and Revised Standards and Interpretations	Effective Date Announced by IASB
Amendments to IAS 1 “Disclosure of Accounting Policies”	January 1, 2023 (Note 1)
Amendments to IAS 8 “Definition of Accounting Estimates”	January 1, 2023 (Note 2)
Amendments to IAS 12 “Deferred Tax related to Assets and Liabilities arising from a Single Transaction”	January 1, 2023 (Note 3)

Note 1: The amendments will be applied prospectively for annual reporting periods beginning on or after January 1, 2023.

Note 2: The amendments will be applicable to changes in accounting estimates and changes in accounting policies that occur on or after the beginning of the annual reporting period beginning on or after January 1, 2023.

Note 3: Except for deferred taxes that were recognized on January 1, 2022 for temporary differences associated with leases and decommissioning obligations, the amendments were applied prospectively to transactions that occur on or after January 1, 2022.

As of the date the financial statements were authorized for issue, the Company assessed that the application of standards and interpretations will not have a material impact on the Company's financial position and financial performance.

- c. The IFRSs in issue but not yet endorsed and issued into effect by the FSC

New, Amended and Revised Standards and Interpretations	Effective Date Announced by IASB (Note 1)
Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets between an Investor and its Associate or Joint Venture"	To be determined by IASB
Amendments to IFRS 16 "Leases Liability in a Sale and Leaseback"	January 1, 2024 (Note 2)
IFRS 17 "Insurance Contracts"	January 1, 2023
Amendments to IFRS 17	January 1, 2023
Amendments to IFRS 17 "Initial Application of IFRS 9 and IFRS 17 - Comparative Information"	January 1, 2023
Amendments to IAS 1 "Classification of Liabilities as Current or Non-current"	January 1, 2024
Amendments to IAS 1 "Non-current Liabilities with Covenants"	January 1, 2024

Note 1: Unless stated otherwise, the above IFRSs are effective for annual reporting periods beginning on or after their respective effective dates.

Note 2: A seller-lessee shall apply the Amendments to IFRS 16 retrospectively to sale and leaseback transactions entered into after the date of initial application of IFRS 16.

As of the date the financial statements were authorized for issue, the Company is continuously assessing the possible impact that the application of other standards and interpretations will have on the Company's financial position and financial performance and will disclose the relevant impact when the assessment is completed.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- a. Statement of compliance

The financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

- b. Basis of preparation

The financial statements have been prepared on the historical cost basis except for net defined benefit liabilities which are measured at the present value of the defined benefit obligation less the fair value of plan assets.

When preparing these parent company only financial statements, the Company used the equity method to account for its investment in subsidiaries. In order for the amount of net profit for the year, other comprehensive income for the year and total equity in the parent company only financial statements to be the same with the amounts attributable to the owner of the Company in its consolidated financial statements, adjustments arising from the differences in accounting treatments between the parent company only basis and the consolidated basis were made to "investments accounted for using the equity method", "share of profit or loss of subsidiaries", "share of other comprehensive loss of subsidiaries accounted for using the equity method" in the parent company only financial statements.

- c. Classification of current and non-current assets and liabilities

Current assets include:

- 1) Assets held primarily for the purpose of trading;
- 2) Assets expected to be realized within 12 months after the reporting period; and
- 3) Cash and cash equivalents unless the asset is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

Current liabilities include:

- 1) Liabilities held primarily for the purpose of trading;
- 2) Liabilities due to be settled within 12 months after the reporting period; and
- 3) Liabilities for which the Company does not have an unconditional right to defer settlement for at least 12 months after the reporting period.

Assets and liabilities that are not classified as current are classified as non-current.

d. Foreign currencies

In preparing the financial statements, transactions in currencies other than the Company's functional currency (i.e., foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions.

At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Exchange differences on monetary items arising from settlement or translation are recognized in profit or loss in the year in which they arise.

Non-monetary items that are measured at historical cost in a foreign currency are translated using the exchange rate at the date of the transaction and not retranslated subsequently.

For the purpose of presenting the financial statements, the functional currencies of the Company's foreign operations are translated into the presentation currency, the New Taiwan dollar, as follows: Assets and liabilities are translated at the exchange rates prevailing at the end of the reporting year; and income and expense items are translated at the average exchange rates for the year. The resulting currency translation differences are recognized in other comprehensive income.

e. Inventories

Inventories are stated at the lower of cost or net realizable value. Inventory write-downs are made by item. The net realizable value is the estimated selling price of inventories less all estimated costs of completion and costs necessary to make the sale. Inventories are recorded at the weighted-average cost.

f. Investments in subsidiaries

Investments in subsidiaries are accounted for using the equity method.

Subsidiaries are the entities controlled by the Company.

Under the equity method, an investment in a subsidiary is initially recognized at cost and adjusted thereafter to recognize the Company's share of profit or loss, other comprehensive income of the subsidiary, and attributable distribution received. The Company also recognized its share in the changes in equity of subsidiaries.

Profit or loss resulting from downstream transactions is eliminated in full in the financial statements. Profit and loss resulting from upstream transactions and transactions between subsidiaries is recognized in the financial statements only to the extent of interests in the subsidiaries that are not related to the Company.

g. Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment loss.

Freehold land is not depreciated.

Property, plant and equipment in the course of construction are measured at cost less any recognized impairment loss. Cost includes professional fees and borrowing costs eligible for capitalization. Such assets are depreciated and classified to the appropriate categories of property, plant and equipment when completed and ready for their intended use.

Depreciation of property, plant and equipment is recognized using the straight-line method. Each significant part is depreciated separately. The estimated useful lives, residual values and depreciation methods are reviewed at the end of each reporting year, with the effects of any changes in the estimates accounted for on a prospective basis.

On derecognition of an item of property, plant and equipment, the difference between the sales proceeds and the carrying amount of the asset is recognized in profit or loss.

h. Intangible assets

Intangible assets with finite useful lives that are acquired separately are initially measured at cost and subsequently measured at cost less accumulated amortization and accumulated impairment loss. Amortization is recognized on a straight-line basis. The estimated useful lives, residual values, and amortization methods are reviewed at the end of each reporting period, with the effect of any changes in the estimates accounted for on a prospective basis.

On derecognition of an intangible asset, the difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss.

i. Impairment of property, plant and equipment and intangible assets

At the end of each reporting period, the Company reviews the carrying amounts of its property, plant and equipment and intangible assets, to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. Corporate assets are allocated to the individual cash-generating units on a reasonable and consistent basis of allocation.

The recoverable amount is the higher of fair value less costs to sell and value in use. If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount, with the resulting impairment loss recognized in profit or loss.

When an impairment loss is subsequently reversed, the carrying amount of the asset or cash-generating unit is increased to the revised estimate of its recoverable amount, but only to the extent of the carrying amount that would have been determined had no impairment loss been recognized for the asset or cash-generating unit in prior years. A reversal of an impairment loss is recognized in profit or loss.

j. Financial instruments

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issuance of financial assets and financial liabilities (other than financial assets and financial liabilities at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

1) Financial assets

All regular way purchase or sales of financial assets are recognized and derecognized on a trade date basis.

a) Measurement categories

Financial assets are classified into financial assets at amortized cost.

Financial assets that meet the following conditions are subsequently measured at amortized cost:

- i The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- ii The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Subsequent to initial recognition, financial assets at amortized cost, (including cash and cash equivalents, notes receivable, accounts receivable, other receivables and refundable deposits) are measured at amortized cost, which equals the gross carrying amount determined using the effective interest method less any impairment loss. Exchange differences are recognized in profit or loss.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset.

Cash equivalents include time deposits with original maturities within 3 months from the date of acquisition, which are highly liquid, readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value. These cash equivalents are held for the purpose of meeting short-term cash commitments.

b) Impairment of financial assets

The Company recognizes a loss allowance for expected credit losses on financial assets at amortized cost (including accounts receivable).

The Company always recognizes lifetime expected credit losses (ECLs) for accounts receivable. For all other financial instruments, the Company recognizes lifetime ECLs when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month ECLs.

Expected credit losses reflect the weighted average of credit losses with the respective risks of default occurring as the weights. Lifetime ECLs represent the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast,

12-month ECLs represent the portion of lifetime ECLs that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

For internal credit risk management purposes, the Company determines that the following situations indicate that a financial asset is in default without taking into account any collateral held by the Company:

- i Internal or external information show that the debtor is unlikely to pay its creditors.
- ii When a financial asset is more than 120 days past due unless the Company has reasonable and corroborative information to support a more lagged default criterion.

The impairment loss of all financial assets is recognized in profit or loss by a reduction in their carrying amounts through a loss allowance account.

c) Derecognition of financial assets

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset at amortized cost in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognized in profit or loss.

2) Financial liabilities

a) Subsequent measurement

The financial liabilities held by the Company are measured at amortized cost using the effective interest method.

b) Derecognition of financial liabilities

The difference between the carrying amount of the financial liability derecognized and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

k. Revenue recognition

The Company identifies contracts with customers, allocates the transaction price to the performance obligations and recognizes revenue when performance obligations are satisfied.

Revenue from the sale of goods comes from sales of rail kits. Sales of rail kits are recognized as revenue when the goods are delivered to the customer's specific location because it is the time when the customer has full discretion over the manner of distribution and price to sell the goods, has the primary responsibility for sales to future customers and bears the risks of obsolescence. Accounts receivable are recognized concurrently.

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

l. Leases

At the inception of a contract, the Company assesses whether the contract is, or contains, a lease.

When the Company is as a lessee, the Company applies the recognition exemption for the short-term leases and low-value asset leases, and the lease payments are recognized as expenses on a straight-line basis over the lease terms.

m. Employee benefits

1) Short-term employee benefits

Liabilities recognized in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related services.

2) Retirement benefits

Payments to defined contribution retirement benefit plans are recognized as expenses when employees have rendered services entitling them to the contributions.

Defined benefit costs (including service cost, net interest and remeasurement) under defined benefit retirement benefit plans are determined using the projected unit credit method. Service cost (including current service cost) and net interest on the net defined benefit liabilities are recognized as employee benefits expense in the period in which they occur. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling and the return on plan assets (excluding interest), is recognized in other comprehensive income in the period in which it occurs. Remeasurement recognized in other comprehensive income is reflected immediately in other equity and will not be reclassified to profit or loss.

Net defined benefit liabilities represent the actual deficit in the Company's defined benefit plans.

n. Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

1) Current tax

Income tax payable is based on taxable profit for the year determined according to the applicable tax laws of each tax jurisdiction.

According to the Income Tax Act of the ROC, an additional tax on unappropriated earnings is provided in the year the shareholders approve to retain the earnings.

Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax provision.

2) Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered. A previously unrecognized deferred tax asset is also reviewed at the end of each reporting period and recognized to the extent that it has become probable that future

taxable profit will allow the deferred tax asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liabilities are settled or the assets are realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

3) Current and deferred taxes for the year

Current and deferred taxes are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred taxes are also recognized in other comprehensive income or directly in equity, respectively.

5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Company's accounting policies, management is required to make judgments, estimations, and assumptions on the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered relevant. Actual results may differ from these estimates.

The Company considers the possible impact when making its critical accounting estimates on cash flow projections, growth rate, discount rate, profitability, etc. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimates are revised if the revisions affect only that year or in the year of the revisions and future years if the revisions affect both current and future years.

Key sources of estimation uncertainty - Estimated impairment of financial assets

The provision for impairment of accounts receivable is based on assumptions on probability of default and loss given default. The Company uses judgment in making these assumptions and in selecting the inputs to the impairment calculation, based on the Company's historical experience, existing market conditions as well as forward looking estimates. For details of the key assumptions and inputs used, refer to Note 8.

6. CASH AND CASH EQUIVALENTS

	December 31	
	2022	2021
Cash on hand	\$ 91	\$ 67
Checking accounts and demand deposits	396,611	374,660
Cash equivalents (investments with original maturities of 3 months or less)		
Commercial papers	458,714	389,475
Time deposits	<u>1,944,441</u>	<u>1,411,082</u>
	<u>\$ 2,799,857</u>	<u>\$ 2,175,284</u>

The market interest rates of cash equivalents at the end of the reporting year were as follows:

	December 31	
	2022	2021

Commercial papers (%)	1.00	0.24
Time deposits (%)	1.00-4.86	0.16-2.26

The Company dealt with many creditworthy financial institutions to disperse credit risk; therefore, there was no expected credit loss.

7. FINANCIAL ASSETS AT AMORTIZED COST

	December 31	
	2022	2021
Time deposits with original maturities of more than 3 months	<u>\$ 307,170</u>	<u>\$ 636,594</u>

The annual interest rate of financial assets measured by amortized cost on the balance sheet date is as follows:

	December 31	
	2022	2021
Annual rate (%)	3.95-4.00	0.17

The counterparties of the financial assets at amortized cost are mainly bank with good credit ratings. There is no significant doubt about the performance of the contract, and there is no significant credit risk in the assessment.

8. NOTES, ACCOUNTS AND OVERDUE RECEIVABLES, NET

	December 31	
	2022	2021
<hr/> Notes receivable - non-related parties <hr/>		
At amortized cost		
Operating	<u>\$ 50,310</u>	<u>\$ 56,177</u>
<hr/> Notes receivable - related parties (Note 23) <hr/>		
At amortized cost		
Operating	\$ 118,154	\$ 138,866
Non-operating	<u>8,618</u>	<u>1,284</u>
	<u>\$ 126,772</u>	<u>\$ 140,150</u>
<hr/> Accounts receivable - non-related parties <hr/>		
At amortized cost		
Gross carrying amount	\$ 263,563	\$ 387,225
Less: Allowance for impairment loss	<u>1,994</u>	<u>2,452</u>
	<u>\$ 261,569</u>	<u>\$ 384,773</u>

Accounts receivable - related parties (Note 23)

At amortized cost		
Operating	\$ 45,311	\$ 76,606
 <u>Overdue receivables</u>		
Non-accrual loan	\$ 1,213	\$ 1,213
Less: Allowance for impairment loss	<u>1,213</u>	<u>1,213</u>
	<u>\$ -</u>	<u>\$ -</u> (Concluded)

The average credit period of sales of goods was 30-150 days. No interest was charged on accounts receivable. In order to minimize credit risk, the management of the Company has delegated a team responsible for determining credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Company reviews the recoverable amount of each individual trade debt at the end of the reporting period to ensure that adequate allowance is made for possible irrecoverable amounts. In this regard, the management believes the Company's credit risk was significantly reduced.

The Company makes allowance for expected credit loss at an amount equal to lifetime expected credit loss for all accounts receivable. The expected credit losses on accounts receivable are estimated using a provision matrix prepared by reference to the past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of economic conditions at the reporting date. As the Company's historical credit loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished according to the Company's different customer base.

There were no notes receivable that were past due or impaired at the end of the reporting year.

The following table details the loss allowance of accounts receivable based on the Company's provision matrix.

a. December 31, 2022

	Not Past Due	Past Due 1 to 60 Days	Past Due 61 to 90 Days	Past Due 91 to 120 Days	Past Due Over 120 Days	Total
Expected credit loss rate (%)	0-0.1	1	10	50	100	-
Gross carrying amount	\$ 262,362	\$ 42,668	\$ 2,776	\$ -	\$ 1,068	\$ 308,874
Loss allowance (Lifetime ECL)	<u>(221)</u>	<u>(427)</u>	<u>(278)</u>	<u>-</u>	<u>(1,068)</u>	<u>(1,994)</u>
Amortized cost	<u>\$ 262,141</u>	<u>\$ 42,241</u>	<u>\$ 2,498</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 306,880</u>

b. December 31, 2021

	Not Past Due	Past Due 1 to 60 Days	Past Due 61 to 90 Days	Past Due 91 to 120 Days	Past Due Over 120 Days	Total
Expected credit loss rate (%)	0-0.1	1	10	50	100	-
Gross carrying amount	\$ 391,284	\$ 68,818	\$ 1,085	\$ 2,624	\$ 20	\$ 463,831
Loss allowance (Lifetime ECL)	<u>(324)</u>	<u>(688)</u>	<u>(108)</u>	<u>(1,312)</u>	<u>(20)</u>	<u>(2,452)</u>
Amortized cost	<u>\$ 390,960</u>	<u>\$ 68,130</u>	<u>\$ 977</u>	<u>\$ 1,312</u>	<u>\$ -</u>	<u>\$ 461,379</u>

The movements of the loss allowance of accounts receivable were as follows:

	Accounts Receivable	Overdue Receivable	Total
Balance at January 1, 2022	\$ 2,452	\$ 1,213	\$ 3,665
Impairment losses	<u>(458)</u>	<u>-</u>	<u>(458)</u>
Balance at December 31, 2022	<u>\$ 1,994</u>	<u>\$ 1,213</u>	<u>\$ 3,207</u>
Balance at January 1, 2021	\$ 530	\$ 1,213	\$ 1,743
Impairment losses	<u>1,922</u>	<u>-</u>	<u>1,922</u>
Balance at December 31, 2021	<u>\$ 2,452</u>	<u>\$ 1,213</u>	<u>\$ 3,665</u>

9. INVENTORIES

	December 31	
	2022	2021
Finished goods	\$ 67,908	\$ 60,756
Work-in-process	42,028	51,900
Raw materials	148,717	213,455
Supplies	<u>4,372</u>	<u>3,983</u>
	<u>\$ 263,025</u>	<u>\$ 330,094</u>

The cost of inventories recognized as costs of goods sold were \$1,584,010 thousand and \$1,723,865 thousand for the years ended December 31, 2022 and 2021, respectively, which included the following items:

	For the Year Ended December 31	
	2022	2021
Write-downs (reverses)	\$ 14,327	\$ 3,666
Income from sale of scraps	<u>(31,427)</u>	<u>(35,797)</u>
	<u>\$ (17,100)</u>	<u>\$ (32,131)</u>

10. INVESTMENTS ACCOUNTED FOR USING THE EQUITY METHOD

	December 31	
	2022	2021
Unlisted company		
King Slide Technology Co., Ltd.	\$ 11,788,416	\$ 8,850,768
King Slide (Samoa) Co., Ltd.	137,175	128,197
King Slide USA, Inc.	<u>53,425</u>	<u>39,036</u>
	<u>\$ 11,979,016</u>	<u>\$ 9,018,001</u>

The investments in subsidiaries accounted for using the equity method and the share of profit or loss and other comprehensive income of those investments for the years ended December 31, 2022 and 2021 were recognized based on the subsidiaries' financial statements which have been audited. Refer to Table 3 on

“Information on Investees”.

11. PROPERTY, PLANT AND EQUIPMENT

a. Movements of cost and accumulated depreciation are as follows:

For the year ended December 31, 2022

	Land	Buildings	Machinery and Equipment	Transportation Equipment	Office Equipment	Others	Property under Construction	Total
<u>Cost</u>								
Balance at January 1, 2022	\$ 226,670	\$ 203,814	\$ 801,201	\$ 6,171	\$ 39,287	\$ 97,351	\$ 78,282	\$ 1,452,776
Additions	-	2,741	36,726	104	7,883	5,712	(13,643)	39,523
Disposals	-	-	(9,797)	-	(198)	(535)	-	(10,530)
Balance at December 31, 2022	<u>\$ 226,670</u>	<u>\$ 206,555</u>	<u>\$ 828,130</u>	<u>\$ 6,275</u>	<u>\$ 46,972</u>	<u>\$ 102,528</u>	<u>\$ 64,639</u>	<u>\$ 1,481,769</u>
<u>Accumulated depreciation</u>								
Balance at January 1, 2022	\$ -	\$ (151,376)	\$ (733,648)	\$ (3,965)	\$ (35,263)	\$ (78,262)	\$ -	\$ (1,002,514)
Depreciation expense	-	(6,258)	(24,849)	(778)	(2,085)	(5,359)	-	(39,329)
Disposals	-	-	9,544	-	198	534	-	10,276
Balance at December 31, 2022	<u>\$ -</u>	<u>\$ (157,634)</u>	<u>\$ (748,953)</u>	<u>\$ (4,743)</u>	<u>\$ (37,150)</u>	<u>\$ (83,087)</u>	<u>\$ -</u>	<u>\$ (1,031,567)</u>
Carrying amounts at December 31, 2022	<u>\$ 226,670</u>	<u>\$ 48,921</u>	<u>\$ 79,177</u>	<u>\$ 1,532</u>	<u>\$ 9,822</u>	<u>\$ 19,441</u>	<u>\$ 64,639</u>	<u>\$ 450,202</u>

For the year ended December 31, 2021

	Land	Buildings	Machinery and Equipment	Transportation Equipment	Office Equipment	Others	Property under Construction	Total
<u>Cost</u>								
Balance at January 1, 2021	\$ 226,670	\$ 200,728	\$ 781,122	\$ 6,171	\$ 38,060	\$ 90,916	\$ 54,822	\$ 1,398,489
Additions	-	3,086	30,448	-	1,720	7,322	23,460	66,036
Disposals	-	-	(10,369)	-	(493)	(887)	-	(11,749)
Balance at December 31, 2021	<u>\$ 226,670</u>	<u>\$ 203,814</u>	<u>\$ 801,201</u>	<u>\$ 6,171</u>	<u>\$ 39,287</u>	<u>\$ 97,351</u>	<u>\$ 78,282</u>	<u>\$ 1,452,776</u>
<u>Accumulated depreciation</u>								
Balance at January 1, 2021	\$ -	\$ (145,531)	\$ (718,360)	\$ (3,058)	\$ (34,130)	\$ (74,843)	\$ -	\$ (975,922)
Depreciation expense	-	(5,845)	(25,417)	(907)	(1,626)	(4,306)	-	(38,101)
Disposals	-	-	10,129	-	493	887	-	11,509
Balance at December 31, 2021	<u>\$ -</u>	<u>\$ (151,376)</u>	<u>\$ (733,648)</u>	<u>\$ (3,965)</u>	<u>\$ (35,263)</u>	<u>\$ (78,262)</u>	<u>\$ -</u>	<u>\$ (1,002,514)</u>
Carrying amounts at December 31, 2021	<u>\$ 226,670</u>	<u>\$ 52,438</u>	<u>\$ 67,553</u>	<u>\$ 2,206</u>	<u>\$ 4,024</u>	<u>\$ 19,089</u>	<u>\$ 78,282</u>	<u>\$ 450,262</u>

b. Estimated useful lives

Property, plant and equipment are depreciated on a straight-line basis over the estimated useful lives as follows:

Buildings	
Plant	30 years
Office	50 years
Others	5-35 years
Machinery and equipment	
Molding	8 years
Electroplating	8 years
Others	2-11 years
Transportation equipment	5 years
Office equipment	2-15 years
Others	
Crane	10 years
ASRS	10 years
Others	2-20 years

- c. Investing activities affecting both cash and non-cash items

	For the Year Ended December 31	
	2022	2021
Acquisition of property, plant and equipment	\$ 39,523	\$ 66,036
Increase in prepayments for equipment	76,000	9,500
Increase (decrease) in payables for purchased equipment	<u>16,839</u>	<u>(10,905)</u>
Cash paid	<u>\$ 132,362</u>	<u>\$ 64,631</u>

12. NOTES PAYABLE AND ACCOUNTS PAYABLE

	December 31	
	2022	2021
<hr/> Notes payable - non-related parties <hr/>		
Operating	\$ 75,716	\$ 132,924
Non-operating	<u>2,979</u>	<u>13,125</u>
	<u>\$ 78,695</u>	<u>\$ 146,049</u>
<hr/> Notes payable - related parties (Note 23) <hr/>		
Operating	<u>\$ 29,919</u>	<u>\$ 42,588</u>
<hr/> Accounts payable - non-related parties <hr/>		
Operating	<u>\$ 19,083</u>	<u>\$ 37,844</u>
<hr/> Accounts payable - related parties (Note 23) <hr/>		
Operating	<u>\$ 18,356</u>	<u>\$ 24,551</u>

- a. Notes payable

The Company's notes payable from non-operating activities were used for acquisition of property, plant and equipment.

- b. Accounts payable

The average credit period of purchasing materials and supplies was 30-90 days. The Company has a financial risk management policy to ensure that payables are paid within the pre-agreed credit terms.

13. OTHER PAYABLES

	December 31	
	2022	2021
Payables for compensation of employees and remuneration of directors and supervisors	\$ 264,637	\$ 139,838
Payables for salaries and bonuses	80,601	102,320

Others	<u>41,881</u>	<u>56,977</u>
	<u>\$ 387,119</u>	<u>\$ 299,135</u>

14. REFUND LIABILITY

The refund liability was estimated based on historical experience, management's judgments and other known reasons and recognized as a reduction of operating revenue in the year the related goods were sold. As of December 31, 2022 and 2021, the Company's estimated refund liabilities were \$5,726 thousand and \$3,411 thousand, respectively.

15. RETIREMENT BENEFIT PLANS

a. Defined contribution plans

The Company adopted a pension plan under the Labor Pension Act (LPA), which is a state-managed defined contribution plan. Under the LPA, an entity makes monthly contributions to employees' individual pension accounts at 6% of monthly salaries and wages.

b. Defined benefit plans

The defined benefit plan adopted by the Company in accordance with the Labor Standards Act is operated by the government of the ROC. Pension benefits are calculated on the basis of the length of service and average monthly salaries of the 6 months before retirement. The Company contributes amounts equal to 2.4% of total monthly salaries and wages to a pension fund administered by the pension fund monitoring committee. Pension contributions are deposited in the Bank of Taiwan in the committee's name. Before the end of each year, the Company assesses the balance in the pension fund. If the amount of the balance in the pension fund is inadequate to pay retirement benefits for employees who conform to retirement requirements in the next year, the Company is required to fund the difference in one appropriation that should be made before the end of March of the next year. The pension fund is managed by the Bureau of Labor Funds, Ministry of Labor (the "Bureau"); the Company has no right to influence the investment policy and strategy.

The amounts included in the balance sheets in respect of the Company's defined benefit plans were as follows:

	December 31	
	2022	2021
Present value of defined benefit obligation	\$ 86,034	\$ 95,630
Fair value of plan assets	<u>(66,294)</u>	<u>(56,026)</u>
Deficit	19,740	39,604
Including in other payables	<u>(3,723)</u>	<u>(5,732)</u>
Net defined benefit liabilities	<u>\$ 16,017</u>	<u>\$ 33,872</u>

Movements in net defined benefit liabilities were as follow:

	Present Value of the Defined Benefit Obligation	Fair Value of the Plan Assets	Net Defined Benefit Liabilities
Balance at January 1, 2021	<u>\$ 86,349</u>	<u>\$ (50,821)</u>	<u>\$ 35,528</u>

Service cost			
Current service cost	280	-	280
Net interest expense (income)	<u>432</u>	<u>(266)</u>	<u>166</u>
Recognized in profit or loss	<u>712</u>	<u>(266)</u>	<u>446</u>
Remeasurement			
Return on plan assets (excluding amounts included in net interest)	-	(633)	(633)
Actuarial loss - changes in demographic assumptions	2,075	-	2,075
Actuarial loss - experience adjustments	<u>7,274</u>	<u>-</u>	<u>7,274</u>
Recognized in other comprehensive less	<u>9,349</u>	<u>(633)</u>	<u>8,716</u>
Contributions from the employer	<u>-</u>	<u>(5,086)</u>	<u>(5,086)</u>
Benefits paid	<u>(780)</u>	<u>780</u>	<u>-</u>
Balance at December 31, 2021	<u>95,630</u>	<u>(56,026)</u>	<u>39,604</u>
Service cost			
Current service cost	272	-	272
Net interest expense (income)	<u>478</u>	<u>(298)</u>	<u>180</u>
Recognized in profit or loss	<u>750</u>	<u>(298)</u>	<u>452</u>
Remeasurement			
Return on plan assets (excluding amounts included in net interest)	-	(4,384)	(4,384)
Actuarial loss - changes in demographic assumptions	135	-	135
Actuarial gain - changes in financial assumptions	(4,077)	-	(4,077)
Actuarial gain - experience adjustments	<u>(4,813)</u>	<u>-</u>	<u>(4,813)</u>
Recognized in other comprehensive income	<u>(8,755)</u>	<u>(4,384)</u>	<u>(13,139)</u>
Contributions from the employer	<u>\$ -</u>	<u>\$ (7,177)</u>	<u>\$ (7,177)</u>
Benefits paid	<u>(1,591)</u>	<u>1,591</u>	<u>-</u>
Balance at December 31, 2022	<u>\$ 86,034</u>	<u>\$ (66,294)</u>	<u>\$ 19,740</u>
			(Concluded)

Through the defined benefit plans under the Labor Standards Act, the Company is exposed to the following risks:

1) Investment risk

The plan assets are invested in domestic and foreign equity and debt securities, bank deposits, etc. The investment is conducted at the discretion of the Bureau or under the mandated management. However, in accordance with relevant regulations, the return generated by plan assets shall not be below the interest rate for a 2-year time deposit with local banks.

2) Interest risk

A decrease in the government bond interest rate will increase the present value of the defined benefit obligation; however, this will be partially offset by an increase in the return on the plan's debt

investments.

3) Salary risk

The present value of the defined benefit obligation is calculated using the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the present value of the defined benefit obligation.

The actuarial valuations of the present value of the defined benefit obligation were carried out by qualified actuaries. The significant assumptions used for the purpose of the actuarial valuations were as follows:

	December 31	
	2022	2021
Discount rate (%)	1.50	0.50
Expected rate of salary increase (%)	2.50	2.00

If possible reasonable changes in each of the significant actuarial assumptions will occur and all other assumptions will remain constant, the present value of the defined benefit obligation would increase (decrease) as follows:

	December 31	
	2022	2021
Discount rate		
0.25% increase	\$ (1,885)	\$ (2,309)
0.25% decrease	\$ 1,948	\$ 2,392
Expected rate of salary increase		
0.25% increase	\$ 1,895	\$ 2,316
0.25% decrease	\$ (1,843)	\$ (2,247)
		(Concluded)

The sensitivity analysis presented above may not be representative of the actual changes in the present value of the defined benefit obligation as it is unlikely that the changes in assumptions will occur in isolation of one another as some of the assumptions may be correlated.

	December 31	
	2022	2021
Expected contributions to the plan for the next year	\$ 5,086	\$ 7,279
Average duration of the defined benefit obligation	8.9 years	9.7 years

16. EQUITY

a. Ordinary shares

	December 31	
	2022	2021
Number of shares authorized (in thousands)	<u>138,000</u>	<u>138,000</u>
Shares authorized	<u>\$ 1,380,000</u>	<u>\$ 1,380,000</u>

Number of shares issued and fully paid (in thousands)	<u>95,297</u>	<u>95,297</u>
Shares issued	<u>\$ 952,971</u>	<u>\$ 952,971</u>

Fully paid ordinary shares, which have a par value of \$10, carry one vote per share and carry a right to dividends.

b. Capital surplus

	December 31	
	2022	2021
Arising from issuance of ordinary shares	\$ 794,341	\$ 794,341
Arising from treasury share transactions	<u>2,350</u>	<u>2,350</u>
	<u>\$ 796,691</u>	<u>\$ 796,691</u>

The above-mentioned capital surplus may be used to offset a deficit; in addition, when the Company has no deficit, such capital surplus may be distributed as cash dividends or transferred to share capital (limited to a certain percentage of the Company's capital surplus and to once a year).

c. Retained earnings and dividend policy

Under the dividend policy as set forth in the Company's articles of incorporation, where the Company made a profit in a fiscal year, the profit shall be first utilized for paying taxes, offsetting losses of previous years, setting aside as legal reserve 10% of the remaining profit until the legal reserve equals to the Company's paid-in capital, setting aside or reversing a special reserve in accordance with the laws and regulations, and then any remaining profit together with any undistributed retained earnings shall be used by the Company's board of directors as the basis for proposing a distribution plan, which should be resolved in the shareholders' meeting for the distribution of dividends and bonus as to shareholders.

The Company's dividend policy is in line with the current and future development plans, environment, capital needs and domestic and international competition in order to promote shareholders' interests. Thus, the Company may retain some of its earnings according to the Company's operation, and the residual earnings may be distributed in cash or shares. However, cash dividends should be at least 10% of the total dividends distributed.

The legal reserve may be used to offset. If the Company has no deficit and the legal reserve has exceeded 25% of the Company's paid-in capital, the excess may be transferred to capital or distributed in cash.

Items referred to under Rule No. 1090150022 and in the directive titled "Questions and Answers for Special Reserves Appropriated Following Adoption of IFRSs" should be appropriated to or reversed from a special reserve by the Company.

The appropriations of earnings for 2021 and 2020 were approved in the shareholders' meeting on June 29, 2022 and July 30, 2021, respectively. The appropriations of earnings for 2021 and 2020 were as follows:

	Appropriation of Earnings		Dividends Per Share (NT\$)	
	2021	2020	2021	2020
Legal reserve	\$ 206,555	\$ 116,443		
Special reserve	83	1,549		
Cash dividends	<u>1,036,832</u>	<u>583,218</u>	<u>\$10.88</u>	<u>\$ 6.1</u>
	<u>\$ 1,243,270</u>	<u>\$ 701,210</u>		

The appropriation of earnings for 2022 had been proposed by the Company's board of directors on February 24, 2023. The appropriation and dividends per share were as follows:

	Appropriation of Earnings	Dividends Per Share (NT\$)
Legal reserve	\$ 406,666	
Special reserve	(3,081)	
Cash dividends	<u>1,905,941</u>	<u>\$ 20</u>
	<u>\$2,309,526</u>	

The appropriation of earnings for 2022 are subject to the resolution in the shareholders' meeting to be held on June 28, 2023.

d. Special reserve

On the first-time adoption of IFRSs, the Company appropriated \$6,221 thousand to the special reserve due to the increase in retained earnings from conversion to IFRSs. Additional special reserve should be appropriated for an amount equal to the difference between net debit balance and special reserve appropriated on the first-time adoption of IFRSs. Any special reserve appropriated may be reversed to the extent that the net debit balance reverses and is thereafter distributed.

17. REVENUE

	For the Year Ended December 31	
	2022	2021
Revenue from contracts with customers		
Revenue from sale of goods	\$ 2,323,546	\$ 2,461,868

Short-term employee benefits	<u>549,772</u>	<u>499,541</u>
	<u>\$ 562,382</u>	<u>\$ 512,411</u>
An analysis of employee benefits expense by function		
Operating costs	\$ 332,885	\$ 328,514
Operating expenses	<u>229,497</u>	<u>183,897</u>
	<u>\$ 562,382</u>	<u>\$ 512,411</u>

e. Compensation of employees and remuneration of directors and supervisors

The Company accrues compensation of employees and remuneration of directors and supervisors at rates of no less than 1% and no higher than 5%, respectively, of net profit before income tax, compensation of employees, and remuneration of directors and supervisors. The compensation of employees and remuneration of directors and supervisors for the years ended December 31, 2022 and 2021, which have been approved by the Company's board of directors on February 24, 2023 and February 25, 2022, respectively, were as follows:

	For the Year Ended December 31			
	2022		2021	
	Cash	%	Cash	%
Compensation of employees	\$ 172,788	3.9	\$ 85,849	3.8
Remuneration of directors and supervisors	6,000	0.1	6,500	0.3

If there is a change in the amounts after the annual financial statements are authorized for issue, the differences are recorded as a change in the accounting estimate.

There is no difference between the actual amounts of compensation of employees and remuneration of directors and supervisors paid and the amounts recognized in the financial statements for the years ended December 31, 2021 and 2020.

Information on the compensation of employees and remuneration of directors and supervisors resolved by the Company's board of directors is available at the Market Observation Post System website of the Taiwan Stock Exchange.

19. INCOME TAX

a. The major components of income tax expense recognized in profit or loss are as follows:

	For the Year Ended December 31	
	2022	2021
Current tax		
In respect of the current year	\$ 113,505	\$ 80,736

	For the Year Ended December 31	
	2022	2021
Income tax on unappropriated earnings	39,549	22,730
Adjustments for prior years	<u>6,768</u>	<u>(8,287)</u>
	<u>159,822</u>	<u>95,179</u>
Deferred tax		
In respect of the current year	<u>28,091</u>	<u>8,183</u>
	<u>\$ 187,913</u>	<u>\$ 103,362</u>

A reconciliation of accounting profit and income tax expense is as follows:

	For the Year Ended December 31	
	2022	2021
Profit before income tax	<u>\$ 4,244,058</u>	<u>\$ 2,175,882</u>
Income tax expense calculated at the statutory rate (20%)	\$ 848,811	\$ 435,176
Domestic investment income using equity method	(706,886)	(346,257)
Investment credits	(329)	-
Income tax on unappropriated earnings	39,549	22,730
Adjustments for prior years	<u>6,768</u>	<u>(8,287)</u>
	<u>\$ 187,913</u>	<u>\$ 103,362</u>

b. Income tax benefit recognized in other comprehensive income

	For the Year Ended December 31	
	2022	2021
Deferred tax		
In respect of the current year		
Remeasurement of defined benefit plans	\$ (2,628)	\$ 1,743
Translation of foreign operations	<u>(1,306)</u>	<u>21</u>
	<u>\$ (3,934)</u>	<u>\$ 1,764</u>

c. Current tax liabilities

	December 31	
	2022	2021
Current tax liabilities		
Income tax payable	<u>\$ 149,594</u>	<u>\$ 103,129</u>

d. Deferred tax assets and liabilities

The movements of deferred tax assets and liabilities are as follows:

For the year ended December 31, 2022

Balance, Beginning of	Recognized in Profit or Loss	Recognized in Other	Balance, End of Year
--------------------------	---------------------------------	------------------------	-------------------------

	Year		Comprehensive Income	
<u>Deferred Tax Assets</u>				
Temporary differences				
Share of profit using equity method	\$ 9,886	\$ (3,527)	\$ (1,306)	\$ 5,053
Unrealized exchange losses	16,684	(16,684)	-	-
Defined benefit liabilities	7,921	(1,345)	(2,628)	3,948
Others	<u>4,586</u>	<u>3,877</u>	<u>-</u>	<u>8,463</u>
	<u>\$ 39,077</u>	<u>\$ (17,679)</u>	<u>\$ (3,934)</u>	<u>\$ 17,464</u>
<u>Deferred Tax liabilities</u>				
Temporary differences				
Land value increment tax	\$ 47,090	\$ -	\$ -	\$ 47,090
Unrealized exchange gains	<u>-</u>	<u>10,412</u>	<u>-</u>	<u>10,412</u>
	<u>\$ 47,090</u>	<u>\$ 10,412</u>	<u>\$ -</u>	<u>\$ 57,502</u>

For the year ended December 31, 2021

	Balance, Beginning of Year	Recognized in Profit or Loss	Recognized in Other Comprehensive Income	Balance, End of Year
<u>Deferred Tax Assets</u>				
Temporary differences				
Share of profit using equity method	\$ 12,234	\$ (2,369)	\$ 21	\$ 9,886
Unrealized exchange losses	22,434	(5,750)	-	16,684
Defined benefit liabilities	7,106	(928)	1,743	7,921
Others	<u>3,722</u>	<u>864</u>	<u>-</u>	<u>4,586</u>
	<u>\$ 45,496</u>	<u>\$ (8,183)</u>	<u>\$ 1,764</u>	<u>\$ 39,077</u>
<u>Deferred Tax liabilities</u>				
Temporary differences				
Land value increment tax	\$ 47,090	\$ -	\$ -	\$ 47,090

e. Income tax assessments

The tax returns of the Company through 2020 have been assessed by the tax authority.

20. EARNINGS PER SHARE

The net profit and weighted average number of ordinary shares outstanding in the computation of earnings per share are as follows:

Net profit for the year

<u>For the Year Ended December 31</u>	
<u>2022</u>	<u>2021</u>

Net profit used in the computation of earnings per share		
Effect of potentially dilutive ordinary shares	\$ 4,056,145	\$ 2,072,520
Compensation of employees	<u>(48,864)</u>	<u>(15,063)</u>
Net profit used in the computation of diluted earnings per share	<u>\$ 4,007,281</u>	<u>\$ 2,057,457</u>

Weighted average number of ordinary shares outstanding

	For the Year Ended December 31	
	2022	2021
Weighted average number of ordinary shares used in the computation of basic earnings per share	95,297	95,297
Effect of diluted potential ordinary shares		
Employees' compensation	<u>481</u>	<u>189</u>
Weighted average number of ordinary shares used in the computation of diluted earnings per share	<u>95,778</u>	<u>95,486</u>

If the Company offered to settle compensation paid to employees in cash or shares, the Company assumed the entire amount of the compensation will be settled in shares and the resulting potential shares were included in the weighted average number of shares outstanding used in the computation of diluted earnings per share, as the effect is dilutive. Such dilutive effect of the potential shares is included in the computation of diluted earnings per share until the number of shares to be distributed to employees is resolved in the following year.

21. CAPITAL MANAGEMENT

The Company manages its capital to ensure that entities in the Company will be able to continue as going concerns while maximizing the return to shareholders through the optimization of the debt and equity balance. The Company's overall strategy remains unchanged from the last 2 years.

The Company is not subject to any externally imposed capital requirements.

22. FINANCIAL INSTRUMENTS

a. Fair value of financial instruments not measured at fair value

The Company management considers that the carrying amounts of financial assets and financial liabilities which are not measured at fair value approximate their fair values.

b. Categories of financial instruments

	December 31	
	2022	2021
<u>Financial assets</u>		
Measured at amortized cost (Note 1)	\$ 3,599,700	\$ 3,480,485
<u>Financial liabilities</u>		
Measured at amortized cost (Note 2)	533,257	550,205

Note 1: The balances include financial assets at amortized cost, which comprise cash and cash

equivalents, notes receivable (including related parties), accounts receivable (including related parties), other receivables (including related parties), and refundable deposits.

Note 2: The balances include financial liabilities at amortized cost, which comprise notes payable (including related parties), accounts payable (including related parties), other payables (including related parties) and guarantee deposits (included in other current liability).

c. Financial risk management objectives and policies

The Company's treasury function provides services to the business, coordinates access to financial markets, monitors and manages the financial risks relating to the operations of the Company through analyzing exposures to risks. These risks include market risk (including currency risk and interest rate risk), credit risk and liquidity risk.

The treasury function reports quarterly to the Company's management.

1) Market risk

The Company's activities exposed it primarily to the financial risks of changes in foreign currency exchange rates and interest rate risks.

a) Foreign currency risk

The Company has foreign currency sales and purchases, which exposes the Company to foreign currency risk.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities exposed to foreign currency risk at the end of the reporting year are set out in Note 25.

Sensitivity analysis

The Company was mainly exposed to the risk from the fluctuation of USD.

The following table details the Company's sensitivity to a 1% increase and decrease in the functional currency rate against the USD. A positive (negative) number below indicates an increase (decrease) in pre-tax profit associated with the functional currency.

	For the Year Ended December 31	
	2022	2021
Profit or loss	\$ 25,578	\$ 24,393

The sensitivity rate used when reporting foreign currency risk internally to key management personnel and representing management's assessment of the reasonably possible change in foreign exchange rates is 1%. The sensitivity analysis included only outstanding foreign currency denominated monetary items, and adjusts their translation at the end of the reporting period for a 1% change in foreign currency rates. Items of sensitivity analysis included outstanding deposits, receivables and payables.

b) Interest rate risk

The carrying amounts of the Company's financial assets and financial liabilities with exposure to interest rates at the end of the reporting year are as follows:

	December 31	
	2022	2021
Fair value interest rate risk		
Financial assets	\$ 2,710,325	\$ 2,437,151
Cash flow interest rate risk		
Financial assets	396,428	373,632

Sensitivity analysis

The sensitivity analysis below was based on the Company's exposure to interest rates for non-derivative instruments at the end of the reporting year. For floating rate assets and liabilities, the analysis was prepared assuming the amount of the liability outstanding at the end of the reporting year was outstanding for the whole year. 1% basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 1% higher/lower and all other variables were held constant, the Company's pre-tax profit for the years ended December 31, 2022 and 2021 would have been higher/lower by \$3,964 thousand and by \$3,736 thousand, respectively, which was mainly a result of the changes in the floating interest rate bank deposits.

2) Credit risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Company. As at the end of the reporting period, the Company's maximum exposure to credit risk which would cause a financial loss to the Company could be the carrying amount of the respective recognized financial assets as stated in the balance sheets.

The Company adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The Company uses other publicly available financial information and its own trading records to rate its major customers. The Company is continuously monitoring and spreading the aggregate transactions to each credit-qualified counterparties. Credit exposure is controlled by counterparty limits that are reviewed and approved by the Company annually.

3) Liquidity risk

The Company manages liquidity risk by monitoring and maintaining a level of cash and cash equivalents deemed adequate to finance the Company's operations and mitigate the effects of fluctuations in cash flows. In addition, management monitors the utilization of bank borrowings.

Because the Company's current assets or cash and cash equivalents are much more than current liabilities, the Company has no liquidity risk.

23. TRANSACTIONS WITH RELATED PARTIES

a. Related party name and category

Related Party Name	Related Party Category
King Slide Technology Co., Ltd. (KSTC)	Subsidiary
King Slide USA, Inc. (KSUSA)	Subsidiary
King Slide Technology (China) Co., Ltd. (KSCC)	Subsidiary

b. Sales of goods

Related Party Name	For the Year Ended December 31	
	2022	2021
KSTC	\$ 491,101	\$ 450,283
KSCC	<u>52,984</u>	<u>60,730</u>
	<u>\$ 544,085</u>	<u>\$ 511,013</u>

The sales of goods to KSTC were at cost. However, the sales of goods to KSCC, KSUSA and general customers were at cost plus gross profit. The term of collection was the same as those of unrelated parties with a 90-day term of collection.

c. Purchases of goods

Related Party Name	For the Year Ended December 31

Other receivables		
KSTC	<u>\$ 2,204</u>	<u>\$ 3,301</u>

The outstanding receivables from related parties were unsecured. For the years ended December 31, 2022 and 2021, no impairment loss was recognized for receivables from related parties.

e. Payables to related parties

Related Party Name	December 31	
	2022	2021
Notes payable		
KSTC	<u>\$ 29,919</u>	<u>\$ 42,588</u>
Accounts payable		
KSTC	<u>\$ 11,478</u>	<u>\$ 17,755</u>
KSCC	<u>6,878</u>	<u>6,796</u>
	<u>\$ 18,356</u>	<u>\$ 24,551</u>
Other payables		
KSTC	<u>\$ 33</u>	<u>\$ -</u>
KSUSA	<u>14</u>	<u>-</u>
	<u>\$ 47</u>	<u>\$ -</u>

The outstanding payables to related parties were unsecured.

f. Processing revenue

Related Party Name	For the Year Ended December 31	
	2022	2021
KSTC	<u>\$ 19,106</u>	<u>\$ 13,797</u>

Processing revenue was based on cost prices, and the collection term is 90 days.

g. Technical and service revenue

The Company entered into a service contract with the subsidiary, KSTC. The service revenue was based on the ratio of net sales of the specific products from KSTC. The service revenue were \$3,776 thousand and \$2,951 thousand (included in other gains and losses) for the years ended December 31, 2022 and 2021, respectively.

h. Commission

Marketing support and post-sales services were provided by KSUSA to the Company, and the commission expense based on the ratio of the sales amount of the specific customers were \$248 thousand and \$104 thousand (included in selling and marketing expenses) for the years ended December 31, 2022 and 2021, respectively.

The terms of the commission and payment were the same as unrelated parties.

i. Manpower services

The manpower services provided by the Company to KSTC were recognized as revenue amounting to \$8,100 thousand and \$3,732 thousand (included in the deduction of manufacturing expenses) for the years ended December 31, 2022 and 2021, respectively. In addition, the Company recognized cost amounting to \$356 thousand and \$139 thousand (included in the manufacturing expenses) in 2022 and 2021, respectively. The charges were based on the actual manpower and number of hours provided.

j. Other expenses

The Company paid service expenses to KSUSA amounting to \$661 thousand (included in selling and

marketing expenses), which were based on the actual cost of services provided for the year ended December 31, 2022.

k. Compensation of key management personnel

	For the Year Ended December 31	
	2022	2021
Short-term benefits	\$ 29,521	\$ 22,489
Post-employment benefits	<u>129</u>	<u>124</u>
	<u>\$ 29,650</u>	<u>\$ 22,613</u>

The remuneration of directors and other key management personnel is determined by the remuneration committee based on the performance of individuals and market trends.
